21 Cities in South Order
Desegregation of Buses

By Fred Habibian

The U.S. Senate voted 62 to 38 on January 4 to retain filibusters, as predicted. The Senate vote was the last in a series of legislative actions aimed at desegregating schools, as well as other matters. An attempt to desegregate the schools in this country, where, today, about 100 Atlantic Negroes have been allowed to sit in the opening of the South Carolina courts, or in the opening of the South Carolina courtrooms, or in the opening of the South Carolina Supreme Court, or in the opening of the South Carolina legislature, or in the opening of the South Carolina university, was foiled by the southern states and their allies.

In a recent ruling by the U.S. Supreme Court, the southern states and their allies have been ordered to desegregate their schools. This ruling has been upheld by the U.S. Supreme Court in a series of cases brought before it. The southern states and their allies have been ordered to desegregate their schools.

Socialist Workers Party Statement
On Polish and Hungarian Revolutions

The following is a news report. The Hungarian and Polish Revolutions and the crisis of Stalinism was adopted by the National Committee of the Socialist Workers Party at its meeting, Jan. 3-4.

The Hungarian and Polish Revolutions have again demonstrated the leading role of the working class in the transformation of society from capitalism to socialism. The world straitens for socialism, which has experienced a rapid acceleration since World War II, has been reversed.

The Hungarian and Polish events have confirmed the view taken last April by the National Committee of the Socialist Workers Party that a new stage has opened in the Polish and Hungarian revolutions. The crisis of Stalinism, which became manifest at the Twentieth Congress of the Communist Party of the Soviet Union, was interpreted in the meeting of the Committee as a sign of the intensity of the anti-Stalinist forces and the revolutionary power of the working class.

The events in Hungary and Poland, which came to a head in the crisis of Stalinism, were part of a world-wide process that led to the development of a new phase in the world revolution. The world-wide movement of the working class against the exploitation of man and the exploitation of nature.

**Political Revolution in Poland**

Facts and figures are a part of the DIWDR workers and students who resisted in Warsaw during Poland’s “October Revolution.” But the most important event movement throughout that period that contributed to the revolution was the movement of workers and students who went out to meet and build class consciousness and solidarity.

In Hungary, the bourgeois elements appeared in the national independence movement, hoping to stem the tide of the revolution. They engaged in a fierce battle against the Komintern, the workers’ council government, and the workers of the Budapest workers’ council. The struggle was fierce, and the workers’ council government was forced to take decisive action to preserve the revolution.

The Negro Struggle

U.S. Imperialism Takes Over

The Negro people should look with great distrust upon current pressures to "roll back" the idea of "mass defense" by the Negro people. This distrust should be based not only on the sympathy that some people feel for the freedom of others, but also on the fact that ever since the civil rights movement, the Negro people of the Middle East certainly are — and will always be — under the control of the US. imperialist program, as well as the Arab countries of the Middle East. This program is based on the oppression of the people of the Middle East, particularly the oppressed peoples of the Middle East and Africa.

The U.S. imperialist program is necessary because a "power vacuum" has developed in the Middle East. What is needed is a strong presence of the United States and the Arab states in the region. This presence will help to prevent the development of any power vacuum that could threaten the stability of the Middle East.

The system is that all powers of African independence should be subordinated to the US. imperialist program. The US. imperialist program is not interested in the independence of the African peoples, but only in the maintenance of its own power and influence in the region.

A.N.Y. Christmas Carol

By Bob Stone

Buried in the back pages of the Dec. 11 New York Times was a report about 210 tenants in the Bronx who brought the paper to court over the provision of inadequate heat.

Rents were raised by management 10 years ago and the new tenants had found the heat adequate in some apartments, but not others. The building was unheated because it was "in poor condition," the report said.

At the hearing, the building inspector testified that he had been looking for the delivery of the heat for weeks, and was now worried, since he had no place to go to, and was afraid of the living conditions.

Six tenants took the stand, and each testified that in all the tests taken in their apartments the readings ranged from 1 to 3 degrees below the normal temperature. According to the report, the temperature should be at least 68 degrees.

The report states that "many of the tenants closely examined by the inspector found the rooms to be cold and the heat not sufficient to keep them warm." The tenants said that they were cold and had to use blankets to keep warm. The report says that the heating system was not sufficient to keep the rooms warm, and that the tenants had to use blankets to keep warm.

One tenant, Miss H., said that she had to use blankets and a coat to keep warm. She said that she had to get up at 5 a.m. every morning to get the heat started.

U.S. Marines — A School for Poor Troopers

By Harry Gilman

The announcement that U.S. Marine Corps training officers were to be sent to the Mexican border with arms and ammunition to set up a training camp for the Mexican army has been met with a storm of protest from the Congress of Mexico.

The announcement has been met with a storm of protest from the Congress of Mexico, which has condemned the move as a violation of Mexican sovereignty.

One of the most recent movements has been the announcement that the United States is to send a military mission to Mexico to help the Mexican government in the battle against the revolution.

The Mexican government has asked the United States to send a military mission to Mexico to help in the battle against the revolution. The United States has agreed to send a military mission to Mexico, and the Mexican government has accepted the offer.

The move has been condemned by the United States government, which has said that it will not send a military mission to Mexico.

The United States government has said that it will not send a military mission to Mexico, and the Mexican government has accepted the offer.
