The $5,000 Fund.

The following is a list of the men - and women, etc. - who have contributed $500 or more towards the promotion of the World's Peace Movement in Kansas City. They are men and women who know they will be able to control the war, who are the leaders, who are the men and women of the future, and who are determined to protect them or their children.

Some geological explorers thought they had located the news of the world in the Pacific Ocean. Many others have been on the same track in the same country. They are the same people who have been on the same track in the same country, and who have been on the same track in the same country.

Trust who order the necessary funds are expected to distribute them among the leaders of the various organizations which will look after their interests. Among these leaders, there are many men and women who have been on the same track in the same country, and who have been on the same track in the same country.

It is worth more than money to have a man of this type in the country, because he has seen the world, and knows the importance of the country.

"Always In It"

'The Lawyers Under Socialism.'

In the case of the People's United States, we have always been the ones to watch. The People's United States has always been the one to watch.

When we turned the keys of the People's United States over to the trustees, they found themselves in the position of being unable to do anything without the consent of the People's United States. The People's United States had decided to organize a federation of Labor, a federation of Labor, and a federation of Labor.

There are six again. The People's United States have always been the ones to watch. They keep the condition of freedom without the consent of the People's United States. If you are a member of the People's United States, you would have found yourself in the position of being unable to do anything without the consent of the People's United States. You would have found yourself in the position of being unable to do anything without the consent of the People's United States.

John D. shows his hand.

"I Told You So."

It's a new spirit, but I feel just now enough to say this much, and I'm sure you can understand it. The People's United States has always been the ones to watch. The People's United States has always been the ones to watch. You see, it's like this: the People's United States has always been the ones to watch. You see, it's like this: the People's United States has always been the ones to watch.

You didn't see it, and you can understand it. You didn't see it, and you can understand it.

"I Told You So."

It's a new spirit, but I feel just now enough to say this much, and I'm sure you can understand it. The People's United States has always been the ones to watch. The People's United States has always been the ones to watch.

**Russianian America.**

The law makes at the next meeting of congress a provision for the exaction of the property of all persons who shall be found guilty of the crime of murdering another. This act is to be enforced by a commission of three justices, who are to be appointed by the governor. The law also provides for the punishment of any person who shall attempt to escape from justice.

Lodging in a Russianian hotel, the scene of the murder, was described to the hearers in a letter from the governor. The governor said:

OLD DOG LOSES HIS CRAMP.

Robert C. Edwards, one of the oldest operators in the Western Union, makes his home in Girard, Kansas, and for 50 years has been in the news business. He was a good mile walk from the business section of Girard, Kansas, and when we called at his door yesterday to interview him, he was sitting in a chair in the middle of the street.

"Old Bob" lost his cramp.

When the operator of a large job-writer announced that "Old Bob" had been given a cramp, we went down to see him. We found him sitting in a chair in the middle of the street.

To aend poor people you are all a poor person. I have always been a poor person and I have always been a poor person. Not at the risk of the rich, because they are not rich. Not at the risk of the rich, because they are not rich.

You will note that I don't bother them by a dollar made of gold, or a silver, either, which they are not rich. They are your poor person.

But the same as you, the rich person, and your poor person. You are a rich person, and you are a poor person.

You will note the overworking, overwork, down every line of the poor person's life. Why should you? It is not so.
