SOCIALISM

REV. H. MAHONEY

The idea of socialism is not new. It has been with us for many years, but it has never been a popular movement. The socialism of the past has been socialism in name only. It has been a theory, a dream, a dream of the future. It has been a dream of the philosopher, the economist, the politician. It has been a dream of the worker, the peasant, the farmer. It has been a dream of the people, the masses, the poor, the enslaved.

Now what is this thing which Marx and his disciples propose to bring out to the people of the world? What is this thing which comes in the name of socialism and longs to destroy the capitalist world and bring in the Kingdom of Labor?

No, socialism is not a new idea. It has been with us for many years. It has been a dream of the past. It has been a dream of the future. It has been a dream of the people, the masses, the poor, the enslaved. It has been a dream of the workers, the peasants, the farmers. It has been a dream of the people, the masses, the poor, the enslaved.

There is a real reason for socialist progress. The reason is that socialism is not a new idea. It has been with us for many years. It has been a dream of the past. It has been a dream of the future. It has been a dream of the people, the masses, the poor, the enslaved. It has been a dream of the workers, the peasants, the farmers. It has been a dream of the people, the masses, the poor, the enslaved.

The socialist who dreams of bringing about the Kingdom of Labor will find that he is dreaming the same old dream of the past. He will find that he is dreaming the same old dream of the future. He will find that he is dreaming the same old dream of the people, the masses, the poor, the enslaved. He will find that he is dreaming the same old dream of the workers, the peasants, the farmers. He will find that he is dreaming the same old dream of the people, the masses, the poor, the enslaved.
