VICTORY DEMONSTRATION IN UNISON SQUARE!

Party Swings Into Action on National Anti-War Campaign

Reports from Branches Show Real Progress In Activity, But Fund Collections Lack Behind the Rest of the Campaign

By HAL DAPER Secretary Campaign Committee (Chairman)

There was a lot of action in the city this week. Everywhere you looked, there were people marching, protesting, and carrying signs and banners. The atmosphere was electric, with a sense of camaraderie among the activists. There was even a march to the city hall, where hundreds of people gathered to demand action on the war.

The anti-war movement has gained momentum, with more and more people joining the protests. There were reports of successful actions, such as a sit-in at the local courthouse, where protesters blocked the entrance and demanded justice for the victims of the war.

However, despite the increased activity, fundraising efforts were lagging behind. The campaign committee was disappointed with the lack of support, and called for a renewed effort to raise funds for the cause.

We need your help! Join the movement today and support the anti-war cause. Together, we can make a difference.

LYNN

The Lynn branch secretary, Mary Johnson, writes: "We need more volunteers. We need more people to join the fight against the war. If you can contribute even a small amount, please do so. Every little bit helps."

ARMS, MONEY, trimmen

"We need more funds," she said. "We need more money. We need more people to contribute. We need more arms to fight the war. We need more..."

She paused, lost in thought.

The phone rang, cutting through her monologue.

"Hello," she said, her voice answering the phone. "This is the Lynn branch of the national anti-war committee."
CLEVELAND, Ohio—A much needed victory toward the establishment of a national union was won by the AFL-CIO Wednesday in a showdown with the tax collector. The Cleveland Round Table, according to union officials, was the first time a national union was organized in the area.

The union, which was formed by the Cleveland Round Table, is a national organization of professionals in the field of tax collection. It represents about 2,000 tax collectors from across the country.

The union’s main objectives are to improve working conditions for tax collectors, increase their pay and benefits, and ensure that they have access to training and development opportunities.

In the Labor Unions

By B. J. WICKER

NEW YORK—The American Federation of Labor-Congress of Industrial Organizations (AFL-CIO) announced Wednesday that it had won a major victory in its struggle to organize the tax collector profession.

The union, which represents about 2,000 tax collectors across the country, has been working for several years to secure recognition and collective bargaining rights for its members.

On Wednesday, the AFL-CIO announced that it had reached a tentative agreement with the Cleveland Round Table, which represents about 2,000 tax collectors in the Cleveland area.

The agreement includes provisions for a $1,000 per year increase in base pay, a $1,000 per year increase in pension benefits, and an additional $1,000 per year in health and welfare benefits.

The union also won the right to negotiate directly with the Cleveland Round Table on all matters concerning wages, hours, and working conditions.

The agreement is set to expire in 2025. The AFL-CIO said it will continue to work with the Cleveland Round Table to improve working conditions and benefits for tax collectors in the future.

SPARKS IN THE NEWS

Autowraphic Progress—In Reverse

The idea of a man-made world is the subject of a recent article by the author of "A Wrinkle in Time," Madeleine L'Engle. She suggests that we should be more concerned with the "wrinkles" in the fabric of our world, rather than trying to make it smoother or more uniform.

The result: "A Wrinkle in Time" is now a bestseller and has been translated into 20 languages.

Who Won the World War?

Is This What the Worked for the Markets!

The question of who won World War II is still being debated. Some argue that the United States made the biggest contribution by providing the war's technology, while others believe that the Soviet Union played a crucial role by providing the war's manpower.

In the end, it may be a question of perspective. Some may see it as a victory for democracy, while others may see it as a victory for capitalism.

In an "HONORABLE" WAR

Editor:

We are here to report the fact of 1940 at the American Civil Liberties Union that states that for the first time in its history, the ACLU has turned down a request for legal aid in a prisoner of war case.

The ACLU, which is a private, non-profit organization, has traditionally provided legal aid to prisoners of war, but this year it has declined to do so. This is the first time in the ACLU's history that it has turned down a request for legal aid in a prisoner of war case.

"Our Career and Our Triumph"

The story of the struggle for freedom and democracy.

I am writing this letter from my prison cell. I have been denied the right to a trial and I have been denied the right to speak with my lawyer. I am being held without charge and without trial for the crime of expressing my opinions.

My name is Benito Mussolini, and I am the dictator of Italy. I have been held in prison for the last five years, and I am still held there.

September New International Features Situation in WPA

The situation in September is still quite tense, with new international developments taking place regularly. The United States has been providing military aid to many countries, and there has been an increase in political tensions in the Middle East.

Negro Deceived by "Democracy"

Today the lives of over 90 percent of the Negroes in this country are controlled by the white people. They are controlled by the white people in their jobs, their homes, their schools, and their churches.

The Negro is not given any real freedom, and he is not given any real chance to participate in the political process.

The struggle for true democracy is ongoing, and the Negro is still far from achieving it.

American Marxists Have Underestimated the Negro

What Lincoln learned by experience, we are learning by experience today. In the struggle for the Negro's freedom, the Communist Party has been unsuccessful. The Negro is still not free, and the struggle continues.
Morgan's War

Our first issue of this autumn signified a fact about the War Dictatorship Board which President Roosevelt revealed. Reporting as usual, he has to face the unpleasing fact that the probably will be a great deal of public opposition to the War. As a matter of fact, it seems to me that there are a great many things that should be done to avoid the spread of the panic which is now growing among the people. The public must be made to understand the consequences of the War.
