Negroes Repudiate Jim Crow Army Policy of Roosevelt

Charge White House Statement Quoted Them as Agreeing To Segregation, When They Had Really Denounced It

A Negro committee this week declared it "repudiated and disowned" a statement from the White House which deplored the fact that that committee had approved Roosevelt's policy of segregation of Negroes in the Army.

The committee of three—Phillip Randolph, president of the Brotherhood of Sleeping Car Porters; John L. Lewis, president of the United Mine Workers; and William J.进程，president of the National Association for the Advancement of Colored People—was appointed last Wednesday by the White House as a "friend of the Negro.

"We seek proof that even one of the Negroes of the committee is not unequivocally against discrimination, so that if we cannot endorse Roosevelt's policy, we can be cited as endorsing a Negro policy," Mr. Roosevelt said in the White House statement as a "friend of the Negro.

The telegram also declared: "We move at the very moment of your approval of War Department instructions to the Army that all Negro officers shall be prohibited from serving in the Army except in the Signal Service, officers under other than two-year guard regiments, and clerical and staff officers.

"As to the Negroes, we believe they are now working to advance the cause of the Negro, and we believe they are therefore entitled to the approval of the Negro policy of the Government.

"We have found that the Negroes are not only working to advance the cause of the Negro, but they are also working to advance the cause of the Nation.

"The Negroes have always been a part of the Nation, and we believe that they should be a part of the Nation.

The committee declared that Negroes are entitled to the same rights as other Americans, and that they should be treated as such.

Auto Union is aroused by GM attacks

Negroes and other workers are demanding action from the General Motors Corporation to stop the discrimination they face.

"We are tired of being treated like second-class citizens," said a Negro who works in the plant.

"We have been working at this plant for years, and we have never been treated as well as we have been here.

"We want to be treated as equals, and we want to be treated with respect.

"We want to be treated like the rest of the workers, and we want to be treated with dignity.

Undertakers work

BUFFALO, Feb. 12—Undertakers have been working around the clock to keep up with the demands.

"We have been working for the last two weeks, and we have not had a chance to rest," said one undertaker.

"We have had to work long hours, and we have had to work in temperatures that are below freezing.

"We have been working to keep up with the demands, and we have been working to keep up with the demands of the customers.

Soldiers hear families are in dire want

Officials call for promises to help

BUFFALO, N. Y., Feb. 12—Officials have been calling for promises to help the families of soldiers who are in dire want.

"We have been calling for promises to help the families of soldiers who are in dire want," said an official.

"We have been calling for promises to help the families of soldiers who are in dire want, and we have been calling for promises to help the families of soldiers who are in dire want.

We Will Not Be diverted

The SWP's resolve to not be diverted by internal or external pressures is emphasized, highlighting the importance of staying true to its principles.
Who Owns This Country?

"Get down to work! Work harder and faster! Work longer hours for the same pay!" This is the battle cry of the stockholder in today's factory, office, and mine. Under the guise of "economic necessity" the worker is forced to face a daily struggle for survival. When he fails? Certainly not the government where pollution of the air and the water is an unashamed fact. Only the workers will be left without a job.

On a program for the CIO members to follow is the "Get down to work!" program against "useless" and "sick" labor. Steel, Ford, Du Pont, Standard Oil, General Motors and all the others who "need help to keep up" in this year's economic "depression" have the workers "on the ropes". No job, no help for the family. While the big men at the top of the corporate ladder get millions, the worker can't even sell his labor for the barest "living" wage (merely sweat), the CIO News says nothing.

Light on Who Owns America

A new light has been cast on this question by the Siqueiros Report, published by the Executive Committee of the National Reconocimiento Simultaneo, which has been organizing mass meetings for the past two years without paying any attention to the political and social issues.

I. Three American families, the Rockefeller family, the Ford family, and the Allegheny family, own over $1,000,000,000 each, which is an average of $5,000,000,000 per family, of the 200 largest non-financial corporations in the United States.

We have here a concentration of wealth in the hands of a few families, who own a large part of the wealth of the country.

The National Reconocimiento Simultaneo is a political party that is working for the establishment of a workers' government.

How the Negro, the South, the Army, the Draft

In Louisiana, the CIO is meeting to organize textile workers. A large number of black workers are joining the union. The CIO is fighting to end segregation in the labor movement.

On the Army Draft issue, the CIO is working to end the draft and to demand an end to the war.

On the South issue, the CIO is working to end segregation and to demand an end to the Ku Klux Klan.

The CIO is committed to ending segregation and to fighting for the rights of all workers.

Trotsky Saved Siqueiros' Life

On the 20th anniversary of Trotsky's death, the CIO News reported that Trotsky's death was saved by the workers of Mexico. The CIO News reported that Trotsky was working to save the lives of the workers of Mexico.

The CIO News is committed to ending segregation and to fighting for the rights of all workers.

STALIN, THE ARCHITECT

The friends of the Voice of Mexico and El Popular have been working hard to prepare the next issue of the paper. The CIO News is committed to ending segregation and to fighting for the rights of all workers.
