F.D.R. and the 60 Families Understand Only the Language of Class Action!

We address these words to the unemployed.

We ask, fellow-workers and comrades: do you understand what is happening in this country? Do you realize that under the control of the American industrial policy — a policy of starving millions — Congress, there is now taking place THE SHARPEST AND MOST SHAMEFUL REPRESSION — THE ACTUAL DESTRUCTION OF YOUR RIGHTS — ALL YOUR RIGHTS — YOUR FAMILY RIGHTS — SINCE THE GREAT CRISIS BEGAN IN 1929.

Do you know what an exaggeration? It is easy enough to prove it beyond doubt.

On election day last November the W.P.A. rolls stood at 3,500,000. This figure was itself completely inadequate in post-election politics, but the level that was reached in January 1930 should have been maintained until at least the end of the year to prevent the same crimes being repeated.

But, shamefully and as a result of the number of jobs and the number of the unemployed, compared to the situation today, and sooner than expected to what it will be the case these months from now—unless you do something about it.

The day after the elections were safely out of the way, the war on W.P.A. started. With Congress not in session, Roosevelt slashed 310,000 of the rolls between election day and January 1.

Between January 1 and April 1, 40,000 alien workers were dropped, bringing the number on W.P.A. down to 3,000,000.

During the first week of April 200,000 more got their tickets.

And soon after the 200,000, the first week of the month’s work, 500,000 more were dropped. By the end of the first week of the month, W.P.A. rolls will have been reduced to a maximum of about 2,300,000.

Unemployment Increases

According to the relief budget which Roosevelt has presented to Congress, there will be cut to 200,000 in July.

In eight months, from 3,500,000 to 2,000,000, that is about 1,500,000, or 70%.

To these 5,000,000 people, a wage of $55 a month would be a great relief in the suffering of many of the millions, simply being left to starve.

Theoretically this is being transferred to a home relief which is hardly better.

During these three months, the total of unemployment has decreased tremendously. That this relief has gone up by hundreds of thousands. Industrial production is running about 15% behind the November report, and the $55 relief bill has been reduced to the point where it is literally called “imposable rate.”

What to Do About It?

We want you, fellow-workers: what are you going to do about this attack on the health and very lives of millions of our families?

Are you going to sit and take it and live like slaves and cowards? Are you going to watch, and do nothing, while your wives are crying and your children are hungry, while you are sick and you have no money to call a doctor, while all of you suffer, and a few get $55? Are you going to be passive?

This attack is not going to stop because of any prayers or hopes on your part. It will continue, and get worse every month. Not merely will hundreds of thousands be dropped from W.P.A. the average wage of those who remain will be lowered, and home relief will be driven down toward the burning point.

The attack has been opened up for now and only one thing can stop it: as the unemployed are the victims, we have nothing left but our own activity of the working class will restore the trend to welfare when, and only when, you really begin fighting.

Roosevelt Acts for Sixty Families

If you have been told that you have nothing to do, you have been told by John L. Lewis and his associates, by Earl Browder and his party and its Workers’ Alliance, to sit down and wait for the W.P.A. to give you some work. This is not true. Roosevelt was your President and leader and would help you. Roosevelt is not, and never was, a political leader.

This is a direct, flat lie. Roosevelt was not, and never was, the President of the banks and the Sixty Families. He began this attack on you, in January 1930, and on all unemployed since then, in protest against the President of the Sixty Families. He began this attack in January 1930, against the Sixty Families, and on all unemployed since then, as a protest against the President of the Sixty Families. He beginning this attack on you, in 1930, in January, and has continued it since. Roosevelt addressed himself, in fact, to the working class members of the Sixty Families, and to them alone.

The W.P.A. was a good thing and was in the interest of working-class people and won the whole country.
Powers' Continue Maneuvers for War Alliances

By D. J. Wickey

Too many reports have been made of the real meaning of the new alliance with the U.S. and Great Britain. The real meaning lies in the fact that the U.S. and Great Britain are now in a position to carry out their plans for world domination.

The new alliance has given the U.S. and Great Britain a powerful weapon with which to achieve their goals. This weapon is the ability to exert influence over the economies of other countries.

The U.S. and Great Britain have been working for many years to develop their economies into global powerhouses. They have done this by building up an industrial base that can produce goods for the world market.

The new alliance gives them the ability to control the prices of these goods, thereby dictating the terms of trade for other countries. This allows them to extract wealth from other countries and use it to further their own interests.

In addition, the new alliance gives the U.S. and Great Britain the ability to impose sanctions on other countries. This allows them to cut off the flow of goods and services to countries that do not comply with their wishes.

The real meaning of the new alliance is that it gives the U.S. and Great Britain a powerful tool to achieve their goals of world domination. They are now in a position to exert control over the economies of other countries and use this control to extract wealth and power for themselves.

In summary, the new alliance is a clear indication of the intent of the U.S. and Great Britain to dominate the world economy and use it to further their own interests. It is a stark reminder of the dangers of international cooperation when it is in the hands of a powerful nation.
State Solons Battle For Slum Landlord

Inadequate Housing Bill Puts Burden on Workers—Volunteers' Demands

By GRACE SAUNDERS

The New York State legislature is now faced with a housing problem that has become intensified in recent months. As a result of the housing crisis, the state has been forced to take some steps to alleviate the situation. However, the inadequacy of existing housing measures has led to demands for more comprehensive legislation. Volunteers have been active in advocating policies that would provide adequate housing for all New Yorkers. The struggle continues, and the fight for better housing conditions is ongoing.

