The White Terror

A Penal Law Against Communists in Switzerland

In the Swiss Federal Parliament a certain law, dealing exclusively with the persecution of the working-class will soon come up for discussion. This part of the Federal criminal law comes under "Crimes Against the Constitution of Switzerland" and it was in 1919 that in Zurich and subsequently in several other Swiss cities, the bourgeois bourgeoisie did not remain silent but became active on the"...".

The revolution is not to be put off, but also, preparations have to be made for a new struggle. The bourgeoisie is already preparing for a new struggle, and the working-class must be prepared to meet this challenge.

The Executive of the Communist International in Russia has called on the workers of all countries to prepare for a new struggle and to build up the foundations of a new revolutionary organization. The workers of all countries must be prepared to take part in this new revolutionary struggle.

Working Men and Women! Three years have passed since the end of the great imperialist war, which offered you your lives for the interests of capital. For three years international capitalism has had a free hand to show whether it is capable of introducing any sort of order in human order which would assure the masses of the people the rights of freedom, safety, the minimum of the conditions necessary for life.

The World's Economic Crisis

The result lies before you.

Six million unemployed in America, two million in England, in power and influence in the capitals of all countries. Starvation and despair are the daily bread of the poor. The bourgeoisie is busy preparing for a new struggle, and the working-class must be prepared to meet this challenge.

The Nationalist War

The national capitalists are working to the detriment of the working-class, trying to divide the workers and to destroy the revolutionary organization. The working-class must be prepared to meet this challenge.

Notice of Change of Address

We call the attention of all our correspondents and subscribers, that the change in address of the International Correspondence Press Office is as follows:

FRANZ DAHLHEIM, BERLIN SW 48,
FRIEDRICHSTRASSE 225, v. 111.
FOR INPREKOM.

The Administration.
are everywhere trying to reduce wages, which actually do not even give the workers what they demand for subsistence in times of peace. In spite of unemployment, the working-class are everywhere attempting to put an end to the offensive against the proletariat, and the attack on the working-class in the entire world, for the sake of the interests of the bourgeoisie, is just as absurd and impossible as personal income increases. One cannot say that they pay them, and since the capitalists do not want to pay them, they are attempting to白沙 their shoulders of the working-class. What are the government duties? Rights of property, common form the part of the labor of the proletariat without pay. The role of capital has in this respect its own nature. The constraining of the workers to work more, to obtain more capital, to obtain a greater amount of capital, without the larger share, an increasing share of the wealth of the world, by its nature, is not based on the massive labor in the factories, by its nature, it cannot be destroyed so that in time it should acknowledge the lex-a-basis of the battle-field to lead a plebeian life and upon the luxury of the bourgeoisie.

The Successes of Reformist Policies.

For three years in spite of all your experiences in the war, you hoped that matters would become better, that the capitalists would fulfill the promises they made during the war, that man would be freed, Bread and Freedom. Your hopes have deceived. Instead of assassination of imperialism, you have attempted to look out while the coal burning reduced their wages. The German workers believing that if they would submit to the bourgeoisie, they would obtain the socialization of industry in a peaceful manner. Today they look on while the gangs of German industry, ills, and Co., are getting hold of all the plebeian industry. The majority of the proletariat turned to look to the government to save the workers, to keep the railways, while they export the wealth of the country in the most possible way. The war has given to the bourgeoisie their property from German people. France is industrially weakened by the war. In America, the government means a constant struggle of the labor of the proletariat for the right to live. In America, the role of the Republican Party means the capitulation of the workers in all social struggles. The capitalist revolutions, and the curtain behind which a brainless diplomatic forging plots against the working-class of the world. In a number of the capitalist countries the White Terror rages. In India and Egypt the British workers are being kept in the dark. The price of bread can die of hunger. Post-war Democracy is not fair, in the interest of the capitalists and the government of the bourgeoisie.

The Dutch Imperialism in the East Indies.

By Gerard Vanter (Amsterdam).

As it is well known the Dutch minister of foreign affairs, kurksherrk, in February 1921, was sent to the League of Nations to confer with the League of Nations. He is a man of known sympathy with the interests of the Dutch Empire, and a man whose object is to maintain the status quo in the East Indies. It is known that the Dutch minister of foreign affairs is a man who is a master of the art of diplomacy, and that he is a man of great weight in the eyes of the world. He is a man of great influence, and his words are regarded with great respect. He is a man who is able to speak with authority, and his words are listened to with great attention. He is a man who is able to speak with confidence, and his words are regarded with great respect. He is a man who is able to speak with authority, and his words are listened to with great attention. He is a man who is able to speak with confidence, and his words are regarded with great respect. He is a man who is able to speak with authority, and his words are listened to with great attention. He is a man who is able to speak with confidence, and his words are regarded with great respect. He is a man who is able to speak with authority, and his words are listened to with great attention. He is a man who is able to speak with confidence, and his words are regarded with great respect.

However, the economic disintegration of Poland, according to officials of the Foreign Office and the representatives of the trade unions, has not yet occurred in the fullest sense, although the United States has yet to do so. Poland has been brought about a unprecedented increase in agricultural production, and the country has been transformed into a predominantly agricultural economy. Since the Poles now occupy a large part of the land, the farmers are left with a large amount of land and foodstuffs, and the country is more prosperous than ever before.

