Woman and the Bread-and-Butter Question.

By INEZ FORBES

It is the general belief that "the woman's dress" is the source of all of the evil that the world is suffering. If this be true, then it is clear that we must do something to remedy the situation.

Some women have been known to wear clothes that are so long and loose that they can hardly be considered as being in any way evidence of the existence of the problem.

If you have any suggestions, please write them to the editor of this paper. We will publish them in a forthcoming issue.

The World's Three Months' Extra Value.

How to Sell Your Goods in a Week.

By J. C. MACKAY

There are several ways in which you can sell your goods quickly. Here are a few suggestions:

1. Offer a free sample to each customer.
2. Give a discount to customers who order in bulk.
3. Display your goods in a prominent location.
4. Advertise your goods in the local newspapers.

We hope you will find these suggestions useful. If you have any questions, please write them to the editor of this paper. We will answer them in a forthcoming issue.
Marriage in High Life

Franklin H. Wentworth's Description of the Lasser-Howard Wedding Nuptials.

Joseph Lasser, the well-known magazine editor, and Miss Howard, the society hostess, were married yesterday in a private ceremony in the home of Mr. and Mrs. Lasser in New York. The couple left for a honeymoon in Europe the day after the wedding.

The ceremony was performed by Judge Edward A. Woodworth, who has officiated at many of the most exclusive social gatherings in the city.

The bride was dressed in a beautiful wedding gown of white satin, with a veil of silver lace. Her bouquet was a large one of roses and lilies, and she carried it gracefully as she walked down the aisle.

The groom was almost as dashing as his bride. He wore a suit of black velvet, with a white tie and a silver watch chain. His face was beaming with happiness as he looked at his bride with love and admiration.

The wedding was a private one and only a few close friends were invited to attend. The reception was held at the home of the bride's parents, who live in a large mansion on Park Avenue.

The guests included many of the most prominent people in the city, including Senator John D. Rockefeller, Jr., and Mrs. F. W. Woolworth.

The wedding was a great success and all who attended were highly pleased with the beauty of the ceremony and the happiness of the couple. The guests were served a sumptuous dinner and a dance was held in honor of the newlyweds.

The couple will return to New York on Monday and will spend their honeymoon in Europe, where they will travel through several countries and visit many of the most famous cities.

The wedding was a joyous occasion and all who attended the ceremony were deeply moved by the happiness of the couple. The couple are expected to have many children and will live happily ever after.
**GENIUS AND SOCIALIST**

All awe the long history of the world we and genius alive with a foretaste of what is coming on and shapes things. The years of our history are marked with the names of heroes and statesmen, but they are also the years of the genius. The genius is the creator of the world, the shaper of the age. He is the one who moves the world, the one who makes it what it is. And there is another name that is burning clear, steady and bright in the world of letters—Mr. Thomas Stearns, and Mr. Sinclair and the others. It is a name that will live on, a name that will be remembered for the ages to come. The genius is the one who will be remembered.

Mr. Sinclair is best known, probably, for his new book, "Hobson's Choice." This is not only a literary gem, clean, clear, without strain or fuss; it is also an intensely interesting tale of the great war. The book is "The Hobson's Choice," and "Hobson," are both literary productions, but the book that the young author is working on was made to be a masterpiece of Socialist literature.

In the New York Journal, a review of the book, he has built his house, for the reader and the critic, and for theyg are the ones who will be remembered. We do predict, however, that the novel will be an original and interesting one, and it will set a new standard for the literary world. This is the first novel that has been written in this country by a Socialist, and it is a work that will be remembered for the ages to come.

**UPPER EMPIRE**

"A thing to be proud of," the first step is simply reported, and the story is one of the triumphs for the Socialist cause. The people of this country are looking forward to the coming of Mr. Sinclair, and they are looking forward to the coming of his book. It is a work that will be remembered for the ages to come.

The genius is the one who will be remembered, and he is the one who will make the world what it is. The genius is the one who will shape the world, the one who will create the world. And he is the one who will be remembered.
