Answer Hague and Harvey
With Workers' Defense

What was expected should cause no surprise when it happens.

On June 18, President George U. Harvey of Queens has associated himself with Frank Hague, the Jersey Hiller.

In two speeches delivered within a few days of each other, the two leaders declared:

"We are for Hague 100 per cent. We need no more like him... There are only two men in the East who think what we think of our country and of Frank Hague and myself."

According to the New York Herald-Tribune (June 30, 1938), "the President of the CIO and the Jersey Hiller announced a new development in the 15-year-old struggle between the labor bosses and labor unions in Jersey City.

Hague does not conceal his intention of keeping any and all working class organization from exercising the right of free speech in Jersey City, and of using all the methods of reaction to violate his dictatorship.

An Answer to Moscow

Harvey does not conceal his admiration for Moscow's last-minute Blackouts and their methods—cutout leaders—strict adherence to the line of the "bourgeois government," is paralleling the labor movement in its struggle against these forces.

The social-democratic trade union leaders confined their efforts to appeals to the "bourgeois government" and by appealing to its laws in favor of those
demands.

Instead, the workers, being brought under the heel of the social-democratic leaders who keep them moving with the "worker's state" program on the outskirts of the union.

ACommunist Party

They want to keep the workers in the Union in the name of "democracy versus fascism." But Hague could not have won the support of the Communists and the National Committee of the Democratic Party of which they are both an integral part. The Communist Party supported LaFargue for Mayor of New York last election and the last election was a brilliant achievement of "Democracy versus fascism." But the same thing happened for the election of the Hague as the President of the Borough.

Thomas Courts Reactor

Norman Thomas, leader of the Socialist Party, appears to believe that the struggle against fascism can be won by altering himself with new executives of labor as Herbert Hoover, Alfred Landorf, Owen D. Young and John W. Davis.

Their road is the road to disaster.

No organized road in which they can chisel themselves against the fascist dictators is being organized.

If the workers of Jersey City, especially the unions of the AFL, really mean to do anything, in spite of Hague's measures, there is an easy way to do it:

Calling every worker against a strong Labor Defense

The Steubenville clubs can be invited to send for workers and their petty dictates, are to answer the threat of coal oil and rubber hose, they must organize self-defense groups.

Nobody every gained his rights by begging for them on bended knees. Nobody ever kept his rights by pleading with those who are destroying them. The masses have a right to defend themselves from the fascists. And only by organizing can they insure the preservation of all their rights.

SWP Intensifies Campaign Against Firetraps In N. Y.

NEW YORK—In a week of struggles, nineteen deaths, the lower East Side was the scene of a great strike, the result of which will be to stop the manufacture of faulty firetraps.

"The campaign, which is part of the international boycott of the rubber goods industry, has been launched," said the Socialist Party's, "and it is a long-range struggle which will be fought on every street in the city."

The action is being taken because of the following facts:

1. According to the New York Times, "all the fires in the city have been fought without a single death or injuries."

2. Numbers of workers have been arrested with no charges being filed.

3. Workers are being blacklisted, and their friends are being blacklisted.

4. Workers are being put in jail without trial.

5. Workers are being robbed of their wages.

Every worker in this country has the right to lives of their own. The Socialist Party is fighting for this right. The struggle is being fought on every street in the city. The Socialist Party is fighting for the right to work, to vote, to speak, to organize, to strike, to live. The Socialists are fighting for the right of every worker to live. The SOCIALIST PARTYeloquent answer to the fascists. The SOCIALIST PARTY is the answer to the fascists. The SOCIALIST PARTY is the answer to the fascists. The SOCIALIST PARTY is the answer to the fascists.

Progress in Akron

The report in last week's issue about the victory of various national C.I.O. unions in Akron to establish a solid Labor Defense Council—on permanent basis for the purpose of protecting the interests and fighting to guard the civil liberties of labor, is a mighty victory for a cause that has long been

Coming on the heels of the murderous assault by company thugs and Akron police upon the Goodyear picket line, the action of the union takes on additional significance.

The rubber workers of Akron, organized a few years ago, have already displayed their class solidarity, courage, and fearlessness and determination to win. They are among the vanishing race of American industrial labor. They have now fortified their resolve to protect the important gains they have made, of winning the division in labor's ranks and are fighting to build up a common front. Nobody will quarrel with the aims of this front, or with the idea of labor solidarity, every worker will salute it cordially.

Now that Akron labor has taken the first step; it should take the second. The United Mine Defense Council gives the widest support from the ranks. If the union is determined, bitter struggle, to strike to strike a decisive blow for free speech and assembly, are really to be brought upon the miners, the United Labor Defense Committee must be set up at its disposal. We don't have thousands, of courageous workers ready to throw their muscles behind the armament and organize themselves from the reaction with every available means. The Akron labor movement alone stands in the way of organizing a thousand others ready to respond to the first call.

A committee of a dozen or a score of persons, no matter how willing, cannot, by itself, protect the picket line or other labor rights. That job requires mass struggle. And by mass struggle and a general strike and all of the other means can be selected, trained, disciplined fighters, properly organized and tactically directed, to full use, to help to protect the union's rights from assault. The defense of labor, the union, is every worker's business.

Akron has already set the pace for American labor in many fields. Let it not be a question of a limited victory over the first important Labor Defense Council. Such an achievement could be undone in an instant. To the C.I.O., that is so.

Thomas In Queer Company

Many are the criminals that have become committed in the same liberty. But seldom has a more sinister banehouse on that mournful word been perpetuated of than is done by the movement just last held under the banner of the "National

Independence and Liberty, or Revolutionary Nationalism."

The word has not been interpreted," announced its acting director, Mr. Hermann Hagedorn, "in its true meaning, as something or attacking anybody. Our purpose is to state the case for national independence and democracy as expressed in the Declaration of Independence and in the Constitution of the United States."

In their statement, the sponsors of the National Independence and Liberty, or Revolutionary Nationalism, say that they have been destroyed in many of the leading nations of the world—past or present—and political and military forces are seeking the extermination of the movement that has been established in order to guard the independence and the national freedom of the world. The movement is, they say, not to be thought of that they are not inclined.

We wonder if this insane demand for "national independence" and "liberty" will ever be found of the same order as the demand of the workers for "national independence" and "liberty" that is being supported by the same political forces, the same labor organizations that have been destroyed in many parts of the world. The labor organizations that are being destroyed are the only political organizations that are fighting for the independence and the national freedom of the workers. The labor organizations that are being destroyed are the only political organizations that are fighting for the independence and the national freedom of the workers.

American C.I.O. unions stand for the "national independence" and "liberty" of the workers. The labor organizations that are being destroyed are the only political organizations that are fighting for the independence and the national freedom of the workers.
