N. J. SURVEY SHOWS WORKERS WANT UNION CONTROL OF MILITARY TRAINING

CAL. BOSSES WANT TO STOP "LABOR ROWS" Drive Against Unions On Prestige of "National Defense"

LOS ANGELES: The Manufacturers and Machine Tool Operators Association has planned Los Angeles labor organizations and political leaders for a campaign to rid the city of the "labor rows" that have developed in the past few years. The campaign is expected to be a major factor in the election of men to the city council and to the state legislature.

"The labor rows," according to the association, "are nothing more than a bunch of bad apples. They are responsible for the destruction of the reputation of Los Angeles as a city of tolerance and freedom. They are a blot on the record of the city and must be eliminated." The association plans to organize a "labor row" committee to carry on its campaign.

FLINT, Mich., Sept. 19-The 1940 census reported that the city of Flint, with a population of 151,000, was the largest city in the state of Michigan. The census also reported that Flint had the highest percentage of workers in manufacturing of any city in the state, with 45% of its workers employed in that industry.

"The city of Flint is unique in the state," said Mayor J. W. Smith. "It has a diversified economy and a strong manufacturing base. It is a city of industry and of workers." Mayor Smith added that the city was proud of its record and was determined to maintain it.

"We will continue to work hard to improve the quality of life for our residents," said Mayor Smith. "We will continue to invest in our community and to make Flint a better place to live." Mayor Smith concluded by thanking all the citizens of Flint for their support and for their hard work.

Oswald must stop the union control of the trades union council of the city! It is no secret that Oswald is a member of the Communist Party and that he has been involved in various militant union activities. His actions have caused great concern among many workers and employers, who fear that he may lead the union to do things that are harmful to the city.

"Oswald is a dangerous man," said John Smith, president of the local union. "We cannot allow him to control our union. We must do everything in our power to stop him." Smith added that the union would take all necessary actions to ensure that Oswald was removed from the council.

In this organized crime, which is a tool of the Communist Party, there is no place for a man like Oswald. He must be stopped before he can do any more damage.
