FIFTY CENTS PER YEAR

No. 15

THE PRINCETON STRIKE.

Arm of the Law Entertained to Aid the Dear Capitalist to Debase American Citizens.

Reports from Princeton, Idaho, are that injunctions of a surprising character have been granted against the striking lumber workers who have been putting up a splendid fight.

DON'T WANT HIM.

Lattimer Assassin Appointed Mine Inspector and Indignation is Aroused.

The appointment of James Martin, the sheriff in charge of the posse which killed eighteen men and wounded 43 striking mine workers at Lattimer, Pa., to the important position of mine inspector of the Seventh district, has aroused the indignation of mine workers.

ONE OF THE DEPORTED

Son of Revolutionary Sires Driven From His Home by Militia. Comes Back to Pay His Taxes. "Bad Men" Unmolested, but It's Different With Miners. Is This America, He Asks. Pleads for Rescue From an Awful Land.

To My American Brothers Who Love Liberty:

I am in a queer country, an awful country. I can never tell whether I am going or coming. Whether it is "hello" or "good bye." I have plenty of money, but I don't know whether I will be allowed to eat or must go hungry.

PEABODY, USURPER AND TRAITOR, HOLDS REINS

Lawlessness in Epauettes Is Rampant in the Centennial State and Right and Justice Exist Only in Name

The resolutions adopted by the monster mass meeting held in the city of Denver should be read with interest by every citizen of the nation and with profit by those optimistic folk who imagine that the progress of humanity can only be upward.

More than five thousand people were present when the new declaration of independence was adopted. Beginning with that famous document the resolutions make an application of the instrument against the British monarch, whose acts caused the colonies to rebel.

ARCH CRIMINALS ARE IN POSITIONS OF AUTHORITY

State and National Constitutions Trampled Under Foot--Sacred Right of Free Speech and Peaceful Assemblage Denied, Civil Process Ignored, Writ of Habeas Corpus Suspended and a Free Press Abolished in Defiance of Constitutional Guarantee, to Further Interests of Organized Greed--The Entering Wedge for Overthrow of American Institutions.

Armed Invasion. "He has constantly and almost daily violated the constitution of the state of Colorado and of the United States, although having taken the oath to support them.

Defied the Courts. "He has obstructed the administration of justice and defied our courts by ordering the militia of the state to disobey the writs of the courts of the state.

Established Slavery. "He has, in defiance of article XIII, of the amendments to the constitution of the United States, which says, 'Neither slavery nor involuntary servitude except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States.'

Muzzled the Press. "He has further, in defiance of his oath and of article I of the amendments of the constitution of the United States, which provides that 'congress shall make no laws abridging the freedom of speech or of the press or the right of the people to peaceably assemble and to petition the government.'

Ignored the Constitution. "He has, in defiance of article IV, of the amendments of the constitution of the United States, which says that 'The right of the people to be secure in their persons, houses, papers and effects against unreasonable searches and seizures, shall not be violated, and that no warrant shall issue, but upon probable cause supported by oath or affirmation, and particularly describing the places to be searched, and the person and thing to be seized,' allowed the militia, under his orders, to violate the liberty of persons, to search houses and to seize

papers and effects, without warrant and in direct violation of all law. "That he has in defiance of article II, of the amendment to the constitution of the United States, which says, 'That the right of the people to keep and bear arms shall not be infringed,' allowed the militia, acting under his orders to search for and take arms from their rightful owners and to confiscate the same same wherever found and has permitted the militia, in violation of said article, to issue proclamations demanding the surrender of all arms and their registration, and has further allowed the militia, while enforcing his orders, to invade the private premises of citizens, and notably those of one John M. Glover and attempt to murder said Glover for refusal to comply with illegal proclamations and for asserting his constitutional and legal rights.

Cause for Insurrection. "That each and all of these acts are calculated to excite domestic insurrection among us, and to bring on a conflict among people engaged in divers industrial affairs. "In every state of these oppressions we have protested and petitioned for redress, in the most humble terms. Our repeated petitions have been answered only by repeated injuries.

Right of Self-Defense. "It is, therefore, resolved, that the time having arrived when, in consequence of the usurpations and tyrannies above set forth, the courts of the state are rendered powerless by an organized mob, pretending to act as the militia of the state, to redress our grievances, it is now the duty of every citizen to exercise the right of self-defense in protection of the rights guaranteed him under our constitution and laws, and at any and all cost, to protect himself and his property from arrest, seizure or search by any persons not armed and authorized by warrant issued by civil authority.

To Prosecute a Governor. "It is further resolved, that we demand that the district attorney of Teller county at once institute criminal proceedings against Peabody, and the mob acting under his orders, for assault with attempt to kill John M. Glover on the 28th day of December, 1903, and that the proper authorities also institute criminal proceedings against said Peabody and others responsible for the numerous crimes of false imprisonment, larceny, riot, etc., recently committed by organized mobs in Teller, San Miguel and other counties, to the end that the offenders may be punished when law and order once more prevail, and the courts and civil authorities are no longer prevented by mobs from exercise of their functions.

papers and effects, without warrant and in direct violation of all law. "That he has in defiance of article II, of the amendment to the constitution of the United States, which says, 'That the right of the people to keep and bear arms shall not be infringed,' allowed the militia, acting under his orders to search for and take arms from their rightful owners and to confiscate the same same wherever found and has permitted the militia, in violation of said article, to issue proclamations demanding the surrender of all arms and their registration, and has further allowed the militia, while enforcing his orders, to invade the private premises of citizens, and notably those of one John M. Glover and attempt to murder said Glover for refusal to comply with illegal proclamations and for asserting his constitutional and legal rights.

