HUNGARY LABOR FIGHTS SHOW DOWN

In Hungary

An Editorial

In the epic struggle now taking place in Hungary two primary powers are pitted against each other. On the one side are the Kremlin troops; on the other, the Workers defending imperialist interests Councils of the Hungarian industrial proletariat. Throughout Hungary, the Kremlin has the support only of its puppet Kadar government. The Workers Councils have the active support of the Hungarian peasants, soldiers and

The Kremlin's reactionary attitude towards these authentically revolutionary organs of the Hungarian workers was strikingly revealed in a Nov. 27 dispatch from Budapest by London Daily Worker correspondent Sam Russell. It was published here in the Dec. 9 Worker, Russell writes: "From my talks with these members of the Workers Councils it is evident that there is still a great deal of confusion about the role of the councils. . . Who Should Rule U. S. Imperialism Seeks to Take Over British, French Positions in Mid-East

As the smoke of the battle for the Suez Canal begins to clear, United States capitalism emerges as the only power capable of against the rising national independence movement of the Arab peoples. The U.S. is moving into the Middle East and North Africa to take over in the areas previously dominated by Britain and France. At the same time she is forced to put her imperialist rivals on the dole to prevent economic collapse in Western Europe. U.S. imperialism is obliged to

move gingerly in this process with somewhat different policies than those followed by Britain and France, but the fundamental aim is the same - to continue imperialist exploitation, particularly of the rich oil resources of the Middle East.

Attempts were made earlier to obtain the ultra-modern coliseum for the final event of the celebration of one-year's struggle against bus segregation. But the plans had to be abandoned when the City of Montgomery stipulated that use of the Coliseum would be permitted only on a segregated basis.

Dr. Martin Luther King, Jr. presided over this mass demonstration of solidarity in the fight for civil rights. The principal speaker on the program, was J. H. Jackson, President of the National Baptist Convention.

That the workers not only remained away from their jobs, but, in the face of Kadar's proclamation of martial law and summary death sentences, organized militant picket lines and roving squads is testified to by the complaints of the regime's newspaper, Nepszabadsag.

At the overflow union meeting of the BOP (Buick-Oldsmobile-Pontiac) local, Nov. 30, there was a strong sentiment that "if we can't get help from the International, what's the use of belonging to it." Regarding the International representatives, it was said that "these guys don't know what unionism is. They take off and we're

The shop chairman reported that a coffee gap after lunch was a monetary demand and could therefore not be negotiated on a local level; that the demand for one relief man to every 12 men was out of line with other BOP plants; and that minor demands were won on transfer provisions.

A SERIOUS WEAKNESS

Charney's case however is weakened when he grants the possibility that earlier Soviet intervention may have been justified to prevent a fascist victory.

But there can be no glossing over the Nov. 3 events, as Charney does. For, if there had been an imminent danger of fascist victory early in November, Soviet intervention would indeed have been justified. And classconscious workers would hardly risk demanding the withdrawal of Soviet troops today, although they would most assuredly demand an end to the suppression of the workers and the workers'

councils by the occupation force. However, what are the facts about the struggle in Hungary from its very beginning? It is not necessary to accept the picture painted by the West-with the pro-socialist demands obscured to make better anti-Soviet propaganda. And it certainly isn't necessary to accept the traditional frame-up charges of the Kremlin to the effect that the insurgents represent "fas-cist counterrevolutionaries," as Charney is inclined to do. Isn't the cumulative evidence of their frame-up technique enough to warn anyone against giving the slightest credence to claims of the Soviet bureaucrats?

What Is a Political Revolution?

Kremlin Counter-Revolution in Action

By Murry Weiss

What kind of a revolution is taking place in Hungary and Poland? This is certainly the main question that preoccupies the attention of the class-conscious workers internationally and most particularly the Polish and Hungarian working class themselves.

Aside from the Kremlin, whom nobody believes, it is universally recognized that revolution, in the fullest sense of the term, is exactly what is taking place in Hungary. To a lesser extent, it is acknowledged that Poland is passing through a revolutionary process—although with respect to Poland one hears a good deal of nonsense about "revolution from above," "revolution behind closed doors," "bloodless revolution," If by revolution we mean the

"The wrong crimes on the door of the of effecting fundamental social and political changes, then certainly we are witnessing genuers through these councils. They tion of the broad democratic co- ine revolutions in both Hungary and Poland. And for anyone who does not

wish to close his eyes to reality in favor of nurturing a dogma, it is clear that a revolution is brewing in the Soviet Union and throughout Eastern Europe.

