Stop Fascism In America!
Will Father Coughlin Become Dictator of the United States?

By JOSEPH RANEN

Mussolini Promises Everything to Everybody
First Benito Mussolini added the title "Duce" to his name and made himself the absolute authority. He bolstered this authority when he ordered that every man must be shot for a slip, knock his head, shoot out his jaw pugnaciously, and raised his arm in a powerful salute.

He promised the bourgeoises and desperate people outside the labor movement who hungered for something with enough boldness and authority to lead them from their misery to the plenty which Italian industry could provide.

Then "Duce" began promising.

He assured the stockbrocking capitalists that no matter what they might demand, he planned to keep to the promise made to them to preserve their private property. In fact, he said that the state would be an instrument of the state, to manage the production of capital. We will not accept any dictatorship!" (Propaganda D' Italia, July 25, 1934, quoted in The Philadelphia Inquirer, Sept. 1, 1934.

"Duce" in his public speeches even supported some of the acts of the Fascists.

The Black Shirts, of course, continued "taking action not wanted by the world's enemies," but it with eloquent speeches in the gang.

Anti-Labor Practices Laid At Door of Armour Meat Co.

Packhouse Workers Union Accuses Company of Violating Wagner Act

Chicago, Aug. 1 — Charges that Armour & Company, the nation's largest meat-packing concern, have been violating the labor laws were made by the United Packing House and Allied Workers Union at a meeting here today.

The charges were made by an official of the union who said that Armour & Company had been violating the Wagner Act. He stated that Armour & Company had refused to bargain with the union.

Permanent Defense Guards

The most notable development of the strike was the strike of the employees of "Armour & Company," said the union, in order to protect their rights and their wages. The union is demanding that the workers be allowed to return to their jobs.

The union officials claimed that Armour & Company had refused to bargain with the union.

The union has called a meeting of the employees of Armour & Company to discuss the strike.

Favors for Coughlinites, Stiff Fines for Anti-Coughlinists

NEW YORK, Aug. 1 — Mayor LaFollette's withdrawal of the Coughlinites vote in the Democratic primary election has given an opening to certain leaders in the socialist movement.

The second was by a socialist leader who was a second-generation socialist.

The leader called himself "Pitt the elder" and he went on to say that Pitt had been a great leader.

In Pitt the elder's day, Pitt's admirers made several attempts to establish an independent Pittite faction.

The fact that "Pittes" glorious, General Secretary, has practically all the votes of the striking workers in the Gorey plant, and that the first attempt made to establish Pitt's faction has failed, makes it certain that Pitt's faction will be successful.

The Defense of the Italian Workers

The average worker felt that there was only one way in which he could define himself from the terrorism and violence that surrounded him. That was to form a union to protect his interests. In many sections of Italy the workers began to organize. The Terzo Internazionale, a group of socialist workers, was formed in the south of Italy. The unit on its own initiative formed the Italian Trade Union Movement, which was the only revolutionary union in Italy, the only organization that could effectively resist the Fascists. The workers knew this, and they were determined to organize. To do this, they needed the help of the Church.

To those who use in the nobility and the clergy to their advantage, Mussolini says: "Abolition of the Monarchy, the Senate, and the Nobility." To the workers, he offered a different message. From the Roman Catholic Church he promised "conversion of all Churches." And to the small merchants he appealed with a program of taxing the rich and hiking the huge profits piled up by foreign bankers.

"We demand," (a heavy extraneous tax on capital) "the abolition of the Nobility." "We demand" (abolishing the Senate), "the conversion of all war-profiteers contracts and seizure of all property of those who have profited from the war." "We demand," (a serious tax on profits), "the abolition of the great banks." (Continued from Page 3)

The Negro Department Plans Work

The National Negro Congress has been appointed and is now at work. The Negro Department has been formed, and the showing of a small labor organization in the South have been obtained. The Negroes are invited to be part of the movement.

A three-month program of the Negro Department, to begin in the first number of a Negro newspaper, will be announced. The program will include the following: the Negro Department for the Social Revolution—North and South; a special Negro issue of the Social Revolution for the Southern Negro, to be published in November. A special Negro number of the Social Revolution will be devoted to the Negro Department, and to make the Negro Department a permanent feature of the Social Revolution.

**Union Leader Addresses Open Letter to P.D.R. on WPA Cuts**

Dear Mr. President,

I am writing to express my concern about the proposed cuts in the Works Progress Administration (WPA) and to urge you to reconsider.

The WPA has been an important program for providing jobs and helping to rebuild our nation after the Depression. It has helped to create thousands of jobs and has contributed to the economic growth of the country.

I understand that you are concerned about the budget and are looking for ways to cut costs. However, I believe that the WPA is too important to be cut.

The WPA is not only a job program, but it is also a program that is helping to build our nation. It is helping to create infrastructure, such as roads and bridges, that are needed for the future.

I urge you to consider the importance of the WPA and to think twice before cutting it.

Sincerely,

The wonder sometimes something the fascists and other anti-Stalinists get up all the nerves required for an intimate conversation with the fascist leaders of this country. It is their strategy that it is no longer necessary to require an intimate conversation because it is not a question of black or white but of the question of those who are trained in the art of organizing and those who are not. In this at least a wide section of mankind.

Delegates from some of the nations of Europe on the occasion of the International Students' Congress met in the city of Mayaguez and were addressed by the Commissar for Students and the Commissar for Organization. The delegates were of the opinion that the masses of the fascist leaders of this country are trained in the art of organizing and those who are not. In this at least a wide section of mankind.

The fascist leaders of this country are almost all trained in the art of organizing and those who are not. In this at least a wide section of mankind.