Pitiful and Cowardly. "Be it further resolved, that the surrender by the militia of Victor Poole to the civil authorities of Teller county, at the time when the right of the militia to hold him and to defy the writ of habeas corpus was pending before the supreme court, is and was acknowledgement by the governor of the state that he and the militia under his orders had wilfully and knowingly violated the constitution and laws of the state in arresting said Poole and imprisoning him without charge or warrant.

Treason. "Resolved further, that we insist upon the rigid maintenance of our constitutional safeguards, and point out that to break them down by force under any pretext, is treason of the highest kind which leads to anarchy and the sure rule of that force whose first victims will be those Pharisees now crying for that law and order of which they are the sole violators."

They Welcome Parry. The Trades and Labor Assembly of Minneapolis regard him as one of the signs of the times. The barbarous condition of industry, economic treatise in condensed form, ruthless squeezing of the small investor.

The Council's Statement. Minneapolis, Minn., Dec. 2, 1903. Mr. D. M. Parry, President American Mfg. Association--Dear Sir: The Trades and Labor Assembly of Minneapolis expresses herewith its approval of your late speeches made in the twin cities, insofar as they are true signs of the times. What are those signs?

First--That the association you represent is being ground to pieces between the wheel of organized labor and the organized wheel of the stock exchange. But, inasmuch as some of your association have in late individual conflicts with building trades councils been beaten by unions of labor, you, for them, have been forced to squeal. So we welcome you as a sign of the times.

Financial reports prove that of late the members of your association have not been getting so large a percentage of profit, squeezed out of labor, as the big speculating financiers of the stock exchange. Nevertheless, the labor unions do not consider that any justification for your attempted effort to emasculate our labor unions, preparatory to a general lowering of wages, so as to underbid European capitalists in seizing oriental markets.

You point the finger of scorn against such labor agitators as Sam Parks. We point our fingers of scorn against the postoffice scandals of your class; against your coal barons who coolly pocket millions and at the same time freeze the millions;

Second--Intimidation; Rutan and deputies, Howe and Wardlow; jail, one week to two months in some foreign land, then let loose and not allowed to return.

Third--Conspiracy; Peabody, Hill, Bell, soldiers and strangers, guns, riot cartridges, sabers, blue clothes, etc.; trip to the moon without any return ticket.

It is said that Peabody and his gang have the last act down to perfection. Those who helped to write the book (all Democrats and Republicans, no Socialists or union men being invited to help, so I will not vouch for the truthfulness of the story) laugh with a funny twinkle in

their eyes. (Continued on Page Three.)

ASSEMBLY'S NEW OFFICERS.

King, Holden, Doody and Lindsay Are Elected for New Term in Central Body.

B. T. King, delegate from the Clerks' union, will preside over the meetings of the Silver Bow Trades and Labor assembly for the coming six months. Last night he was elected president of the central body in the face of a vigorous fight put up in behalf of D. J. Smith, of the Barbers' union.

W. N. Holden had no opposition for the office of vice-president, being elected unanimously. For the position of recording secretary there was a triangular contest. F. W. Cronin, of the Cooks and Waiters' union; R. C. Scott, from the Workingmen's union, and Vincent Doody, representing the Butte Office Employees' union, were candidates. After the first ballot Cronin's name was dropped. By the narrow margin of one vote Doody was elected on the second ballot.

B. M. Lindsay was re-elected treasurer of the assembly. Henry S. Davis, of the Workingmen's union, was chosen for the position of sergeant-at-arms, and S. W. Mitchell, of the Clerks' union, statistician.

MAY RECONVENE.

Teddy's Strike Commission's Vague Report May Cause a Second Attempt.

The demands of the Schuykill region mine workers for an eight-hour day on Saturday instead of the nine-hour day, which the men are now working, may result in the members of the strike commission being again called together.

Umpire Carroll D. Wright has had the grievance in hand several weeks, and it presents so many phases on which the commission's report is vague, that Mr. Wright, it is reported, contemplates calling the commission together.

THEY WELCOME PARRY

The Trades and Labor Assembly of Minneapolis regard him as one of the signs of the times. The barbarous condition of industry, economic treatise in condensed form, ruthless squeezing of the small investor.

The Minneapolis Trades and Labor Council at one of its recent meetings adopted a formal reply to the address delivered by D. M. Parry during his stay in that city. The statement of the council makes interesting reading:

The Council's Statement. Minneapolis, Minn., Dec. 2, 1903. Mr. D. M. Parry, President American Mfg. Association--Dear Sir: The Trades and Labor Assembly of Minneapolis expresses herewith its approval of your late speeches made in the twin cities, insofar as they are true signs of the times. What are those signs?

First--That the association you represent is being ground to pieces between the wheel of organized labor and the organized wheel of the stock exchange. But, inasmuch as some of your association have in late individual conflicts with building trades councils been beaten by unions of labor, you, for them, have been forced to squeal. So we welcome you as a sign of the times.

Financial reports prove that of late the members of your association have not been getting so large a percentage of profit, squeezed out of labor, as the big speculating financiers of the stock exchange. Nevertheless, the labor unions do not consider that any justification for your attempted effort to emasculate our labor unions, preparatory to a general lowering of wages, so as to underbid European capitalists in seizing oriental markets.

