BASE TREACHERY AT END

American, English, and French press continued over the week end to make propaganda for the bourgeois parties in Spain, which the government would make them, further. It would be an entirely different task for Negrin and Mijas to create a political party in Spanish political life. The situation of Mijas and Negrin is serious. The struggle against Fascism in Spain is going to be dangerous. This must be emphasized.

Could Negrin and Mijas get the half-million soldiers in central Spain to recognize the new government? It is not at all likely. It would be a difficult task for them to be able to keep their position in central Spain. For this reason, it is likely that the Spanish government, of governing a new authoritarian state, that they are now making an attempt at the time. The death of Mijas and Negrin is a serious task for the party.

ROOSEVELT AGAIN COVERS UP CUT IN RELIEF FUNDS

Gives Pretty Speech To Hash Protest Movement

In a special message on relief, issued in Congress on Tuesday, President Roosevelt tried to clear his name of responsibility for the social program that was supposed to be the solution to the problem of the unemployed and which is now being called for by a new group of political leaders in the United States.

The speech was characterized by a careful selection of the words used to describe the situation of the unemployed, the group that is now being referred to as the "roosevelite" group. The President's message, in fact, was a careful selection of the words used to describe the situation of the unemployed, the group that is now being referred to as the "roosevelite" group.

The President's message was clear and direct. He spoke of the "relief" program, of the "relief" measures that were being taken, and of the "relief" funds that were being used. He avoided any mention of the "relief" cuts that were being made, and he did not mention the "relief" program that was supposed to be the solution to the problem of the unemployed.

THE NEW APEAL?

It is now owned by the Auto Workers. The first issue has appeared and the workers have had full control since it was founded. The quality of the workers' control of the paper has been reflected in its content, which is now much more relevant to the workers' lives on the job.

In the days of Workers Weekly, the in-house newspaper mentioned in the previous issue, the Auto Workers had been involved in a struggle for better working conditions. The paper was closed down and the workers took over its production, renaming it The Appeal. Since then, The Appeal has been the main voice of the Auto Workers' movement.

The Appeal is published once a week, and is distributed to Auto Workers across the country. It covers a wide range of topics, from local issues to national and international developments.

The Appeal is an independent publication, and is not owned by any political party. It strives to provide a platform for workers to express their opinions and experiences, and to discuss their struggles for better working conditions.

The Appeal is available in both print and digital formats. You can read it online or download the app to receive the latest issue straight to your phone.

The Appeal is a vital resource for Auto Workers, and a key component of the struggle for workers' rights and justice.

Brewery Workers Success Points to Martel Ouster

The development will have an important influence on the course of the strike. The brewery workers, who are represented by the Communist-dominated Bottles and Cans Workers' Union, have been in a four-day strike in the Chicago area. The workers, who are demanding a raise in wages, are seeking a contract that would raise the minimum wage to $3.50 per hour. The strike is expected to continue for several more days, as both sides remain intransigent. The strike may lead to a prolonged labor dispute in the industry.

The brewery drivers, who are also represented by the Bottles and Cans Workers' Union, have been in a strike for several days. They are demanding a raise in wages and an end to the practice of being forced to work overtime without additional pay. The strike has caused a significant disruption in the delivery of beer to bars and restaurants in the area. The strike may be resolved by the end of the week, as both sides remain in talks.

The strike in the Chicago area is a significant development in the labor movement. It is the latest in a series of strikes that have occurred in the industry in recent months. The strikes have been fueled by a growing sense of frustration among workers, who are seeking better wages and working conditions.

It is to everyone's surprise that the Fascist organizations have been able to organize such a difficult and dangerous fight, but the reason is clear. The Fascist organizations have been able to organize such a difficult and dangerous fight because of the weakness of the workers' movement.
