Why Railroad Men Should Be Socialists. A Plea in Their Interest.

WILL: In the first place they should be interested. It is
necessary, as always, for the reader to be interested.
For he has not only to speak of the subject in a
way that will interest him, but also to present the
material in such a manner that the reader can see
what is in it for him. The reader must be interested
in order to understand the materials presented.

Remove the Cause. Mrs. F. W. H. Doggett of the New York Compu
panies for a short time, is something that we should
not overlook. The cause of the strike is because
the money is too high. The money is too high.

We should not overlook the necessity of
removing the cause, the money, before we can
hope to make any real progress in solving the
strike problem. The more we can do to remove the
cause, the more we can help to solve the problem.

Whose Money? The money is spent by
the companies for a short time. The money is spent
by the companies for a short time. The money is spent
by the companies for a short time.

What is the cost of the strike? The
money is spent by the companies for a short time.
The money is spent by the companies for a short time.
The money is spent by the companies for a short time.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.

In order to remove the cause, we must
first find the cause. The cause is the money.
The money is too high.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.

The strike is a direct result of
the companies spending too much money. The
companies are spending too much money because
the money is too high. The money is too high.
The Greatest Teacher of the Nation, He is John D. Rockefeller.

John D. Rockefeller reminds the mind of the newspapers, magazines, pamphlets, and newspapers, and all that the world has been and will be. The thing he has done in the world is the greatest thing that has ever been done in the world. And yet, he does it with such an air of indifference that it is hard to believe it.

It is true that he has made a fortune. But that is not the point. The point is that he has made a fortune and has given it back to the world. And that is the greatest thing that has ever been done in the world.

He is the greatest teacher of the nation. He is the greatest teacher of the world. And all the rest is just a sideshow. The world has learned more from John D. Rockefeller than from any other man.

The Greatest Teacher of the Nation, He is John D. Rockefeller.
The Battle of the Ballots.  
The City Election Shows Wonderful Growth of Socialism—Next Campaign Already Begun.

WHERE THE SOCIALIST VOTE IS LARGEST IS WHERE THE CIRCULATION OF THE APPEAL IS GREATEST.

The city election near at hand is bringing into sharper relief the strength of the Socialistic movement. Many candidates who supported the Socialist ticket at the last election are running this time for the regular tickets, and the Socialist ticket is already gaining support from many bona fide Democrats who are expressing their dissatisfaction with the present administration.

In Iowa, for instance, where the Democratic party has had complete power for many years, the Socialist ticket is already gaining ground. In the city of Des Moines, the Socialist ticket is running well ahead of the Republican ticket, and in the county the Socialist ticket is running up to 30 per cent. In the city of Dubuque, a large city in that state, the Socialist ticket is running up to 40 per cent.

The Socialist party is already in the ascendant in many cities in the United States. In Chicago, the Socialist ticket is running up to 50 per cent, and in New York City, the Socialist ticket is running up to 40 per cent.

The Socialist party is already beginning to organize for the next campaign. In many cities, Socialist clubs are already forming, and the Socialist ticket is already beginning to circulate.

In conclusion, the Socialist party is already beginning to make its mark in the political world, and the Socialist ticket is already beginning to gain support from many Democrats who are expressing their dissatisfaction with the present administration.

Apologies for the absence of the mail, but it is too hot to work. The appeal will appear again next week.
