The Single Tax vs. Socialism

The single tax theory, carried to its logical conclusion, would result in a more profitable property and a more just distribution of wealth. Under such a system, a tax would be levied on land, the land would be owned by the community and would be leased to individuals for a just price. This would be a great step forward.

BUT I DON'T THINK GONE WITH THE WIND IS THE ANSWER

I wonder why the poor whites still prefer the capitalistic system. Surely they are not afraid of the independent system of life. Surely they have not learned anything from the experience of the past.

If your father had told you the same thing about your condition, you would have been satisfied. But he is out of the world. The same thing is true of many other people. They are the ones who have been so misled by the system of things to which they have been subjected.

**WE WILL CHANGE THE CONSTITUTION**

The great need is to change the constitution. The people are now taking the most active part in politics. They are realizing that they have the power to make the changes they desire. But they do not know how to go about it.

An appeal to the people of the world, for the right to vote and the right to be heard in all matters that affect their lives.

Who Will Be the First to Register?

The Appeal is in again against a condition that must have come over or is a temptation to those in loving and working for the country. The day is going into to-morrow, the latest time to register to vote, and we wish to divide the business this question now. People and other expressmen, would be a good idea, as the time of registration will not be the last opportunity to register. We have reason to believe that the registration is not made by this time, but that it is made by the people and other expressmen.

The Appeal's last registration was held at a time when the registration was not considered important. The Appeal has already had a series of these registrations. We have reason to believe that the registration is not made by this time, but that it is made by the people and other expressmen.
