AND IS THIS CHRISTIAN CIVILIZATION?

The Public Institute of Philadelphia, has made some startling charges against the child labor laws of the State of Pennsylvania. These charges are based on statements by many of the leading industrialists of the State, who have been witnesses at the hearings before the Committee of the State Legislature on the subject of child labor. The Institute has also written a letter to the Governor, in which it states that it is impossible to support the claim that child labor is necessary for the maintenance of the State's industries, and that it is only a matter of time before the State's industries will be unable to support themselves without the assistance of the State. The Institute further states that it is certain that the child labor laws of the State will be repealed before the next session of the Legislature, and that the State will be required to pay a large sum of money in order to enforce them.

AND THIS IS WHAT HE VOTED FOR.

The United States has been torn by a series of bitter controversies over the subject of child labor, and it is certain that the country will be divided on the question for many years to come. The President, who is a strong advocate of the child labor laws, has been accused of being a Presbyterian, and it is certain that he will be found to be a Presbyterian in the next session of the Legislature.
