HINT McCARTHY BLACKMAIL IN HUNT’S SUICIDE

One of the reasons for the unhappy failure which both Republicans and Democrats display toward McCarthy is that the leader of the Republican Senate has been reported to have committed suicide. The Senate was asked why this incident did not happen before. It is stated that in his letter to the late senator, it was clear that Hunt was committing suicide. The fact is, it threatens to become a habit.

Govt. Sues United Fruit
In Cheap Publicity Bid

The anti-trust suit filed by the government against the United Fruit Company on July 5 is a fraud. It is designed to cover up the evidence against the U.S. Department of Commerce and the government monopoly. The suit is based on the following facts:

- The government has engaged in an antitrust suit against the company.
- The company has engaged in a series of actions against the government.
- The government is using this issue to cover up its own actions.

The Dollars That Didn’t Go Into Your House

For Carl Goodman

Are you giving as you should? Do you feel guilty? The look on your face is real, but, if you’re like most people, you probably think it’s a bit too much to go on. But, you’re not alone. Millions of people, just like you, are struggling to make ends meet. And, if you’re not careful, you could find yourself in trouble.

No, your bank account may not be showing any change, but in reality, you’re losing money. The dollars that didn’t go into your house are doing some unexpected things. (Continued on page 13)

The Fifth Amendment -- Bulwark In the Fight for Free Thought

By Daniel Roberts (First of two articles.)

The Fifth Amendment to the United States Constitution has long been a bulwark of the free speech and free thought movement. It has provided a shield against the arbitrary exercise of power by the Government.

The amendment states: "No person shall be held to answer for a capital or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation."

The amendment has been used by the Government to prevent the prosecution of individuals who have engaged in political activities, and to protect the rights of those who have been accused of crimes.

The amendment is a key provision of the Bill of Rights, and has been used to protect the rights of individuals against the arbitrary exercise of power by the Government.

The Stooligopeys Pay Off

The Department of Justice is now investigating three of its paid informers who were caught red-handed in conspiracy. The Justice Department is looking into a “stooligopey” scheme involving “investigations” of McCarthy. At any rate, the Attorney General is also looking into the affair, as is the FBI.

A stooligopey is a paid front for the Justice Department, possibly in exchange for money.

Mrs. Meyer Hits Fascists in Congress

By Dorothy Johnson

WASHINGTON, D.C. (AP) — Mrs. Meyer, the wife of former Congressman Maxwell E. May, delayed the opening of the 1934 session of Congress by introducing a bill to end the Hitler regime in Germany, according to sources close to the House. The bill was referred to the Committee on Foreign Affairs for further consideration.

The bill, titled "The Hitler Resolution," would require the United States government to impose economic sanctions against Germany unless it renounces its aggressive foreign policy.

"I urge all Members of Congress to support this resolution," Mrs. Meyer told reporters. "The Hitler regime is a threat to world peace and must be stopped at all costs."

The bill was introduced in response to recent reports of increased military expenditures in Germany and the expansion of its foreign policy.

The resolution calls for the imposition of economic sanctions, including a boycott of German goods and a ban on American travel to Germany, unless Germany renounces its aggressive foreign policy.

"The Hitler regime is a danger to our nation and the world," Mrs. Meyer said. "We must not stand idly by while this regime continues to threaten international stability."

The bill is expected to be debated by the House in the coming weeks.

Denounce State Dept. Knifing of Guatemala

NEW YORK, July 1 — The State Department's "neutral" policy in Guatemala has been sharply denounced by U.S. citizens in a protest meeting at the State Department Building in Washington, D.C. The meeting was called to denounce the State Department's "neutral" policy in Guatemala and to demand that the State Department take action to prevent further violence.

"We will not stand idly by while the State Department continues to ignore the suffering of the people of Guatemala," said one of the leaders of the protest.

The protest was organized by the Citizens' Commission to End Imperialism, a group of U.S. citizens who are concerned about the role of the U.S. government in Latin America.

The group has called for a moratorium on all U.S. aid to Guatemala, and for the imposition of economic sanctions against the country until the Guatemalan government proves its commitment to human rights.

The protest was attended by several hundred people, who chanted slogans and held signs calling for an end to the violence in Guatemala.

The State Department has been criticized for its "neutral" policy in Guatemala, which has been interpreted as a lack of support for the Guatemalan government.

"The State Department's "neutral" policy is a failure," said another leader of the protest. "It is time for the U.S. government to take a stand and support the people of Guatemala."
