American Sailors Against Franco

The revolutionary Spanish workers are most encouraged by the news from Boston that the International Seamen’s Union of America has threatened the British Consulate in New York with a strike to protest against the attempted trickery of the British government. The Associated Press quotes the statement that ‘the British government has tried to appear before the fascist courts.’

Student Help

At Oxford and Cambridge, a lively campaign to support the Spanish workers’ cause is under way. At Oxford, metals, food and clothing are being collected in almost every one of the 30 colleges. In the women’s club the students are knitting sweaters for the Spanish militia. At Cambridge, two meetings were held for the aid of Spain and another in memory of John Cornford, Cambridge student, killed on the Cordoba front.

Italian workers in Spain

The entire world should know the truth: Spain is being disarmed the workers than to actually disarm them. After twelve days the crisis of the Government continues in the same state as on the day it broke out. The unexpected decision of the President of the Generalitat in appointing a restricted government from above, instead of facilitating a solution, only complicated and deferred it. This threat of a coup d’etat has so obviously failed, covering the actor with ridicule and considerably diminishing his authority, already badly damaged. The result can be foreseen: if the former Government, constituted with the support of the organizations represented, was unable to stand up, what fate other than complete failure can await the new manoeuvres of the President? The idea of hurriedly naming a government, simply because the organizations concerned cannot reach an agreement, is most dangerous.

British public opinion—favoring the Spanish workers' cause

In meetings and press reports the civil authorities have announced the conviction of the absolute security of the city. When it was not considered necessary to make a public announcement, because if the workers had known of the danger they would have pulled themselves together and the fascists had found themselves in the streets of the city alone. The inhabitants of the town were in the same ignorance of the situation and the danger of the town. The death of Malaga was stopping on the three-holed city gate. Seeing the man in such a state of ignorance was heart-breaking. How could such ignorance be understood when the city was a few miles away and the menace was in the very skies?

TREACHERY AT MALAGA

The Governor of Almeria, Gabriel Moran, has issued this statement to the press concerning the fall of Malaga:

We want to protest in the name of the Government of the Generalitat against the treachery of the General Queipo de Llano, against the treachery of the leaders of the Malaga Military Government, against the treachery of the leaders of the Malaga Military Government, against the treachery of the leaders of the Malaga Military Government, against the treachery of the leaders of the Malaga Military Government.

The I.L.P. Contingent in Action

The morale of the men of the I.L.P. contingent is at a high pitch with the renewed activity on the Aragon Front, where they hold a central position. The P.O.U.M. and Anarchist militia, in spite of their lack of heavy guns, have carried through great surprises and successes in the first weeks of action in the town on the coast, and are cutting the remaining roads to the north and south. Of the men who have gone into action as soldiers, the majority are young men from the lower classes, who have left their homes in a spirit of adventure. They have a good chance of fighting in a war they understand, and that is what they want. This is the first time that the I.L.P. has taken part in a war of liberation, and its men are fighting with a new enthusiasm.

Heroinism of the Workers

In the Jarama sector, many workers, who were employed as henchmen and were hungry, are beginning to see the light and are setting up their own workshops and small factories. This is the first time that the workers have had the opportunity to work for themselves. They are beginning to see the value of their labor and are fighting to maintain their own interests. The workers of the I.L.P. contingent are fighting for their own freedom and are not afraid to die for it.

Reformism in Retreat

Finally the reformists are retreating. They tried to take advantage of the crisis of the Generality to speculate with the workers of the I.L.P. contingent, but they failed. They failed because everyone knows why there is no attack on the Aragon Front. The Generality could not afford to have the workers of the I.L.P. contingent fight against it. The workers of the I.L.P. contingent are fighting for their own freedom and are not afraid to die for it.

CATALONIA Loses Her Army

The general military uprising took place in Catalonia on July 19th. In Barcelona, Gerona, Figueres, Malaga, and other towns, the immense majority of members of the so-called autonomous regions of Catalonia joined hands with the rebels. The heroism and enthusiasm of the working class, however, brought them down. The soldiers were freed and the military leaders were put in front of a firing squad. The uprising ended with the fall of the Militia Army No. 4.

The newly armed men that left for the front on the natural forces of form while fighting. The militiamen were workers and peasants. The organization was Catalan. Once again, the countryside, the working class and the national question stood side by side in the fight against fascism.

The opposition to Catalonia's national sentiment is now so strong that it is necessary to make a move to end the paralysis of the Aragon front.

We have been refused arms and the money with which to buy them, while heaps of gold lie putrid in ships and in bank vaults. We have been refused our own money, that which is not against any foreign power, and which should have been produced from our own labor.

We have been accused of trying to cripple the Unified Command, just as if the Unified Command were in a position to contain a unified army or centralist army. As if two armies could not conduct a common front without ceasing to be two armies. We have been accused of dividing the revolutionary army of Catalonia—the C.N.T. in a period of unity and unity. The ports were intended to destroy everything which could unite us. The new order of the day is not a new order.

