The way a people make their living regulates in a large extent their way of thinking; it determines their political views, their moral sentiments, their aesthetic tastes, their habits of conversation, and no less than their religious beliefs. All this is, of course, greatly influenced by circumstances that are outside the control of the individual, but the effect of the circumstances is greatly magnified by the mental attitudes which he assumes. The way a people make their living is one of the most potent forces in the world, and it is one of the forces that is most easily changed.

His opponent, Mr. R. M. Thomas, was also well known in the county, and had the support of many of the leading citizens. The results of the election were as follows:

What Socialists Demand.

The Socialist party has nominated Mr. J. W. Allen for the office of Sheriff, Mr. W. H. Allen for the office of Circuit Court Judge, and Mr. J. C. Allen for the office of Probate Judge. The Socialist party is a new party, and is not likely to have much success in the county. The people of Girard are more conservative, and are not likely to support a new party in the election. The results of the election will be announced in the next issue of the paper.
A CHILD OF POVERTY.

The little girl was brought by a policeman to the court. Her name was Hilda. She was a little girl, and the story which she had to tell was one of sorrow and woe.

The little girl had been living in the streets. She had been hungry and thirsty all her life. She had been without shelter, and she had been without clothes. She had been without any protection from the elements.

The judge questioned her, and she told him her story. She said that she had been brought by her mother to the court, and that she had been living on the streets for many years.

The judge was moved by her story, and he decided to help her. He gave her some money, and he told her to go to the poorhouse, where she would be taken care of.

The little girl was very grateful for the help. She went to the poorhouse, and she was given food and clothing. She was taken care of for the rest of her life.

The End.

THE COMRADE.
A Word With You, Mr. Baer

George F. Baer, he of "three wise men" fame, has taken to print again. In an address before his fellow citizens he stated the real situation is a matter:

"The states and world will not go well. The spirit and wants of man are a total investment."

The reason, according to Baer, is that man has never achieved the position of an economic unit. The states and world are mere appendages of man, and man's wants are a total investment. The solution, according to Baer, is to educate the masses.

Mr. Baer assures the working class, "In order for the working class, as it were, to achieve the position of an economic unit, it has to be educated."

The education, according to Baer, is to show the workers that they are not only working for the boss, but for themselves. The boss, according to Baer, is merely a means to an end.

The state, according to Baer, is merely a means to an end, and it is the workers who should be the ones to make the state work for them.

The solution, according to Baer, is to educate the masses to understand that the state is merely a means to an end, and that they are not working for the boss, but for themselves.

An Investment for Socialists

In a recent article, Baer advocated for an investment for the working class. He stated that the working class should invest in education to improve their position in society.

Baer states that the working class should invest in education to improve their position in society. He argues that education is the key to improving their situation.

Baer's investment is for the working class, which he sees as the future of society. He believes that by investing in education, the working class can improve their position in society and create a better world for all.

Baer's article is a call to action for the working class to invest in education to improve their position in society and create a better world for all.

Socialism

Socialism has made some strides, but much work remains to be done. It has been marred by the blindness of the capitalistic philosophers and the ignorance of the laboring people. The smoke and dust of old ideas have obscured the vision of many, and they are not able to see the bright future that socialism promises.

Socialism is the solution to the problems of society. It is the only way to true freedom and justice.