PREPARATION **SINCE 1933**

We Trotskyists were not unprepared for this revolution. Since 1933 we have been preparing for its outbreak, analyzing its character, tracing its approach in every new symptomatic event and elaborating its program. After the bureaucratic and military integration of Eastern Europe into the social, economic and political structure of the Soviet Union the international Trotskyist movement brought its analysis of the approaching revolution up to date and gave a full appreciation of the role the countries of the "Buffer Zone" would play in it.

For Trotsky the "revolutionary national uprising" of an oppressed people under rule of the Soviet Great Russian bureaucracy "represents nothing else but a single segment of the political revolution." He advocated that the working class of the Soviet Union champion the national freedom aspirations of the subjugated minorities and by their class action "drive the revolutionary movement forward and increase the specific weight of the proletarian vanguard."

In reply to objections that autonomy for the nations oppressed by Stalinism would disrupt the all-Soviet economic plan, Trotsky said:

"It is impermissible to forget that the plunder and arbitrary rule of the bureaucracy consti tute an important integral part of the current economic plan, and exact a heavy toll from the Ukraine [and all the other oppressed nationalities-MW]. Thus, unlike the case of Russia, the socialist revolution was never ary action of the workers. The most striking aspect of this incompleteness is the failure of the [First of a series on Problems of national independence under the for next intallment.]

Hungary fell under the rulership of the Kremlin oppressors. The deepgoing aspiration of the Hungarian people for national liberation, never realized under capitalism, remained unrealized under the rule of the Muscovite bureaucracy. The bourgeois democratic task of achieving a free national development, a task the prevented from accomplishing by the interference of the Soviet bureaucracy, now becomes intertwined with the tasks of the political revolution.

Here we see the manner in which the bourgeois democratic revolution, the socialist revolution and the political revolution are combined and compressed within the current political revolution in Hungary.

This understanding of the character of the political revolution, while it may be unpleasing to lovers of simplified and rigid categories, corresponds fully to the real character of the actual historical development of the revolution with all its complex interlacing of the social, economic and political tasks of different epochs into the revolution of the modern working class in the Soviet orbit countries.

Of what importance then is the distinction between the social and political revolution? It is of decisive importance—as the experience of the Polish and Hungarian revolutions is demonstrating. The Trotskyist concept of political revolution is being realized in life by the Hungarian workers who demonstrate the highest degree of revolutionary understanding of this problem.

The Kremlin liars, in their attack on the Hungarian workers, have aimed precisely at the key question when they charge that the workers have been misled into fighting against the bureaucracy under the leadership of those who are actually aiming at the restoration of capitalist private property. By this charge the Soviet bureaucratic rulers are saying, in effect, that the workers are incapable of defending the progressive social acquisitions of the October Revolution—the nationalized and planned economic

Hubert Humphrey and Civil Rights

It is 80 years since Congress has enacted any civil rights legislation. Reports now coming from Washington clearly indicate that unless there is massive intervention on the part of the Negro and labor movements this reactionary record will be stretched to 81 years.

During the past election campaign the liberal Democrats, sparked largely by Senator Hubert Humphrey of Minnesota, corralled a goodly number of votes with the promise that in this session of Congress they would put up a real fight for the passage of civil rights legislation. They also pledged to fight on the opening day of Congress for amendment of Rule 22. This rule, which permits unlimited debate, lays the basis for the filibusters which have been used to talk civil rights bills to death.

Even after the election, the liberal Democrats kept up the pretense for a brief period that they were really going to make the fight on Rule 22. Organization of a bi-partisan group to win passage of the amendment was announced and it almost appeared that this time Humphrey and his cohorts meant business.

As was to be expected, the Democratic leader in the Senate, Lyndon Johnson of Texas, announced his firm opposition to any efforts to revise Rule 22. The Americans for Democratic Action then opened fire on Johnson, proposing that he "step

same position.