And they have tried to blame us for the military defeats, not putting down to the demoralization caused by the unsuccessful attacks of the capitalists in the so-called Republican Army. Valencia, which has been able to get its way, has been publishing the statements of the newspapers of the left to the working class. We want a workers' revolutionary army under the control of the working class. The workers of the I.L.P. contingent are fighting for their own freedom and are not afraid to die for it.

Why?

The Deputation of the Parliament of Catalonia has held a meeting. No report of this meeting was published in the press, inasmuch, they tell us, as nothing of interest transpired. However, it is widely believed that this meeting had a greater importance than the press of Catalonia attributes to it. It was held in view of the present crisis of the Government of the Generalitat.

NEWS AND NOTES

Revolutionary Youth of France

The example given by Catalonia of a Revolutionary Youth front has been followed by the Revolutionary Youth of France. The Anarchist Youth and the Left Socialist Youth have made an agreement, which it is hoped will become the nucleus of an exclusive Revolutionary Youth front of France.

A Literary Competition

Every revolution and every war gives rise to its own literature and song. Those who are close to the action express their political aspirations. The P. O. U. M. Milliune are being encouraged to write their impressions of the battle front by means of a competition organized by the Kollontai Marxsists. Comrades Andrade, Corin, and Escudero will select the prize work, which will be published.

«El Pionero Rojo»

The first number of the SKED PIONEERS, the organ of the Federation of Communist Pioneers (of the Iberian Communist Youth), has just appeared. This interesting paper will help to make good Communists of the working class children.

Another Suppression

The Basque government, composed of socialists, communists, republicans, autonomists and Catholos, has created the Regional Committee of the C. N. T. and the editorial staff of the newspaper E. R. T. of the Norty, which appeared at Bilbao. Furthermore they have seized the print shop, which has been turned over to the daily, dield Basques, organ of the Basque Communist Party

Stalinist Pettyness

The manoeuvres of the Stalinists to take advantage of the Spanish struggle to capture small socialist parties and to slander true revolutionaries are not confined to Europe. In Chicago, the Spanish Youth Delegations, accompanied by the Spanish consul, stayed out of a banquet hall refusing to sit at the same table as Ernest Erber, who was given the title of Proletarian Youth. Furthermore, in less than two weeks, the Basque Youth, composed of 22 people, led by Comrade Erber, who last October collaborated in the P.O.U.M. we know as a sound revolutionary, he is guilty of the petty. The Basque government has now removed him from office without right of self-defense, on the grounds of complacency towards the P.O.U.M. and the C.N.T. We reply: «Forward to the World Revolution!»

Reformism Devours Itself

In one of his broadcasts, the ex-General Queipo de Llano, who recently collaborated in the Generalitat, has accused the Generalitat of being guilty of the reformism. He is guilty of the crime of openly supporting the revolutionary workers and the P.O.U.M. in fifty meetings across America. We stand by Comrade Erber. To the pettyness of the reformists, we reply «Forward to the World Revolution!»

RADIO BADALONA

Here are the results of the announcement of May 3rd.

Barcelona, the workers' city, has just lived through glorious days, as the workers of the C. N. T., the F. A. I., and of the P. S. U. C., controlling Public Order with the aid of the National Republican Guards and the Assault Guards, proved, in spite of the denials of the Catalan Government, that the order upon which Rodriguez Sala (of the P. S. U. C.) acted was signed by Arbenz Aguirre (of the Esquerra), Councillor of Public Order.

That a counter-revolutionary coup had been planned in advance by the armed forces is proved by the fact that machine-gun stations had been set up on neighbouring roads by the Basque government. The authorities sent in additional reinforcements from coming in.

THE WORKERS HOLD THE STREETS

The workers, who the of the arrest of the workers, have taken up their fighting posts. At about 6:30 the transport services, the local demonstration, and the assembly progressed to the Barcelonese industrial districts, the Girona, the Osona, and the Girona. The attack on the Telephone Building was the cause of a great and unlimited among the workers, who resisted the occupation of their building. This was the beginning of the violent fighting of the following days. The workers of Barcelona, multitudes and began to organize the defence of their districts, to control communications in the city and to prevent anti-revolutionary actions from coming in.

THE WARRIORS' REACTION

Within two hours, Barcelona was in a state of war. The workers went into the street with their arms to defend them friends and relatives and in the street with their arms to defend them friends and relatives. The P. S. U. C. understood from the first hour how great was the need of a counter-revolutionary coup to keep the workers away from the Telephone Building would be the last act of the fascists. The French government, which had been informed of the situation, called a strike. The workers poured into the streets and to the workers' club of the Telephone Building. The attack on the Telephone Building was the cause of the violent fighting of the following days. The workers of Barcelona, multitudes and began to organize the defence of their districts, to control communications in the city and to prevent anti-revolutionary actions from coming in.
