THE RECORO OF 40 WEEKS.
I wish every comrade in the field could reach out and make contact with the written word from his comrade the other side. If history shows anything in the movement of a race, the history of the movement of the Jewish people is one of 40 weeks. This week is a turning point. The moment the storm is gathering in the East, so must the storm be gathering in the West. The time is ripe for the establishment of new colonies and new settlements. This week,同志们, must be our week of victory. We must not let the storm pass us by. We must strike while the iron is hot.

And what are they doing? Here's the report for the past 4 weeks:

27,000 copies of Appeal to Reason were mailed to 50,000 names.
530,740 books and pamphlets.

The emphasis on education is evident in the reports. I think we can increase the number of copies by focusing more on education and distribution.

The issue of 40 weeks is very important. It is the time for us to show our strength and solidarity. Let's work hard to ensure that the spirit of the movement continues to grow.

THE STEEL STRIKE.
The strike of the steel workers ended in defeat. The Appeal condemned this strike as a move to waste the movement. The strike was provoked by the capitalist class in order to keep workers from organizing. The Appeal called for a return to the struggle for the revolution.

The Appeal also criticized the government's role in the strike. It called for the government to end its support of the capitalist class and to support the working class.

One of the best indications of the success of the Appeal throughout the country is the widespread sympathy for the Appeal in the country. This is a sign of the growing strength of the movement.

But the Appeal was right. It was the capitalist class that provoked the strike. The workers were responding to the call of社会主义.

The Appeal calls for a return to the struggle for the revolution. The workers must not be discouraged. The Appeal encourages them to continue their fight for socialism.

A DANGEROUS PHASE.
Judas was treachery personified, as any treacherous act is an act of treachery. By his act of treachery, Judas actually saved the life of Jesus, for the betrayal of his countryman was a turning point in the history of Israel. "In my opinion," says the Appeal, "the act of treachery which Judas performed in the garden of Gethsemane was the turning point in the life of Jesus."

ON TO SOLIDARITY.
Contrary to popular belief, the Appeal to Reason is not a weapon of war. It is a weapon of peace. The Appeal to Reason is a call for the unity of all workers. It is a call for solidarity.

The Appeal to Reason is not for the rich and the powerful. It is for all workers, for all those who are struggling for a better world.

The Appeal to Reason is for the poor, for the workers, for those who are oppressed. It is for those who are willing to fight for a better world.

The Appeal to Reason is a call for solidarity. It is a call for unity. It is a call for the workers to stand together and fight for a better world.

In conclusion, the Appeal to Reason is a call for solidarity. The Appeal to Reason is a call for unity. The Appeal to Reason is a call for the workers to stand together and fight for a better world.

There are a certain number of persons who have not been able to make the best of the opportunities that have come their way. They have not been able to make a good living, and they are now turned to other pursuits. In some cases, they have gone into business, and have succeeded in making a fortune. In other cases, they have taken up farming, and have become successful farmers. In still other cases, they have taken up the profession of law, and have become successful lawyers. In all cases, they have been able to make a good living, and have been able to support their families. In some cases, they have been able to save money, and have been able to provide for their old age. In other cases, they have been able to provide for their children, and have been able to give them a good education.

Priest vs. Archibishop.

FATHER McGREGOR, one of the few men whom the world's newspapers have accorded the honor of being a stranger to the question of socialism, has challenged Archbishop McGolrick to debate the question of socialism. The former is the author of "The Socialism of the Future," a book which has been much read by the working classes.

The Hon. Rev. M. A. C. Carville, Archbishop of New York, had this to say in reply:

"We are in a state of war, the truth by the use of force and the falsehood by the use of lies. The truth is a better lie."-New York Times.

A strike of 2,000 workers in Philadelphia on the West Side of New York City, has ended in a settlement.
