The Appeal Won in a Canter. Now Watch it Grow.

This is Number 320. Fifty Cents a Year.

APPEAL TO REASON.

AND THE APPEAL WON.

The Appeal comes in for a critical test of its influence. It is the hope of thousands of workingmen that the Appeal will rise in the field of trade unionism. It is the hope of thousands of farmers that the Appeal will give them the power to control the politicians. It is the hope of thousands of men who have beenChee

A Question for the M.D.'s.

Just an Incident.

The National Publishing House, which is the larger of the two, is in the habit of sending a report every week, containing a list of names of persons to whom its publications have been sent. It is a very interesting list, and the company is always looking for new names to add to it. I mentioned this fact to a doctor one day, and he was greatly interested.

"Why, that's wonderful," he said. "I never thought of that before. I've been in practice for years, and I've never thought of looking for new names to add to my list." "But it's the only way," I replied. "If you want to be successful, you have to keep adding new names to your list." "I see," he said. "I'll have to try it."

A Republican View.

There's a " Crisis" now, and the Crisis is getting pretty much in this country. It seems to be a mania among the politicians to talk about the Crisis. They talk about it in the newspapers, they talk about it in the streets, they talk about it in the restaurants. They talk about it as if it were the only thing in the world. And they talk about it as if it were going to last forever.

But I don't think it's going to last forever. I think it's going to pass. I think that the politicians are going to see that it's not a good thing for a country to be in the Crisis all the time. I think that they're going to see that it's not good for a country to be in the Crisis all the time. I think that they're going to see that it's not good for a country to be in the Crisis all the time.

The Labor Controversy.

Dr. Thomas W. Robertson, M.D., of St. Louis, recently published a book entitled "The Labor Controversy." In the preface, he says: "This book is the result of many years of study and research." He goes on to say that he has "studied the labor question from every angle." He says that he has "studied the labor question from every angle." He says that he has "studied the labor question from every angle." He says that he has "studied the labor question from every angle." A Peace Congress.

While the World's Peace Congress of 1919 was in session, a report was made in the newspapers of the United States that the Congress had adopted the following resolution:

"The Congress hereby expresses its entire approval of the principle of the League of Nations, and calls upon all nations to contribute to the establishment of a world federation of nations, in order to promote peace and prosperity among the nations of the world."