You point the finger of scorn against such labor agitators as Sam Parks. We point our fingers of scorn against the postoffice scandals of your class; against your coal barons who coolly pocket millions and at the same time freeze the millions;

against your bloodthirsty greed displayed in foreign wars of conquest, enriching only the plutocracy, and your unconstitutional acts of imprisoning workmen without even a trial.

If we are responsible (and we deny it) for men like Sam Parks, the members of your capitalists' union are responsible for crushing the lives out of little children in the factories of the south, New Jersey and other states. You would retain the out-of-date "Manchester doctrine" of Great Britain of allowing any manufacturer to turn out goods at least cost to himself by turning humanity out of doors. This you would accomplish by the hired force of public opinion, but worse, by the hired force of the national guard to overawe workers into slavish submission.

We would and can prevent such barbarism only by the peaceful and honest intelligence of the workingmen expressed at the ballot through an independent party of their own class. You foresee this certain sign of the times, and say it must be prevented. We accept the gauntlet and say that it shall not be prevented. For the object of such a movement will be to support our children in good schools.

Yes, it is a contest between two classes that can't be harmonized. Your class must have its profits. Our class must have its children. We shall finally turn this country over, neither to "the labor bosses," as you say, nor to "the bosses of your association," as we say. You claim to favor the "open shop." You do not. A shop is not "open" that is closed to all labor except the cheapest labor. It is only ourselves that favor the "open shop."

We favor the "open shop," into which the speculator must also enter for the purpose of getting "great brains," if he wants to get his living into usefully directing industry at cost, instead of living as now off of the profits belonging to those who are necessary in producing wealth. We favor the "open shops" where the industries can, through the initiative

THURSDAY, JANUARY 14, 1904.

A TRAITOR TO STATE AND NATION.

The extent of the crimes of Peabody, the arch traitor and scoundrel who occupies the executive chair of Colorado, is partially covered by a set of resolutions adopted by a monster mass meeting of the citizens of Denver held a short time ago. The resolutions might properly be termed The Declaration of Independence Brought Down to Date.

Every offense which King George committed against the colonies has been duplicated by this autocrat, this arch scoundrel, this dictator who has set the laws of the state and nation at defiance. Like a dictator, he has seized the reins of power, levied on the offscourings of humanity, clapped a rifle in their hands and turned them loose on a helpless populace.

He has dragged men from their homes, from their very beds, with no right, other than brute force. He has ignored civil process, established a censorship at Cripple Creek and Telluride. He has marooned citizens of the republic for refusing to scab. The right to bear arms, guaranteed us by the national constitution, has been denied and free speech and free press are unknown in the mining regions.

These things have been done to serve the interests of the gigantic aggregations of wealth which make America the marvel of the ages and which has prostituted our most sacred institutions.

The crimes of this man who has debauched and disgraced what the fathers of the republic sought, to make an honorable office, cry to heaven. Men have been shot as traitors for a less offense than this unprincipled tool has committed against the liberty, peace and dignity of a state. No man's life is safe in Colorado while this man holds the reins. Liberty lies prostrate, stabbed to death by his hand.

Fearful of the indignation of an outraged community, he clapped his minions at every avenue of communication to prevent his monstrous actions from becoming known to the people, and lest it provoke them, in desperation to wreak immediate vengeance on his worthless carcass.

Jefferson once declared that "in every log cabin in America was a rifle and a man who knew how to use it and where these are tyranny will never dare to show its head." The rifle and the log cabin are ancient history and with their going the tyrant has appeared upon the scene.

When Bismarck was in power he attempted to provoke an uprising of the populace before they were completely organized in order they might be crushed more easily. This may be the present day plan of the capitalist class. They may hope by their atrocities to drive the people in their frenzy to armed resistance. Then the federal troops will be called in and the working class will be beaten into humility and subjugation and their organizations will be scattered to the winds.

But the working class have gained wisdom. There will be no display of physical force on the part of the masses. We may sweat blood under the rod of this arch fiend, but no steps will be taken that can only result in riveting the chain more firmly on ourselves. We have suffered for ages. Surely we can endure yet a little longer. This man who has brought us so much misery, so much shame and so much suffering shall yet pay dearly for his manifold crimes, but the punishment will be meted out to him by legal means.

The per capita tax receipts of The American Labor Union just closed, show a gain of over 30 per cent. as compared with the preceding year. This will bring a broad smile to the faces of the brothers who were delegates to the W. L. U. convention when Gompers' hired man, Morrison, served notice on the body that unless they submitted to the dictation of Sammy and his proxy convention rule, the A. F. of L. would smash the western unions within six months' time. They have tried desperately hard to keep their word, but it seems to be a case where every knock has been a boost. In connection with the splendid growth of the American Labor Union, it should be remembered that, during its existence, it has never organized a dual union, but has repeatedly been subjected to that sort of thing at the hands of Sammy. The A. L. U. grows in proportion to the growth of correct knowledge of capitalist methods and an understanding of working class interests. The United Brotherhood of Railway Employees are also experiencing a boom in many parts of the nation. The day is not far distant when industrial unionism will control the earth.

Jack London, in his new work, "The People of the Abyss," points out an alarming deterioration of the English people as a result of the hunger and misery of the masses. If by any chance a boy should, in spite of starvation, attain to an average man's proportions, he is either enlisted in the army or leaves the country of his own accord. As a result, only the runts and the physically unfit among the males are left to propagate the race. As commercialism has made England great, so it also is destined to lay her low.

