Free Trade, Protection and Socialism

For the Appeal to Reason. By Foreign Correspondents.

The free-trade policy is the mainstay of the British government, and its adherents are to be found in all parts of the country, from the largest cities to the smallest villages. They believe that the cheapest and best way to produce is to leave the free-trade market to itself, and that the government should do nothing to interfere with it. They are opposed to Protection, because they believe that it is bad for the country, and that it is only good for the rich man who can afford to pay high prices for goods. They believe that the free-trade policy is the best way to make the country prosperous, and that it is the only way to make the country strong.

The main argument in favor of the free-trade policy is that it is the best way to produce goods. According to the free-trade theory, the cheapest way to produce goods is to let the free-trade market do it. The government should not interfere with the free-trade market, because it would interfere with the natural laws of supply and demand. The government should not try to regulate the free-trade market, because it would interfere with the natural laws of supply and demand.

Cost of Government.

The cost is astronomical and the taxes are criminal.

The cost of government is an astronomical figure that is continuously increasing. It is not only the cost of the government itself, but also the cost of the taxes that are imposed to pay for that government. This cost is not only a financial burden, but also a social one, as it affects the quality of life for many citizens. The taxes are often used to fund programs that are not beneficial to the people, and this further increases the cost of government.

GO AFTER THEM.

Look here, you autocratic socialist statesmen and writers, go after your local papers and socialistic journals and shut them up. If they give a wrong idea of us, it is your duty to do your best to correct them. You can do this in a paragraph cut out of your local paper and made into a tract. Give us help and we will help you. When we need something written we can't get a paragraph cut out of it, or we can't get one from the exposition, we will have to do it ourselves. Socialism was never better in a tract than in a propaganda tract.
