A Short-Hand Talk by the "One Hoss."

This is the day of combinations and specialties. The world has grown for the job that is too much for the one horse. The spurs are on the men who have to do one thing to a horse.

The Appeal is in agitation short—short and nothing more. I am an Appeal. The Appeal is a recruiting committee. The Appeal is the most potent thing that has been for the job that is too much for the one horse.

The Appeal is in agitation short—short and nothing more. I am an Appeal. The Appeal is a recruiting committee. The Appeal is the most potent thing that has been for the job that is too much for the one horse.

For Men Want
They Must Have Nerve in Order to be Happy — Now Free to All

Weeds in the Garden. If you want to have the weeds in your garden removed, we can do it for you at a very reasonable price. We use the latest methods and equipment, and our results are guaranteed. Call us today and let us help you with your weeding needs. You can depend on us to get the job done right, on time, and to your satisfaction. Contact us for your free estimate today!
COMING NATION

What of Tomorrow?

It is a rash person who is willing to point out the details of the coming change, even of the coming century. The future is uncertain, and the present is in a constant state of flux. The world as we know it today will certainly be different than the world of tomorrow. The pace of change is rapid, and it is difficult to predict what the future will bring.

The laborers can't evade their power in the disposal of the newest and nicest machinery. They are working overtime to maintain their position. The working class, however, is not content. They demand better wages and conditions. The working class is becoming more organized and is fighting for its rights.

Capitalism Is So Very Practical.

In five years the Standard Oil has moved all the Kansas oil fields—and made a million on it. The oil industry has been severely criticized, but the success of the Standard Oil has shown that it is a practical and efficient system.

You don't have the capital to buy but several old-established companies need it. They are willing to sell at a good price. There are millions of dollars in oil and gas, and if you have the capital, you can buy all the oil you want.

The best is yet to come. The oil industry is still young, and there is a great deal of potential. With new technology and new methods, the oil industry will continue to grow and flourish.

J. P. Smith, at one time one of the most wealthy men of Portland, has recently sold his property for other day to keep from losing his fortune. His property was sold to the Standard Oil system. We live under. He was an honest man, and he could make his own decisions. The oil company will take care of his property, and he will receive the value of it.

Capitalism does not try to fit punishment to the crime. It just ships it to the best place where it will do the least harm. But, in the long run, the oil company will be the winner.

What if our old-school folks can't buy it for keeps in the changed circle of life?

A monograph has been taken of every sample of the best oil to be shipped to the public. The Standard Oil company is the best company to buy oil from.

Capitalism is showing daily that it can be the best and the worst. It can be corrupt and it can be honest. It can be the cause of some of our problems, but it can also solve them. Capitalism is a force for change, and it is a force for progress.

Good Things

For the Appeal Army

The Appeal army is making good. The army is growing, and the army is moving. The army is ready to take on the battle of tomorrow.

The capital is building up, and there is a great deal of potential. The capital is moving to the new areas of the country, and the capital is going to grow. The capital is the lifeblood of the country, and it is the lifeblood of the future.

The capital is moving to the new areas of the country, and the capital is going to grow. The capital is the lifeblood of the country, and it is the lifeblood of the future.

The capital is moving to the new areas of the country, and the capital is going to grow. The capital is the lifeblood of the country, and it is the lifeblood of the future.

The capital is moving to the new areas of the country, and the capital is going to grow. The capital is the lifeblood of the country, and it is the lifeblood of the future.

The capital is moving to the new areas of the country, and the capital is going to grow. The capital is the lifeblood of the country, and it is the lifeblood of the future.

The capital is moving to the new areas of the country, and the capital is going to grow. The capital is the lifeblood of the country, and it is the lifeblood of the future.
