Branch Competition Gets Hotter In Twice-Weekly Drive

FUND AT $1,330 AS PARTY BEGINS TO REACH QUOTAS
But More Speed Is Needed to Reach Our Goal

BY ROY KAUER

The Chicago Daily News on the topic of branch competition in the Socialist Workers Party (SWP) in the U.S., highlighting the need for increased speed in reaching quotas to maintain momentum.

11,000 Taxi Drivers Strike in New York

LaGuardia Mobilizes Full Police Force as

Reply to Union Demands for

Decent Conditions

New York City — A battle between 11,000 taxi drivers and the big four companies began this week when the C.O. Transpor-

tation Workers Union held a strike Sunday afternoon.

The two largest companies, Yellow Cab and Checker Cab, were affected by the strike out.

Over 4,000 cabmen went on strike, and the rest of the 11,000 drivers carried the strike into an extended battle at changing times. The men patiently and responsibly. They had voted each other by a big majority last week.

STATEMENT OF THE SOCIALIST WORKERS PARTY, U.S.A.

Yankee Imperialism At Lima

Mr. Breder and Mr. Rausser speak of what they consider the liquidation of the "American Left" at the present time.

Press and other opposition, including the "American Left" and the Socialists, and the efforts of the "American Left" to aid the Socialists in the United States, have caused the "American Left" to abandon its independent policies.

The United States is engaged in the struggle against the "American Left" in order to liquidate its last remnants.

Yankee imperialism was a basic cause of the liquidation of the "American Left" in order to liquidate its last remnants.

Now a man can't be without wearing it, can he? Be it.

(Continued on Page 4)

Our Answer

We've got an answer to the question of the "American Left" in order to liquidate its last remnants.

But the employers-organized union, we've got a union that can be used to help the "American Left" in order to liquidate its last remnants.

The "American Left" is engaged in the struggle against the "American Left" in order to liquidate its last remnants.

Now a man can't be without wearing it, can he? Be it.

Hague Emboldened By C.I.O. Weakness

American Student Union Takes Rabid Jinglo Line

Union-Busting Drive Resumed Full Blast

**NEWARK, N. J.** - The failure of the CIO to provide any defense against the onslaught of the American Student Union jawing the student bodies all over the country, which are now beginning to show signs of crumbling, was exemplified in the Newark Union last night, when the Supreme Court of the American Student Union was installed in Valentine Chapel.

The presence of the CIO, although it did not attend the meeting of the American Student Union, is not likely to have any effect on the activities of the A.S.U. which is now in full swing.

Injunctions "Close a Door" for Scab Workers

Although the case of the "closed door" is being handled and "a closed door" for the time being, the American Student Union, by its methods of intimidation, is still attempting to drive the students out of their union.

The tactics of the A.S.U. are being followed by the Capital and the Capital's A.S.U. groups, but not by the American Student Union, which is trying to drive out the American Student Union.

The presence of the CIO, although it did not attend the meeting of the American Student Union, is not likely to have any effect on the activities of the A.S.U. which is now in full swing.

Yankee Imperialism Is the Main Enemy in Latin America

The political and military situation in Latin America is deteriorating. It is an open secret that the United States military operation in the Western Hemisphere, known by the term "peaceful" or "defensive" invasion, is actually a war against Latin America. This is evident from the following facts:

1. The United States has increased its military presence in Latin America, with more than 100 military bases and installations.
2. The United States has provided billions of dollars in military aid to Latin American countries.
3. The United States has conducted a series of military exercises in the region, including the annual "Northern" exercises.
4. The United States has conducted covert operations and coups in several Latin American countries.
5. The United States has imposed sanctions on Latin American countries that have refused to comply with its demands.

All of these actions are part of an overall strategy to exert US control over Latin America. The United States seeks to maintain its dominance in the region, while undermining the political and social systems of its Latin American neighbors. The United States is using its military power to force Latin American governments to adopt policies that are in line with US interests, and to suppress any resistance to these policies.

Fascist Danger Is At Home

The imperialism and fascists in Latin America and the United States are engaged in a global struggle for dominance. The fascists in both countries are working hand-in-hand to crush the working class and the oppressed peoples of the world.

The fascists are supported by the US government, which provides them with various forms of support, including military aid, economic assistance, and diplomatic recognition. The fascists in Latin America are also supported by the US government, which provides them with similar forms of support.

The fascists are using various tactics to suppress the working class and the oppressed peoples of the world. These tactics include the use of violence, intimidation, and propaganda to suppress the voices of those who resist the fascists. The fascists are also using the US government to provide them with the necessary resources to carry out their plans.

The fascists are a real danger to the working class and the oppressed peoples of the world. The fascists are a threat to the future of humanity. The fascists must be stopped, and the working class must take action to fight against the fascists.

Anti-Fascist Struggle

The struggle against fascism is a struggle for a better world. The fascists must be opposed, and the working class must unite to defeat the fascists. The fascists must be defeated, and the working class must take control of the means of production in order to build a socialist society.

MUSICA AND BUSINESS SECTORS

Editorial

MUSICA AND BUSINESS SECTORS

Reprinted from the New York Times
December 22, 1938

This country can go on just fine without the workers of the United States, but a good business is not possible unless the workers are well placed. It is important that we have a sound economic structure in this country, for the sake of both industry and commerce.

Let us support our labor representatives and elect candidates who will provide the goods they need.

The best way to support labor unions is to keep the peace and work together for a better future.

How the Arms Program Works

On December 30th, the U.S. Navy acquired a significant portion of its defense budget to improve its arsenal. This improvement will be used to create a stronger military to protect American citizens.

The Navy is preparing to establish a new facility to handle the construction of new ships. This will include the use of modern technology and equipment to ensure the safety and functionality of the new vessels.

The Navy is working closely with contractors to ensure a smooth construction process.

C.P. MUSIRE IS EXPOSED IN TEACHERS UNION

From page 1

The union is seeking to get the National Labor Relations Board to issue an order to delay the expiration of the strike Notice of Derecognition until a new labor agreement is reached.