Jacob Bernstein, a New Yorker, who visited Milwaukee in search of employment, happened in on a Jewish thanksgiving celebration. He was called on to speak and in the course of his remarks worked up enthusiasm and applause by making a socialistic application of the lesson to be derived. Some days afterward while seeking employment he was advised to call at the Hebrew Relief Society, and, thinking it an employment office, he did so. The agent and a wealthy Hebrew were conferring together when he entered. On giving his name

there was another conference between these two and finally the agent said: "You made a speech against capital the other day, so capital will do nothing for you." Thus is shown the true spirit of capitalistic charity. If you are not to be befooled by their soup, you shall have none of it. Only those who lick their hand or who may be induced to lick their hand shall partake.

The canvas of ballots on the new constitution vote shows its adoption by about 7 to 1. There was a little scratching on various sections and this delays the detailed statement of the vote now being prepared. When complete it will be mailed to every Union. This constitution requires women's unions to pay the same per capita tax as men. This is not regarded as just by the girls and they will seek to have it changed, so that ladies will not have to pay as high as men. It is understood that the executive board favors the idea of a lower tax for women.

Again we rise to remark, "It is better to vote for what you want and not get it than to vote for what you don't want and get it." If you doubt our word, ask the working class of Colorado. They didn't want bayonets and martial law, but they voted for them because they did not want to throw their votes away. They are now experiencing what they voted for, so, of course, their votes were not thrown away.

Several shiploads of the necessities of life were dumped in the ocean at New York in preference to unloading it on an already overstocked market. To depress the prices further would have been unprofitable and industry today is carried on, not to relieve human needs, but to make dollars. Is it not lovely? Families starving in the city; goods dumped in the bay. We have an "incentive" all right.

The coal operators of the east have decided to increase the price of coal and reduce the wages at the same time. The question is, what are we going to do about it? Strike? We might prevent the reduction in wages, but how about the increase in prices? Suppose we gain a 10 per cent. raise for all classes of labor and 25 per

cent. is immediately added to the cost of flour, meat, etc., have we any remedy as trade unionists? Our wages while apparently increased 10 per cent. during the past year or so have actually been reduced because it costs 33 per cent. more to live than formerly. There is a leather medal in this office for the "pure and simple" unionist who will tell us how to solve the problem.

A Chicago contractor refused to salute the American flag because "strikers are allowed to interfere with the liberty of the strike breaker." Thus does patriotism shrink beneath the fierce fire of the class struggle.

A New York newspaper reports that in one hour 71 elegantly dressed dressed dogs attended by wealthy society women in luxurious equipages, passed along Fifth avenue. One dog was made conspicuous by wearing emblems of mourning. A ragged little urchin stared in amazement at the procession. "Geel!" he was heard to remark, "I wisht I was a dorg."

The Railway Employees' Journal wants to know if this "craft autonomy" to which Gompers and other fakirs are so devoted might not properly be termed "graft autonomy." We suggest that the matter be referred to President Tobin and the general executive board of the Boot and Shoe workers' Union. Eight thousand boot and shoe workers of St. Louis will, we think, second our motion.

According to an exchange, the United States Steel corporation has passed out of the control of Morgan and into the hands of Rockefeller. It adds that stocks will show an upward tendency since the money of the small investor has been "scared" out. Scared is a good word, but the small investor whose money has been taken from him by manipulation has another word for it. He calls it theft.

An unknown old man after trying to beg food at a number of cheap restaurants, dropped dead on the Bowery a few days since. An examination proved that he had died from hunger in one of the richest cities on the globe. The Indians are said to leave their old men and women to die this way, but with them it was a matter of necessity. Not so with us, however. There is enough and to spare for every human being that walks the earth if we would but adopt a sane scheme of industrial relationship.

Rockefeller interests are now in control of the steel trust, oil trust, coffee trust, many of the large railway systems, iron mines, coal mines, banks, factories and steamship lines and the time is not far distant when no man can find employment outside of John D.'s industries, nor can goods be purchased except through his agents. Should he die others will continue his work. It is not a question of individuals, but of a system. Concentration is the order of the day. When vast capital has laid its grasp upon every avenue of opportunity the labor leaders who are now counseling against united political action will then be found advising obedience to our lawful superiors. A fakir once is a fakir always.

Last week at the convening of the 11th reichstag in the city of Berlin, 81 Socialist members were missing at the opening ceremony, because under the regulations they would have been obliged to "Hoch der Kaiser." These 81 Socialists stand for "Hoch the working class."—Debs.

THE INJUNCTION.

One need not sympathize especially with trade unions over this latest move in the direction of their suppression, for they have used their influence pretty freely at elections in behalf of the party that stands for "government by injunction." Even if they had not, the subject is one for more sympathy. It goes far deeper. To enjoin workmen from quitting work, whether singly or unitedly, for any purpose whatever, certainly when they are not under contract is to invade the personal rights of every man, be he a trade unionist or not.—The Public.

RAILWAY EMPLOYEE'S JOURNAL.

The Journal of the United Brotherhood of Railway Employees for December surpasses even the high standard of excellence which characterizes this splendid railway magazine. Prominent among its features are "Railroad Unions," by E. V. Debs; "Discharged," a poem, by E. A. Bresholt; "Accidents," by Halton; and "Engineers and Trackmen," by A. J. Bradley. The editorial treatment of live working class issues is both instructive and entertaining. The U. B. of R. E. are to be congratulated on their splendid organ. Every railway worker and every working man, for that matter, should subscribe. One will never regret the dollar thus spent.

