PRIVATE OWNERSHIP.

The socialist party in Germany has made a great advance as a result of its candidacies in the recent local elections, which will be used as a basis for the Reichstag elections. The socialist candidates in Saxony have won a majority of the votes cast, and the party is now in a position to control the government in that state.

WEALTH ALWAYS POLITICAL.

In the United States, the wealth of the country is being used to influence the election of public officials. The wealthy interests are able to buy the votes of the people, and this is done by means of campaign funds, which are largely contributed by the wealthy class. The result is that the government is controlled by the wealthy class, and the poor are at a disadvantage in getting their views considered.

THE CURING OF CAPITAL.

The cure of capitalism is one of the greatest problems of the day. It is impossible to make capitalism work justly, and the attempt to do so will lead to revolution. The only solution is to get rid of capitalism and substitute some other form of society.

MAJORITY OF REPUBLICANS FOR CONSCRIPTION.

The majority of the Republican party favors conscription. This is because the party is dominated by the wealthy class, which is opposed to socialism.

STATEMENT OF THE APPEAL PUBLISHING CO.

The Appeal Publishing Co. is a socialist publication. It is published in Kansas and is distributed throughout the country. The company is owned by the socialist party, and the editors are socialists.

WHAT LABOR EMINENTS VOTE FOR.

The labor eminents vote for the socialist candidates. This is because they see the need for change, and believe that socialism is the best solution to the problems of the country.

DEMOCRACY IS NECESSARY.

Democracy is necessary in order to prevent the concentration of wealth in the hands of a few. It is necessary to have a free press, a free speech, and a free people, in order to keep the government from becoming tyrannical.

OUT IT IN THE BEECH.

Out it in the beech! This is a saying that is used by socialists to express their determination to fight for their beliefs. They are not afraid to take a stand, and will not be intimidated by the wealthy class.

AMERICAN CHEAP LABOR.

American cheap labor is one of the greatest problems of the day. The people of this country are working for very low wages, and this is causing great harm to the people of other countries. Socialists believe that this situation must be remedied, and are working to improve the condition of the working class.

MAKING HISTORY.

Making history is one of the greatest achievements of a socialist. Socialists believe that they are making history, and that their work will be remembered for generations to come.

FACTORS VERSUS THEORIES.

Socialists believe that factors are more important than theories. They believe that the best way to solve problems is to study the facts, and then to work to change those facts that are harmful to the people.

THE STRIKE.

The strike is a common occurrence in the United States. It is a means of protest, and is used by workers to demand better conditions. Socialists support the strike, and believe that it is a necessary tool in the struggle for freedom.

Hear From Madden.

About the time that the wire flashed the news from Germany that the Socialists had defeated votes in the entire state, the local newspaper brought out a letter from Madden. This is an appeal to all of the members of the party to work harder, and to take a more active part in the struggle.

WE ARE THE STRUGGLERS.

We are the strugglers. We are the people who are working to make the world a better place. We are the people who are fighting for the rights of the workers, and we will not be satisfied until we have achieved our goal.

NEED A USA.

We need a USA. We need a country where the people are free, and where they are able to live in peace and prosperity. We need a country where the wealthy class is not able to control the government, and where the working class is able to have a voice in the making of laws.

OUR STRUGGLE.

Our struggle is to make the world a better place. We will not be satisfied until we have achieved our goal, and until the people of the world are free and equal.

Field, Factory and Mine

The great and good Universal Brotherhood of America has sought after the industrial and commercial efficiency of the land, while the government has been concerned with the production of goods, the money transmitter in society. But where the two come together, there is a difference in the economic system.

The government should be a servant of the people, the people should be the masters of the government. The government should be responsible to the people and the people should be responsible to the government.

The government should not be a creation of the people, but the people should be a creation of the government.

The government should not be a creation of the people, but the people should be a creation of the government.

The government should be the servant of the people, the people should be the masters of the government. The government should be responsible to the people and the people should be responsible to the government.
