Appeal to Have May Day Number

The American Appeal will have its May Day number appear Saturday, April 27, and after, each week until Labor Day.

The appeal is for subscription and individual support, and for the mailing of large quantities of the paper for distribution. This is the only means of making a serious impact upon the masses in this period of mass mobilization and class struggle.

We request active Socialist workers and individuals to send in their orders for subscriptions and single copies in as early a date as possible, and with particularity in every instance.

As they passed from house to house, they were to ask: "What are you going to do next year for the Appeal?" And they were to say: "Please support the Appeal Drive tomorrow."

Why Disarmament Has Become Imperative

Editor's Note

In most recent American Appeal, Norman Thomas has called the question of disarmament one of the most important that the world has to face. He states that the United States has the means and the knowledge to lead the way toward a world of peace, and he urges all international conferences to adopt the principle of disarmament as a basic goal. The appeal to all countries to join in this effort is made in the interests of humanity and the welfare of mankind, and it is hoped that it will result in the creation of a world in which there will be no more wars.

The "Radio" Battalion

The "Radio" Battalion, which was formed during the Spanish-American War, has been active in the United States for a number of years. It has been a source of support and encouragement for those engaged in the struggle for peace, and it is hoped that it will continue to play an important role in this work.

The Armament Race to Death

The current interest in disarmament is due to the fact that the United States has increased its armaments at an unprecedented rate. This is a matter of great concern to those who believe in peace and the welfare of humanity.