Manager Hower, of the Dorcas mill at Florence, Colo., who discharged Western Federation of Miners members because of the threat of the Cripple Creek Mine Owners' association to shut off his ore supply, has been notified by the owner of the Morganstein coal mine that no more coal could be secured for the mill at that mine. The coal miners had threatened to strike if the Dorcas mill was given coal. The Morganstein is one of the mines that acceded to the demands of the men and has been supplying many plants with coal.

GOD, GIVE US MEN.

God give us men! A time like this demands Strong minds, great hearts, true faith and ready hands; Men whom the lust of office does not kill, Men who the spoils of office will not buy, Men who have honor, men who will not lie; Men who can stand before a demagog and scorn his treacherous flatteries without winking. Tall men, sun-crowned, who live above the fog In public duty and in private thinking! For while the rabble, with their thumb worn creeds, Their loud professions and their little deeds, Mingle in selfish strife, lo! Freedom weeps, Wrong rules the land and trailing Justice sleeps. —Holland.

I CURE IMPOTENCY

"I make no misleading statements or unbusinesslike propositions to the afflicted; neither do I promise a cure in a few days or offer free treatment in order to secure their patronage, but I guarantee a perfect, safe and lasting cure in the quickest possible time, without leaving injurious after-effects in the system, and at the lowest possible cost for conscientious, skillful and successful service."

Men's Diseases

There is seldom a day that I am not consulted by an unfortunate sufferer who, if he had consulted me in regard to his condition in its early stages, I would have cured him and saved him much suffering, annoyance and expense. This, I consider, is due to lack of knowledge on the part of the one who has previously treated the case, therefore, I say to you if you are suffering from any disease or condition peculiar to men, or if you have been a victim and been disappointed in not getting a permanent cure elsewhere, I would ask that you come to my office. I will explain to you OUR SYSTEM OF TREATMENT, which I have originated and developed after a whole life's experience in the treatment of special diseases of men. I will give you a thorough examination, together with an honest and scientific opinion of your case. If I find you are incurable I will honestly tell you so. If I find your case curable I will give you a legal guarantee to cure you.

If you are a victim of Nervo-Sexual Debility, with all its distressing symptoms, you certainly do not intend to remain as you have only one life to live. Why not live it in the full enjoyment of abundant vitality and perfect health? The fact that you have taken inferior remedies to no avail should not destroy your faith in all treatment, nor your hope of a radical cure. During my long term of scientific study and practical experience I have evolved a special treatment for Nervo-Sexual Debility that is uniformly successful in cases where success was before and by other doctors deemed impossible. It does not stimulate temporarily, but restores permanently. It always the irritation of the delicate tissues surrounding the lax and unduly expanded seminal ducts, contracting them to their normal condition, which stops night emissions, dries up day drains and prevents prematureness. It tones up and strengthens the blood vessels that carry nourishment to the weakened parts, which regain full strength. Meanwhile all other symptoms improve and the patient finally realizes, as if a great blight had been lifted from his life, that he has found relief from his terrible affliction. If you are unable to visit me in person, you should write for my booklet. It contains a scientific and yet simple discourse on VARICOCELE, STRICTURE, SPECIFIC BLOOD POISON, NERVO-SEXUAL DEBILITY and associated MALE PELVIC DISEASES, with their reflex complications. No man should be without this book; all can have it free by describing their trouble.

I CURE MEN

My counsel is gratis to patients, and to physicians desiring in good faith to consult me concerning obstinate cases. A legally written contract to cure, backed by abundant capital, is given to every man upon beginning treatment.

YELLEK MEDICAL INSTITUTE

N. E. Cor. W. Broadway and Montana Sts., Butte, Montana. OFFICE HOURS: 9 a. m. to 12 m.; 1 p. m. to 5 p. m.; 7 to 9; Sunday, 10 to 12. (Authorized by the laws of the state of Montana.)

MONTANA HARDWARE CO.

MONTANA HARDWARE CO., Butte, Mont.

Advertisement for Crown Tailoring Co. featuring a grand price surprise in suits and overcoats. The ad includes several portraits of men in suits, a large central text area, and two side boxes for 'Winter Suits to Measure' and 'Overcoats to Measure'. The central text reads: 'Our Sale Last Week Put Other Tailors Out of Business -- They Can't Compete. A Grand Price Surprise in Suits and Overcoats TO MEASURE. Tomorrow morning at 8 o'clock we begin a sale that will bring the men here in swarms. Never before have we offered winter suits and overcoats at such prices—right in the beginning of cold weather. We bought these wools at a snap bargain price—for spot cash—from a jobber who needed the money. Not a suit pattern in the lot is worth less than \$20.00. Not an overcoat pattern worth less than \$20.00—and from that price on up to \$27.50. It is a great satisfaction to us to be able to offer these fabrics at prices that we KNOW cannot be approached by any other tailor in Butte. You cannot even duplicate our qualities at these prices in ready made clothing. Get a sample and see if we are right.' The side boxes offer 'Winter Suits to Measure' and 'Overcoats to Measure' for \$13.85. The bottom of the ad features the company name 'CROWN TAILORING CO., 229 E. Park and 63 W. Broadway' and the manager 'A. C. LYLES, Mgr.' with a branch store in Dillon, Mont. managed by W. H. Wade.

ONE OF THE DEPORTED

(Continued from Page One.)

their eye when they ask them about the last degree. One of them whom I questioned said: "Well, it is this way, one squad of soldiers dressed up as citizens will break into jail after they have arrested you, take you to San Miguel and put feathers on and then another squad dressed as farmers will shoot you for grouse."

I didn't believe it. "Oh, but," he said, "if they are ordered to they will have to."

