We Need Your Help

We can do a great work if you will do a little work.

Within the next two weeks the Appeal will be compelled to discontinue operations unless we are able to accumulate at least $4,000. This is a critical time for the appeal, and we are in need of your help. We are running out of cash, and we must act quickly to avoid financial disaster.

The desire for industrial liberty from trusts is awakening over the nation. As did the anti-slavery spirit of 1856 or the spirit of 1776, this desire for industrial freedom will sweep the nation in the years to come.

We have written to you before on similar plans, but now we beg you to act. We have been unable to make a sufficient campaign of solicitation to send forward the money we need to reach the goal of $4,000. We must act now or fail.

We are in need of more than the receipts of the office. This is occasioned by the burning of a large part of paper necessary for the regular issues of the paper for the July jubilee edition. We will lose about $100 of all which is now in our hands, and we must act to save the remainder. We want you to act now or fail.

We ask you to act now, or we will fail to continue publication. We are in need of your help to save the Appeal. We cannot do without your help.

God bless you.

The Quorum Resolution.

In the Indian Territory.

The national convention of the National American Woman Suffrage Association was held at Washington, D.C., last week, and the Indian Territory was one of the principal topics of discussion. The convention was called to order by the president, Miss Susan B. Anthony, and the business of the day was conducted in a simple and business-like manner. The speakers were all well-versed in their subjects and their speeches were listened to with great interest. The resolution that was passed was adopted by a large majority and was signed by the delegates present.

The resolution called for the immediate granting of the franchise to all women, and it was pointed out that the people of the Territory were as ready to accept the right as any other people in the country. The delegates felt that the time had come for the women of the Territory to be given the vote, and they were determined to see that it was done.

The resolution was passed by a large majority, and the delegates left the convention with the feeling that they had done their duty and that they had achieved their goal.

The following is a copy of the resolution:
