**The Atrocities In Egypt**

An Editorial

The methods used by the British and French imperialists in their military on the Suez canal show that they consider their primary enemy is the Egyptian working people. A careful reading of the latest reports from the Suez city of Port Said reveals the following atrocities: On Nov. 4, a British diplomat commandeered one of the anti-imperialist newspapers and destroyed the working-class population of Port Said, destroying the workers' paper, killing and injuring thousands of working-class men, women, and children.

According to a British diplomat who visited the place, on Nov. 5, the Egyptian government sent a strong force of the Egyptian soldiers to Port Said to secure the newspaper. The British forces, however, were not able to prevent the attack and a great number of people were killed and wounded.

In the city of Port Said, many people have been killed and wounded by the British forces. The Egyptian government has ordered the British forces to withdraw from the city, but the British forces have not obeyed the order and continue to attack the city.

A group of the Egyptian workers is planning to go to Port Said to demand the withdrawal of the British forces from the city and to demand justice for the victims of the British attacks.

**Hungary Workers Defy Kremlin's Repressions**

The Hungarian workers have continued their struggle against the repressive measures of the Kremlin. On Nov. 26, workers of the Budapest Workers' Council met to discuss the situation and to plan further actions.

The council resolved to continue the struggle against the repressive measures of the Kremlin and to demand the withdrawal of the Soviet forces from Hungary.

The council also decided to organize a demonstration on Nov. 28 to demand the withdrawal of the Soviet forces from Hungary.

Gates Group Ducks Issue of Hungary

By Harry Ring

One of the results of the Hungarian revolution has been a sharpening of the struggle within the Communist Party. A number of the prominent rectors who were arrested by Party Oskars Wahn and his allies, and who have contributed to the Hungarian workers' movement in the last few years, have come under increasing pressure from the Party leadership to take a more active role in the revolutionary movement. This pressure has been accompanied by a growing clampdown on the independent press, with the arrest of many journalists and the closure of opposition newspapers. The exact nature of the conflict within the Party is still unclear, but it appears to be centered around the question of how the Party should best respond to the revolutionary situation.

The Militant

The revolution that began in Hungary last summer has been a result of a long-term struggle by the Hungarian workers and peasants to establish a socialist society. The Hungarian Workers' and Peasants' Revolutionary Committee (MPK) has been at the forefront of this struggle, and its leadership has been arrested and imprisoned. The Party leadership, on the other hand, has been trying to maintain control of the situation by pushing for a more gradual approach to socialism. This has led to a growing split within the Party, with some members calling for a more radical approach to the revolution.

How to Aid Hungarian Revolution

The principle of international working class solidarity obliges us to aid the Hungarian workers who are struggling for a historic struggle for national independence. But such aid must be not only moral; it must be of a practical nature. The Hungarian workers are fighting for their independence against the social imperialism of the U.S. State Department and the capitalist imperialism of the Western imperialist powers.

The Hungarian revolutionaries have declared that the struggle is not only for the independence of Hungary, but for the world revolution. The Hungarian revolutionaries are fighting for the abolition of the剥削制度, the capitalist system, and for the establishment of a world socialist society.

THE NEGRO STRUGGLE

By Joe Blake

The Negro Struggle

Some of us are getting terribly tired of the self-righteous statements of capitalist government officials. We read in the papers, of church leaders, and union bosses about the Negro's struggle. But, the struggle is not a matter of words. It is the struggle to live, to work, to be equal.

We, the Negroes, are a people who have been denied our basic rights for centuries. We are denied the right to vote, to own property, to be educated. We are denied the right to be treated as equals in society. We are denied the right to be free.

The struggle of the Negro is not a matter of words. It is a matter of action. It is a matter of dying. It is a matter of being shot down in the streets, in the churches, in the homes of our people.

The struggle of the Negro is not a matter of words. It is a matter of being made to choose between life and death. It is a matter of being forced to choose between being killed or being beaten.

The struggle of the Negro is not a matter of words. It is a matter of being made to choose between being free or being a slave. It is a matter of being made to choose between being a citizen or being a second-class citizen.

The struggle of the Negro is not a matter of words. It is a matter of being made to choose between being alive or being dead. It is a matter of being made to choose between being a human being or being an animal.

The struggle of the Negro is not a matter of words. It is a matter of being made to choose between being equal or being unequal. It is a matter of being made to choose between being a man or being a beast.