Harry Bridges. West Coast Longshore leader, has come out with a clear statement calling for a break with both the Republican and Democratic parties and for the formation of labor's own independent party. In the Nov. 9 Dispatcher, paper of the independent International Longshoremen's and Warehousemen's Union, Bridges

"The so-called two-party system is really a political prison as far as the working people are concerned. Whether they travel th one party or with the other they know that they'll end up at the same dead end when it comes to matters and issues of concern to workers and their families. We ought to face the facts about these two parties in our country."

In opposition to the policy of most AFL-CIO leaders as well as the leadership of the Communist Party, Bridges said: "The working people can't expect to play a real role in American political life so long as they're hogtied into the Democratic party. Nor, I believe, is there any real chance to change or rebuild the Democratic party from within."

In the last election, Bridges expressed his dissatisfaction with the official political policy of the labor movement by anmouncing that he would register Republican. At the that time we criticized this step as a futile and self-defeating course for the workers. In contrast to this solution by Bridges, Vincent Hallinan, prominent labor attorney in San Francisco.

WORKERS DEMOCRACY

As Lenin explained in The State and Revolution, the working class needs a soviet type of government to exercise its rule. It needs workers' democracy Such soviet-type forms were created by the Hungarian revolution in every city and region. Today, the revolutionary struggle against the Kremlin is conducted by these councils, headed by the Central Budapest Workers Council. For a Leninist, not a call for an abstract "political democracy" is the program, but

But no country can stand by itself economically or militarily. The working class having come to power in one country, must fight to extend the revolution to others and unite economically and militarily with them. Else, the revolution

will be hurled back and the workers will face reconquest by the capitalist orbit or renewed Kremlin domination. Stalinism and Social Democracy alike shun the international working class struggle like the plague. By switching from Stalinism to Social Democracy, Djilas stays on the utopian ground of national solutions.

The transcript of the interview, made available to the press by the author of the syndicated newspaper column, Washington-Merry-Go-Round, reveals that the Klan today is an armed conspiracy which aims to oppose by the use of terror (violence and threats of violence) the elimination of segregation.

In keeping with the conspirational nature of the hooded order, the Klansman kept his own identity secret. His answers to Pearson's questions, however, were quite frank and informative.

In response to Pearson's questions about the kind of people who are joining the Klan sinnce its revival. "Mr. K." said:

"Just ordinary Christian Gentile Americans . . . policemen, firemen, school teachers, mechanics, average citizens. . . In cities outside of Atlanta . . . some whole police departments belong . . . we have quite a few ministers . . . we have services in their churches in robes . . . Baptist preachers."

On the purpose of the revived Klan today:

"... Since those nine buzzards on the United States Supreme Court have abolished segregation and the Mason-Dixon line we had to establish the Smith & Wesson line." (Smith & Wesson, he explained, is a popular brand of firearms.)

At the KKK meetings speeches deal with "the Supreme Court, segregation, and memberships that we need to control the South."

"We're had the Klan in the past, we have it today, and it will remain in Georgia as long as we need it to maintain

white supremacy."

The Klansman was also quite explicit about the methods used by the KKK: "We're arming as fast as we can," he said.

They get their guns from dealers in Alexander City, Ala., and Atlanta, Ga. They conduct cross burnings once a week, carried out by a select few who "are experts at it," and attended by groups of about 150 "so we be sure to outnumber the police."

When they have a meeting with a motorcade, not a cross burning, they generally have a police escort. "Not in Atlanta, but in every other city besides Atlanta and Savannah, Ga., cooperates fully in providing a police escort. Sometimes they meet us at one city and leave us at another."

Mayor William B. Hartsfield and Ralph McGill, editor of the Constitution, are considered too friendly to Negroes by the Klan, and are candidates, "if we have to make an example of somebody."

The Klansman explained: "If one of them was made an example of by putting a little dynamite in their car or maybe shooting 'em, the next time we wouldn't have to go to such drastic measures. A word of warning would be sufficient."

The Klan is armed "not 100 per cent, On Regroupment but we're working rapidly in that direction . . . individual members are joining the National Riflemen's Association," the

Asked specifically, "What do you plan of the Soviet Union, Feb. 24-25, to do with the arms?", he replied, "Well, if we're forced to we'll have to use them." (To be continued)
