Prepares Drive on Labor As Sham Fight Against Bosses Nears End

In a deadline-moving move harking back to the old Hoover days, Roosevelt last week ordered the White House staff to “get out to the streets” and “do a big job” on anti-unionism. According to the White House, the drive was prompted by the exposure of the so-called “Great Depression” of the 1930s, which has been going on for over three years. The drive, which was initiated by President Herbert Hoover, was designed to suppress the activities of the American Federation of Labor and the Congress of Industrial Organizations.

A few days later, a new order arrived, this time from President Roosevelt, authorizing the U.S. Department of Labor to begin a campaign to suppress the activities of the American Federation of Labor and the Congress of Industrial Organizations. The new order was issued to the U.S. Department of Labor by President Roosevelt, who was quoted as saying that the campaign would be directed against the “radical wing” of the labor movement.

Sailors, Firemen Deal Heavy Blows To Bridges, C. P. Fakers

SAN FRANCISCO, Calif.—Progressive and militant unions scored notable victories this week in their drive to stamp out the “Bridges”-Bridges-Hallstedt-Hannegan clique in the state of Washington. Bridges and his followers have been trying to organize the state’s public employees for years, and have been successful in a number of instances.

The strike of the public employees in Washington State was called by the Bridges-Bridges-Hallstedt-Hannegan clique in response to the demands of the state employees for higher wages and better working conditions. The strike was called after negotiations between the state employees and the state employees association broke down.

PARTY CONVENTION ANALYZES POLITICAL SITUATION

Text of Resolution Adopted At Chicago By Founding Convention Of The S. W. P.

January 22, 1988

The political and economic situation in the United States continues to develop in the face of the world class struggle of imperialism versus the working class. A world crisis, a world war is developing in the world of imperialism and a world war--a new world war--is developing in the world of the working class. The world situation presents a single and inseparable whole and any attempt to separate these crises--to reason only in terms of one--is as artificial as it is in the interests of the working class. It is this point that the Convention accepted in its resolution.

Conflict Delayed by War

The world situation is dominated by the War in the Persian Gulf. This is a war, in a sense, more grandiose than any previous war, and yet it is a war that is fundamentally open and that, in the end, will open the whole of the world to the most tremendous revolutionary crisis.

Imperialists Seek

The United Nations recognizes a colossal, colossal war. This is the war in the Persian Gulf.

Parleys Not Sought With Sects

We do not parley with the imperialists of any party. We will not parley with the imperialists of the imperialist parties. We will not parley with the imperialists of the revolutionaries. We will not parley with the imperialists of the workers. We will not parley with the imperialists of the people.

Crisis Drives Ruling Class Toward War

The United States has not only not stopped the Persian Gulf war, but it has dictated the policies of the world imperialist leaders. It has dictated the policies of the United States. It has dictated the policies of the world. It has dictated the policies of the world. It has dictated the policies of the world. It has dictated the policies of the world.

2. Economic Conditions

The economic situation in the United States is dire. The economic situation in the United States is dire. The economic situation in the United States is dire. The economic situation in the United States is dire. The economic situation in the United States is dire.

3. Conclusion

In conclusion, the Convention accepted the resolution. The Convention accepted the resolution. The Convention accepted the resolution. The Convention accepted the resolution. The Convention accepted the resolution.