Yes, I suppose they will, but I know they are not all snakes that are working for Peabody. I pity some of those boys whose story I have heard. Oh, how they would like to quit their murderous work. They say they are tired of ransacking homes and preventing honest men from going to work. And then the poor lads who have been entrapped and brought up here into these gloomy hills to slave under the point of a bayonet until they get an opportunity to escape. They are not bad fellows. Every day some of them manage to get away. But may be all this is not really happening? Who am I? Where am I? Do I see what I see and hear what I hear? The bull pen is an awful place and they tell me the only way out of here is through it. They broke down the door last night, but when they began to crawl through the house I got into the hot water tank. How can I pay my taxes and get out of this horrid land? If I could only get somewhere even if it was to a cannibal island, I would feel more safe. If I am awake help me. I have only been away from my native land, Free America, a short time.

Oh, let the blood of my old revolutionary grandfather boil again. He did not go through Valley Forge by nothing. And you, my father, who helped to free the black slaves, can you not do something to rescue me from this awful land? Union men, brothers of mine, wherever you are, brave and true as you have always proven, are you going to stand sullenly by, knowing that these outrages are being committed without a defense?

Rally once again as you alone know how, and the eight-hour day is ours. Oh, my countrymen, if by any chance you see this appeal for help, come, my free-born comrades, and take me back to the land where I can once again sing those songs of freedom; where my eye will never again be witness to such injustice. A comrade on the zig-zags, J. C. BARNES.

P. S.—I was told after the "gang" railroaded me to Montrose not to come back, so don't tell Peabody I am here. J. C. B.

A lumberman's union has been organized at Darby, Mont.

The Mesa County, Colorado, Musicians have applied for a charter.

"The A. L. U. Journal is O. K. and more men are finding it out each day," writes Tingley of Missoula.

The Denver Brewers already levied three assessments of \$1 each in aid of the Western Federation of Miners.

The Journal is well received in North Dakota, is the cheery assurance of Bassett, state secretary of the S. P. of that state.

A bad condition of affairs exists in the neighborhood of the northern coal fields of Colorado, particularly at Leyden, where union men are discriminated against in a most shameful manner.

The Socialist Local of Albuquerque, N. M., have donated \$12.50 in aid of the Cripple Creek strike. Unionists in that locality, says Metcalf, have learned that their mightiest weapon is the ballot.

"There is no kick among our members on this assessment. They would willingly have paid \$1," is the sentiment of the St. Regis, Mont., Lumbermen on the Cripple Creek strike assessment.

"I enclose \$2.50 for subscription to the best labor paper I ever read," is the way A. L. Knuz of Leavenworth, Kan., puts it. He adds that he will hustle other subscriptions. His number is 106 South Sixth street.

Wood Workers' Union No. 352 of New Westminster, B. C., has some of the finest timber of any union in the country. As a result of their vim the union is holding more than its own, though for a time there were large odds to contend with.

Rees Davis reports the Citizens' alliance of Helena as whipped to a standstill. President McDonald's warning against unions bonding with the U. S. G. and F. Co. has brought out Geo. L. Ramsey, who loudly declares he was never opposed to organized labor. No, never, so help him. Ramsey used to give "complimentary orders" to a scab store just because the Clarke's union was fighting it. Oh, he was friendly, all right.

THEY WELCOME PARRY

(Continued from Page One.)

and referendum, manage their own industries, instead of being managed as now by the gamblers of the stock exchange. We favor the "open shops" where all who are willing to do their best shall enjoy all the advantages of civilization over and above the necessary costs of such a business-like administration of industry.

In the meantime we trust you will again come to Minneapolis and enlighten us as to our clear duty, and while we regret to have to suggest to your association better ways of dividing up "the unearned increment," we remain,

TRADES AND LABOR ASSEMBLY.

THE BOYS OF NEW YORK.

Entertainment of A. L. U. Firemen a Grand Success in Every Particular.

Edr. American Labor Union Journal

On the 19th inst., L. A. No. 290, A. L. U. (Stationary Firemen), held their annual entertainment at 326 East 21st street. The entertainment was a grand success, both numerically and socially.

The music was furnished by L. U. No. 273, A. L. U., of New Jersey, and was of the finest order and was appreciated by all present. There were delegations there from L. U. No. 330, A. L. U., L. U. No. 334, A. L. U., and L. U. No. 466, A. L. U. We had also delegations from kindred organizations who entertained and enjoyed themselves until the small hours of the morning. They were from Local No. 20, N. B. S. E.; Local No. 56, N. B. S. F. Also from the Brotherhood of Painters, Horseshoers, Butchers and writers and several other organizations not making themselves known.

Among those who took a prominent part in the entertainment was Joseph Maginnis of Local No. 20, N. B. S. E., who gave us some very fine solo songs; James Hand and Michael Sennot, business agents of the same local, who was most conspicuous in the grand march; J. Skiving of the same local entertained the reception committee with some lively anecdotes and Matthew McConville, business agent of the Safety Engineers, was fluent in propounding the labor problem. The delegation from Local No. 56 N. B. S. F. took part in the German waltz, as it was a special feature of the order of dance.

Patrick Connelly of the above local gave an oration on the benefits derived by thorough organization in the labor field.

The house was in an uproar when Harry Keeling, former business agent of the Eccentric Engineers and also a Veteran Uniformed Fireman and the oldest man in that profession in New York city, made his appearance in the hall. He wished the A. L. U. and all his old associates in labor's ranks success and prosperity.