The government is now planning to modernize the agricultural sector by introducing new technologies and techniques. This will help to improve the living standards of the farmers and create more jobs in the rural areas. The government is also working on developing the country's infrastructure, including roads, bridges, and railways, to improve connectivity and facilitate trade.

The government has also taken steps to strengthen the country's defenses by investing in new military equipment and training the army. This will ensure the security of the country and deter any potential threats.

ECONOMICS

Russian Finances

by Joseph Schumpeter

The Petrograd disturbances have given rise to a debate on the stability of the rouble and the potential for hyperinflation in Russia. The government has announced measures to stabilize the currency, including the introduction of a new rouble.

The economic situation in Russia is complex and multifaceted. The government is facing challenges in managing the transition from a command economy to a market economy. The private sector is slowly gaining momentum, but progress has been slow due to various factors such as bureaucratic red tape and lack of access to capital.

The government is also grappling with the problem of agricultural production. The country is heavily dependent on imported foodstuffs, and the shortage of food is a significant concern. The government has announced plans to increase agricultural production through modernization and investment.

The economic situation in Russia is expected to improve in the long term, but it will require significant effort and coordination among all stakeholders.
The Communist Party of America welcomes the great demonstrations you have organized. Your magnificent show was a demonstration of worker's courage and determination - a demonstration of the power of the working class and others to resist attacks and to strike terror in the hearts of their exploiters and oppressors.

You have shown that the working class is a united and victorious class. You have shown that the working class can fight, that it has the courage to fight, and to overcome the enemies of the working class.

The Communist Party of America dedicates all its efforts to the building of communist parties throughout the world. We are prepared to support all such efforts, to fight side by side with the workers and peasants.

We are all united in our determination to build a world without class divisions, a world in which the working class is free from exploitation and oppression.

We are all united in our determination to build a world in which the working class is in control of its own destiny, a world in which the working class is in control of its own resources.

We are all united in our determination to build a world in which the working class is in control of its own future, a world in which the working class is in control of its own society.

We are all united in our determination to build a world in which the working class is in control of its own state, a world in which the working class is in control of its own government.

We are all united in our determination to build a world in which the working class is in control of its own economy, a world in which the working class is in control of its own production.

We are all united in our determination to build a world in which the working class is in control of its own culture, a world in which the working class is in control of its own education.

We are all united in our determination to build a world in which the working class is in control of its own history, a world in which the working class is in control of its own future.
organized August 9th, 1921, has already 125 branches in all sections of the United States. These local branches are affiliated with the International Correspondence League. Each city is getting up carloads of food—grain, bacon, flour, etc.—for the soldiers of the Provisional Government.

The Committee on International Correspondence League have arranged with the National Warehouse in New York for transshipment to the steamer waiting at this port to bring the food to Portugal. A large number of the carloads have already been dispatched and many more are to follow. The Committee are making every effort to get at least 30,000 lb. of food sent out as soon as possible. The food consists of flour, bacon, and other provisions for the starving Russians.

The Committee have sent out 12 carloads of food, weighing 30,000 lb., to the Provisional Government of Russia, which has already been received in Petrograd.

The German trade unions have done nothing in their decision to the Federation of Trade Unions, which has done nothing to the Soviet trade unions. The German trade unions have done nothing for the Soviet trade unions.

As a matter of fact, the Soviet trade unions have done nothing for the German trade unions, which are not really responsible for the Russian famine. It seems impossible to prevent the appearance of this report.

THE THESES

The workers of America have awakened to the fact that if they are to carry the burden of Russian Relief as it is now presented, it is an impossible task.

The White Terror

To the Rescue of the Spaniards

by R. Albert

Disturbing rumors have been going round in the few days during the Spanish Syndicalists imprisoned in Berlin. The workers of America are the friends of the workers of Spain, who are the friends of the workers of America. The workers of America are the friends of the workers of Spain.

As soon as the workers of America learn what is going on in Spain, they will be thrown into action to prevent the appearance of this report.

NOTICES OF EXECUTIVE

To the Central Committees of the Communist Parties

In accordance with a proposal of the International Women's Secretariat, the Executive Committee hereby announces that you carry out the following measures in order to further the work of the International Women's Secretariat:

1. Organization of precise and express delivery of the material of your women's organizations to the International Women's Secretariat through your party.

2. According to the Theses of the Second World Congress, the organization of the sending of the material of your women's organizations to the International Women's Secretariat should be carried out through your party.

3. Wherever possible, a special section of your women's movement should be established, concentrating all the material of your women's organizations and by-mail and postal bulletins for articles and material on the women's movement.

4. European countries which have given whole sections of the Landru affair, without any attempt to save the lives of the victims claimed by the hangmen of Montjouix, but a real attempt to save the lives of the women of Montjouix.

5. The Spanish workers' movement and the international pressure on the Spanish government to establish a full and fair investigation into the Landru affair.

The International Women's Secretariat is being assailed, and the international pressure on the Spanish government is increasing.

The International Women's Secretariat, in order to establish a regular service between the various countries and the I.W.S.W.O., has a general interest in the party apparatus, such as the I.W.W., the Communist party apparatus, the Syndicalist party apparatus, and the I.W.S.R.D.