Protests Mount On School Budget Cuts

Thousands of Teachers Face Dismissal—Y.P.S. Plans City Hall Picket Line

By W. S. MANDEL

In an effort to address the budget cuts that threaten thousands of teachers, the Young Peoples' Society (Y.P.S.) has announced plans for a city hall picket line. The organization is highlighting the impact of the budget cuts on public education, urging immediate action to prevent further layoffs and to ensure a fair distribution of resources. The protest is scheduled for the coming weeks, with teachers and supporters expected to demandfair funding for schools and the protection of jobs.

Jingo Note Loudest At Y.C.L. Meeting

By MAURICE STEIN

At the recent Young Citizens League (Y.C.L.) meeting, patriotic sentiments were on full display. The atmosphere was charged with the spirit of national pride, with discussions focused on issues related to international diplomacy and national security. The meeting served as a platform for members to express their views on matters of national importance and to engage in lively debates on how to best project national interests on the global stage.

Men and Women of Labor

OUT OF THE PAST

By EMANUEL GARETT

Menashe Buchar

April 19, 1939—New York City, New York

There were times when I knew I would never live to see the day when I would be able to write about this subject. But now that I have, it is with great pleasure that I present this article to you. In my experience, I have learned that it is not always easy to find the words to express one's feelings, but I am determined to do so. I hope that my words will convey the message that I have always believed in: the value of hard work and perseverance, and the importance of never giving up on our dreams.

Daily Highlights of the N.Y. World's Fair

By RUTH JEFFRIES

May 8—New York City, New York

The New York World's Fair opened to the public on May 8th, 1933. Visitors were greeted by a dazzling display of exhibits from around the world, showcasing innovative technologies, art, and architecture. The fair attracted millions of visitors, who marveled at the exhibits and enjoyed the vibrant atmosphere. It was a time of great excitement and wonder, and it remains a memorable event in the history of New York City.

Yipsels Jailed for Aiding Calif. Agricultural Strikers

By LUCY SNYDER

Fresno, Calif., May 8—Arrests and court orders come as a declaration of war against the strikers. A group of young people, the "Yipsel" movement, has been active in supporting the agricultural workers' struggle. Their efforts have led to legal action against them, with several young men arrested and facing charges.

DOMESTIC REPO

After the recent conflict in the Middle East, the United Nations has been working to restore peace and stability in the region. The international body has played a crucial role in mediating the talks and ensuring a negotiated solution. Efforts continue, with the goal of achieving a lasting peace. The UN's commitment to global security and cooperation remains strong, and its impact on international relations is significant.
CannonFodderDoesNotNeedAnEducation—SoDoesTheBossRule

By Max Schachtman

It is the job of the Teachers Union to Organize Mass Agitation for the Cuts Enacted Under Pressure of Real Estate Owners by "Lobby's Friends"

There are few things more admirable and encouraging than the work of the teachers who, in their efforts to safeguard the future of the youth, are staging a mass campaign against the cuts. This campaign has been met with fierce opposition from real estate owners and lobby's friends, who are using every means at their disposal to prevent the teachers from carrying out their duties. The teachers, however, are determined to continue their struggle until victory is achieved.

High Time!

In the Congressional Record, wherever everything is said to be "at its highest" or "at its peak," the following speech appeared recently: "MR. KUHALA: Mr. Speaker, you are at the highest point of your power and you are at the peak of your authority, but you are not at your highest point of your power and you are not at your peak of your authority." This is a very significant statement. It is the height of dignity and politeness to talk about your power and authority in such terms, and it is the height of the absurdity to talk about your power and authority in such terms. There is no such thing as a "highest point" or a "peak of authority."

Lewis and F.D.R.

John L. Lewis, head of the United Mine Workers of America and the CIO, has been making a strong appeal for the New Deal administration to continue its programs for the immediate relief of unemployment. He is urging the administration to maintain its efforts on the labor front and to face the issue of unemployment with energy. The administration has expressed its willingness to continue its programs, and there is now a strong feeling that the administration will continue its efforts.

In "World of Tomorrow" Setting Writers Urge a World Today

By Dorothy Williams

A group of writers, editors, and publishers gathered in New York City last week to discuss the implications of "World of Tomorrow," a new novel by Robert A. Heinlein, and to consider the role of writers in shaping the future. The novel, which imagines a world in which the United States has become an empire, raises questions about the nature of power and control. The writers agreed that it is important for writers to consider the implications of their work and to work to create a world that is more just and equitable.

Special Offer at 35c

(Until June 1st)

Twelve-Week Challenge of Youth

Raymond Oakes: Chief of the Youth Wing of the National Manufacturers Association, which has been closely watching the developments in the labor movement, has expressed his appreciation for the efforts of the writers to promote a more just society.

The Way to Make Capitalism "Work"

Recently introduced with the German experimental "social capital" program, the new system, called "social capitalism," is being hailed as a major step forward in the development of a more equitable society. The program, which provides for a guaranteed minimum income for all citizens, is designed to reduce the economic disparities between rich and poor. It has been met with great enthusiasm by both the working class and the middle class, and it is expected to have a profound impact on the way society is organized and run.