The visiting delegations expressed great satisfaction with the courtesy and prosperity of L. U. No. 290, A. L. U., in the manner in which the reception committee acquitted themselves on the occasion.

The only dissatisfaction that was expressed was that the hall was not large enough, but L. U. No. 290, A. L. U., was agreeably disappointed in the attendance, but we will have more adequate accommodations on the next occasion, so that the people can enjoy themselves to their heart's content. Yours fraternally,

PATRICK MULCAHY,

President of L. U. No. 290, A. L. U., 147 West 52d street. New York, Dec. 28, 1903.

The boys of Ouray, Colo., have bustled the Citizens' alliance and are to follow up the victory with a co-op. store.

M. C. Simkins has been elected secretary of the Chicago Federal Union, A. L. U., vice Secretary Sanders, resigned.

The New York Journal of recent date reports a delegate from the Shirt Cutters' Union was unseated from the Central Federated Union because he admitted he was aiding the A. L. U. to get a foothold in that city.

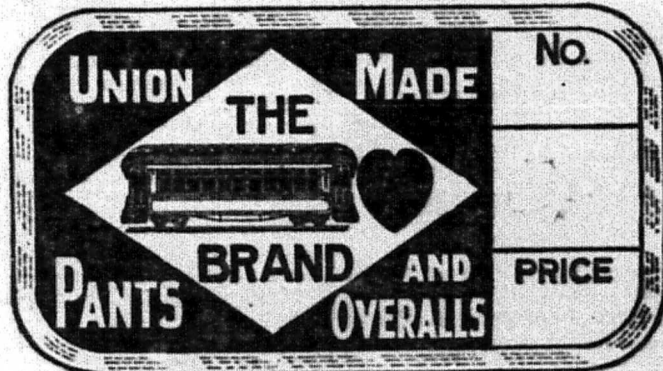

The spirit of the A. L. U. boot and shoe workers of St. Louis is a most commendable one. They have been out seven weeks without a break and the shops are getting sick of it. They are a splendid body of intelligent men and their submission to Tolbinism for so long a time shows how much men will suffer at times rather than take what appears to be a radical step.

The general executive board of the American Labor Union has ordered an assessment of 50 cents on each member to aid the Western Federation of Miners in the fight in Colorado, where soldiers control the mining camps. Street Laborers and Excavators' Union, Local 4243, of this city, has sent a contribution of \$15 to the fund and will pay the assessment in addition.—Chicago American.

SECOND WEEK OF OUR ANNUAL CLEARANCE SALE

Commences Monday and bids fair to bring six more of the busiest days we have ever known. People who looked for the usual falling off in attendance after the first day have been disappointed; they return to find the buyers and bargains bumping against each other all over the house. How could it be otherwise, when the slightest falling off in sales is immediately met by more price reductions. Every day is not only bargain day, but its bargains outbargain those of the day before. \$50,000.00 was the sum total of goods marked for the slaughter. There will be no let up in underpricing until they are sold.

Says of the United Brotherhood of Railway Employees:

It is gratifying to know that progressive men are joining the U. B. of R. E., and that in spite of the opposition of railway companies and their reactionary allies, it promises to become a power in the labor movement.

The Railway Employees' Journal, a monthly magazine, published by the U. B. of R. E., supports the great American Labor Union movement that is spreading throughout the land, and has many features of interest to all practical railroad men.

TO WARN CONGRESS Colorado Union Labor Declares That the Constitutional Right of Self Defense Has Not Been Abolished---That in Extremity It Will Be Asserted at All Hazards. Those Who Hate Tyranny Called on to Organize in Support of Republican Institutions.

The Colorado State Federation of Labor has issued a circular which has been sent to every labor union in the state. It is as follows: "The people of the state of Colorado are facing a crisis that requires heroic action on the part of all who believe in justice and constitutional rights. The pretense of the governor of the state in having ordered out the militia to preserve law and order is no longer believed, as it is obvious to all fair minded men that the powers of the state are being used solely in the interest of the Mine Owners association and the smelter trust for the purpose of defeating the eight-hour movement and disrupting the organizations that are for the same.

"To this end he, with the military has deprived law-abiding citizens of the state of their constitutional rights. He has denied the writ of habeas corpus, the right of free speech, the right of a free press and the right of citizens to have firearms in the home for self-defense; and this in spite of the constitutional guarantee that these rights shall never be abridged.

"In Telluride, citizens well known as hard-working men, have been convicted as vagrants and given the choice of going to work against their own interests, leaving their homes or working on the chain gang. Membership in a labor union is sufficient cause for arrests and incarceration in a 'bull pen' or jail.

"Citizens! are you willing to be adjudged a criminal or that others shall be adjudged as criminals, merely because they are members of a labor organization or are you in this crisis going to show your manhood, assert your rights and like freemen worthy of the name, defend them at all cost? Is it not about time that we call a halt on the un-American and tyrannical actions of the governor of this state? Assuredly, if we are not willing to defend our guaranteed rights, the time is not far distant when we, as wage earners, will no longer have any rights that the powers that be will recognize or concede.

"If the freedom of the citizens of our country was menaced by any foreign power we, as loyal citizens, would be among the first to rally in defense of our country's cause. Why, therefore, when the constitutional rights and freedom of our fellow citizens is being denied at home, should we not be ready to defend this boon which has been won for us by our heroic forefathers at the cost of so much blood and sacrifice, from menace at home.

"Then let us sound a warning that unless this condition of affairs ceases and our chosen officials who are pledged to protect our rights carry out their obligations, we still have a remedy that we will use, the right of self-defense.

