**Rev. Father Thomas McGrady to the Roman Hiredlings.**

The June number of the Messenger, A. had by the Presson Mason order, contained a communication from the Rev. Father, in which he proved the point of the wrong, or doubtful character of the Roman Church. He laid out the charges patiently. The writer, however, says, is enough in the present order of society, to form the basis of a sound argument. He does not, however, wish to cast aspersions on the Roman Church, but to point out the defects of its present order. The Messenger is published monthly, and is sold quarterly in Philadelphia. It is a weekly paper, and is sold at a price of 25 cents per year. It is published every Saturday. **OWNERSHIP of the EARTH by ALL THE PEOPLE.**

Benevolent Methods of Capitalist Education

The capitalists have always considered themselves the natural enemies and guardians of the working class. They have never been able to feel the burdens of life in a human form, bred by the blow of God, as mountebanks and American Trust magnates, they have never felt that they were the mouthpiece of the working class. Quite naturally, therefore, they now feel it to be improper upon them to care for the education of the working class. But now you cannot change human nature, as the capitalist apologists say, for by no means unless we are to have a moral and educational system that will further the interests of the working class we have no such system. The working class is a moral and educational system that will further the interests of the working class. This is good reasoning, and knowing only the insignificant point that there was a working class before there was a capitalist system. But who would take such matters seriously?

The capitalists believe that working men are very stupid fellows. And so they lose no opportunity to exhort them to the practice of honesty, and to the workers to read and work. Only a few days in the year do the capitalists dream that the power of growing the workers of the working class. That is on Defeat Day, Fourth of July, Labor Day, and last, but least, Election Day. But all the rest of the year the capitalists have to educational matters very seriously, and proceeding on the principle "the red and only the blue" they educate the workers by letter and not by law.

And as is usual in such cases, the capitalists pretend to feel the pain more than they show to those whom they have killed.

The capitalists believe that if they do good to the working class, they have no right to expect to get anything for their money. They believe that when they get too extravagant, the capitalists, who are good and generous, always offer to show the true meaning of charity by spending the money of the working class. And in the same tone, the capitalists, who never forget their sacrifices for the unorganized workers, try to convince the workers that the benefits of work for less is as possible as it is for the capitalist. But when the working class is organized, they have no right to expect the workers of the working class. Rather than run the risk of offending the working class, the capitalists sacrifice their position by handing over as much of the fifty dollars as possible.

Yet the capitalists do not appreciate the sacrifices of the capitalists for them. Very often the workers make sacrifices in doing work which they have no right to expect to get anything for their money.

The capitalists, because of their sacrifices for their own class, believe that when they get too extravagant, the capitalists, who are good and generous, always offer to show the true meaning of charity by spending the money of the working class. And in the same tone, the capitalists, who never forget their sacrifices for the unorganized workers, try to convince the workers that the benefits of work for less is as possible as it is for the capitalist.
LABOR DAY

Labor Day should be a celebration of a new era, a time to look forward to greater achievements. The strike is not the end but rather the beginning of a new life.

A GREAT STRIKE.

The great strike of the textile workers on the President, Pennsylvania Avenue, Philadelphia, is another step towards the greater economic freedom for the working class. The workers have shown that they are not afraid to fight for their rights.

SOCIALISM IN THE SOUTH.

In the South, socialism is growing. The working class is organizing and fighting for their rights. The struggle is not only for economic freedom but also for political freedom.

A GREAT EVENT.

Events like the great strike of the textile workers are a testament to the strength of the working class. The workers have shown that they are willing to fight for their rights and that they are not afraid to face the challenges that come with organizing.

ON THE SKIRMISH LINE.

The struggle for economic freedom is not just for the workers in Philadelphia. It is a struggle for all workers across the country. The strike is not just a local event but a national event.

BABY WEATHER.

In this weather, we need to be careful. The workers should not be afraid to fight for their rights. The strike is a testament to the strength of the working class and their determination to fight for their rights.
