A Venture in Journalism

The Appeal was founded in 1904 by John M. Wheeler, a journalist who had previously worked for the St. Louis Post-Dispatch. The Appeal was started as a weekly newspaper to promote Progressive Era ideals and reform. It was one of the first newspapers to advocate for workers' rights and to oppose corruption in government.

The Appeal was known for its strong advocacy for social and political change. It supported labor unions, advocated for women's suffrage, and criticized the behavior of politicians. The newspaper was also known for its investigative reporting, which helped expose corruption and injustice.

The Appeal's influence extended beyond its local community, and it helped to shape the Progressive movement in the United States. It was considered a radical newspaper and was often targeted by those in power.

The Appeal continued to publish until 1933, when it was forced to close due to financial difficulties. However, its legacy lived on, and its principles of journalism and social activism continue to inspire journalists and activists today.

The Appeal was more than just a newspaper; it was a force for change and a symbol of the power of the press to bring about social and political transformation. Its stories and articles still resonate today, reminding us of the importance of independent journalism in a democracy.

As we celebrate the 100th anniversary of the Appeal, we honor its legacy and its contribution to the history of journalism. We remember the courage of its editors and writers, and we strive to continue their work of holding power accountable and advocating for a better world.
The Black and White Slaves of the South.

The Story of Peonage in Georgia Elegantly Told by Special Correspondent J. L. Fitz.

Peonage, about the worst form of slavery to be found in the New World, is practiced in Georgia and South Carolina. It is in effect a condition that enslaved the laborers, without the advantage of a master, and without the advantages of the South African system, which is under the control of the negroes. With free men, free land, free water, and freedom to work, the negroes work in groups and exchange labor for the production they give by working together.

In utter absence of law and humanity, the negroes are whipped in the presence of whites, and with their assistance, to work.

A STRUGGLE FOR LIFE.

By M. D. LOCKWOOD

A winner of the automobile in the Wilson prize contest, I write to tell you what happened to me. The contest was sponsored by the Socialist Workers' Party and the Automobile National Committee, and I entered in order to help the organizers. I was lucky enough to win, and I am now the owner of a brand new automobile. I am now free to travel and work as I please, and I am determined to use this automobile to help the working class.

I am writing to tell you how I won. I entered the contest by sending in a letter explaining why I wanted to win an automobile. I wrote about my struggles as a worker and my desire to help others. I was surprised to learn that I had won, and I am now using the automobile to help others.

I am now traveling around the country, speaking at rallies and meetings, and I am using the automobile to reach as many people as possible. I am determined to use the automobile to help others and to fight for a better world. I hope you will support me in my efforts.

Thank you for your support.

Sincerely,