"We must all realize the seriousness of these conditions, that if we still desire to be free men we must prepare to defend our rights, for un-

A "JUST JUDGE."

Enjoins Strikers From Interfering With Mine That is Owned by the Court.

The members of the Western Federation of Miners at McCabe, Ariz., are restrained by a blanket injunction which commands them not to interfere with the mine owners in their efforts to reduce wages. The injunction was issued by an appointee of Theodore Roosevelt, and he is one of the principal stockholders in one of the mines involved. He is sitting on his own case. Marion W. Moore says the action of the "just judge" has caused some of the unthinking members of the working class to wonder whether there is not something in political action after all.

TO PROVOKE A RIOT.

Deputies Invade Union Meeting Without Warrant and Make Two Arrests.

During a mass meeting of strikers at Berwind, Colo., at which 1,500 men were assembled, deputy sheriffs arrested two men.

The arrests were made without a warrant and nearly precipitated a riot. The crowd was finally calmed by the efforts of the strike leaders.

The union men characterize the arrest as a premeditated attempt to provoke a riot in order to bring in troops.

A number of eastern capitalists threatened to withhold financial aid from Washburn college, Topsham, Kan., because of a Socialist club which the students had organized. In order to save the dollars, the faculty ordered the club to disband. Is any workman so dull that he cannot see the point?

CONTAGIOUS BLOOD POISON. Is the name sometimes given to what is generally known as the BAD DISEASE. It is not confined to tens of vice or the lower classes. The purest and best people are sometimes infected with this awful malady through handling the clothing, drinking from the same vessel, using the same toilet articles, or otherwise coming in contact with persons who have been contracted it. It begins usually with a little blister or sore, then swelling in the groins, a red eruption breaks out on the body, sores and ulcers appear in the mouth, the throat becomes ulcerated, the hair, eye brows and lashes fall out and as the blood becomes more contaminated, copper colored spots and pustular eruptions and sores appear upon different parts of the body, and the poison even destroys the bones. Our MAGIO CURE is a Specific for this loathsome disease, and cures it even in the worst form. It is a perfect antidote for the powerful virus that pollutes the blood and penetrates to all parts of the system. Unless you get this poison out of your blood it will ruin you, and bring disgrace and disease upon your children for it can be transmitted from parent to child. Write for our free home treatment book and learn all about contagious blood poison. If you want medical advice give us a history of your case, and our physicians will furnish all the information you wish without any charge whatever. WE CURE QUICKLY AND PERMANENTLY. Our patients cured years ago by our Great Discovery, unknown to the profession, are today sound and well, and have healthy children since we cured them. DON'T WASTE YOUR TIME AND MONEY experimenting. We have the ONLY cure. Absolute and positive profits sealed on application. 100-page book free. NO GRANTS OFFICES. Address fully as follows: Cook Remedy Co., 1141 Masonic Temple, Chicago, Ill.

START 1904 RIGHT!

The best way to start a New Year is NOT to sit bewailing the blunders of the days gone by. Instead it IS to rise up with fresh energy, with eyes to the front, resolved to profit by past experience. What is experience? It is knowledge gained from past deeds. That is the point where the ENCYCLOPAEDIA BRITANNICA makes its great appeal. It sums up for a man all the experience of all the other men since the world began. Do you think you are strong enough to ignore all this past experience in beginning another year?

The Desire to Improve. Is the one element which has uplifted whole races and made entire civilizations. Kingdoms have passed away and new states have arisen simply because individual men have resolved to better themselves. The story of their struggles and the results of their labors are printed for your benefit in the ENCYCLOPAEDIA BRITANNICA.

The New Year's Resolution. Should include the procuring of this splendid set of books. It is the finest single equipment for success ever prepared. Its thirty-one volumes were a century and a quarter in the making and represent an outlay of three millions of dollars. The New Twentieth Century Edition will give you the latest facts in history and biography, the most recent researches in chemistry, mechanics and engineering, the last word in surgery and theology, the present status of the Roentgen ray and wireless telegraphy. If you start with BRITANNICA, you can turn over 12,000 new leaves instead of one.

In Whatever Line. Of trade or professional work you may be engaged you cannot afford to begin the New Year without this prince of reference works--particularly when it is now within your grasp at LESS THAN HALF PRICE, and payable a little at a time. The fact that more BRITANNICAS were sold in 1903 than all other encyclopaedias combined bespeaks its merit and popularity.

Price Soon to Advance. On account of the increased cost of materials and labor, the price of this Encyclopaedia must be advanced at an early date. We have, however, arranged that this increase in price shall not go into effect until the present printing is exhausted.

What the Goupon Does. The Free Inquiry Coupon, if used promptly, will bring you handsome specimen pages and full particulars, and will entitle you to the special price and a bookcase made for the Encyclopaedia. But it should be sent at once.

WHAT IS SAID OF IT "It is without a peer in the whole noble army of encyclopaedias."--LYMAN ABBOTT, D. D. "The Encyclopaedia Britannica is king of its tribe."--PROFESSOR DAVID SWING. "If all other books were destroyed, the Bible excepted, the world would lose but little of its information."--Spurgeon.

Bookcase Free. A limited number of bookcases will be given free of charge to Journal readers who respond promptly. The coupon below will be known as the Bookcase Coupon and should be mailed at once. CUT OUT AND MAIL THIS COUPON TODAY FOR PARTICULARS OF OUR GREAT OFFER THROUGH THE AMERICAN LABOR UNION JOURNAL.
