Labor Needs More Socialists in Congress To Battle Capitalists Seeking Revenge For Passage Of Eight-Hour Law For The Railroad Workers

BY ALLAN L. BENSON.

Socialist Candidate For President.

DO YOU KNOW?

What is it but militarism when the President, under a new law made last summer, is sending 14,000 National Guardsmen into the Federal Army?

Do you know that the military training of the children in the public schools of New York City has already begun?

Do you know that the only way to prevent these laws being enforced is by further legislation, and that citizens can do it only by voting for a President who will do it?

Do you know that the great capitalists will not stop with the school children of New York City or of any other city?

Do you know that the Republican Party is the only party that has the courage to do anything about the militarism of the United States?

Do you know that the militarism of the United States is the result of the militarism of the world?

We Must Save These Comrades!

BY EUGENE V. DEBS

I have just been induced to believe it was a false alarm when big bundle of rubbish in the first de

We must save these comrades, for the sake of our own lives, and for the sake of all future generations. We must save them, for the sake of their children, and for the sake of their grandchildren. We must save them, for the sake of our own children, and for the sake of our own grandchildren.

SOON AFTER, the two places that were involved were seized by the police and the strikers were massed in front of the two places. The police fired upon the strikers, and the strikers returned the fire.

And yet, unhurried as it may seem, the situation is grave, and the work of the strikers is urgent. It will take a long time to bring about a change in the conditions of the workers, but the strikers are determined to carry on the fight until victory is theirs.

Can't Pick Labor Power.

The situation in the coal mines is critical. The coal miners have been working under the most difficult conditions, and they are now at the end of their rope. The companies have been using scab labor, and the miners are fighting back. The situation is desperate, and the miners need our support.

Women For Socialism.

Women, too, have our sympathies. They have been working alongside the men, and they are now at the end of their rope. The companies have been using scab labor, and the women are fighting back. The situation is desperate, and the women need our support.

CIRCULATION of THE AMERICAN SOCIALIST, the newspaper of the Socialist Party, has been climbing recently. The Socialist Party is a political party in the United States that was founded in 1901 by socialists such as Eugene V. Debs and William Haywood. The party advocates for the principles of socialism, which include public ownership of the means of production and the elimination of class distinctions. The Socialist Party ran presidential candidates from 1912 to 1928, and its members have been active in various social and political movements, including labor organizing and anti-war efforts.

The Socialist Party was a significant force in U.S. politics during the early 20th century, and its members played a role in many important political events of the time. Today, while the number of members and supporters of the Socialist Party may be smaller than in its heyday, the principles of socialism continue to be advocated by many people in the United States and around the world.
