Arousing Ye Sleeping Citizens of America!

Over a quarter mill of desperate coal miners—desperate from poverty—struggling to obtain a living from their greedy masters.

Drivers of express, carpetbaggers, in every city throughout the land. These are the men with whom we must concern ourselves.

A rise in the price of coal is in the air. Why? Because of the government's neglect.

In America, there is no peace upon our lips. We are in the midst of war; war as cruel and relentless, as brutal and savage, as ever in our history.

It is time for the American people to wake up from their long slumber. It is time for us to stand up and be counted.

This is a call to arms. This is a call to action. This is a call to our fellow citizens to rise up and take control of our fate.

Do not let your voice be heard. Do not let your actions be felt. Do not let your presence be known.

We, the undersigned voters of America, hereby pledge our sacred word and honor to vote for such legislative candidates only as publicly pledge their active support to majority rule through the referendum. (People's Vote) and this initiative.

In contrast with the isolation of party, and hold this list of pledges until every candidate has publicly declared his position.

Do it, and in the doing lose no opportunity to create sentiment favorable to the movement.

AUTOGRAH CLUBS.

The lectures on the free night might just as well make some clergymen of almost every other family. You can get just as many and handy another man, if you will take the trouble. If you do, and carry the matter along, you will find that the club system will work to your advantage.

This should be the society by which you get to know your neighbors. It is a fine way of showing them that you care for them. It is a fine way of showing them that you care for the community.

In Switzerland, when a minority of the population is to be voted against by the people, a copy of the bill is mailed to each voter. The bill is printed in full, and then summarized. The vote is taken, and the result is announced.

In Switzerland, every citizen has the right to know the laws of the land. They have the right to know what they are voting on. They have the right to know what they are supporting. They have the right to know what they are opposing.

In Switzerland, the government is not above the law. The government is subject to the law. The government is subject to the will of the people.

In Switzerland, the people are sovereign. The people are the ultimate source of power. The people are the ultimate source of justice. The people are the ultimate source of wisdom.

DO YOU OWN A LEAF? AROUND OUR COUNTRY.

The leaf is the most important thing in America. It is the symbol of freedom. It is the symbol of democracy. It is the symbol of the American people.

The leaf is the symbol of our country. It is the symbol of our nation. It is the symbol of our people.

The leaf is the symbol of the American people. It is the symbol of our country. It is the symbol of our nation.
