The extra edition of last week's Appeal contained the first authentic news of the latest Colorado outrage—the kidnaping and murder of John Evans, Governor of Western Colorado. Though accomplished under the thin guise of law (it was the most high-handed piece of lawlessness ever seen in Western Colorado) the crime was no more than the farce it was made to appear in the newspaper. The Appeal is the only Missouri paper that had the courage to print the facts about it.

A railroad man in the city of Boston for the past 40 years, has been found guilty of murder, and sent to the penitentiary on the charge of having killed a man in the course of his duties. The man, who was shot by the railroad man, was a laborer who had been working on the line for several years.

As the Englishman so well knows, "What is done in England is not done for." But the railroad man in the United States is not so well known. He is a man of the people, and as such he cannot be trusted with authority except under the most stringent conditions. The Appeal is the only paper that has the courage to print the facts about this crime.

A TEMPESTUOUS MOMENT.

The changes needed in labor and the captains of industry were forced to the front of the public consciousness by the efforts of the Western Federation of Miners. The leaders of the miners' movement are more than just spokesmen for the miners. They are the leaders of a movement that is gaining momentum across the nation. The miners are not just fighting for their own rights, but for the rights of all workers. The movement is gaining momentum, and it is only a matter of time before it will be unstoppable.

WHICH WAY WILL YOU CHOOSE?

The struggles of life are not just limited to the miners. They are present in every industry and in every workplace. It is up to each person to decide which path they will take. The choice is yours to make. Will you choose to work for the large corporations, or will you choose to work for the miners? The choice is yours to make.

The whole idea of conspiracy practice is to cover up the facts of capitalism that are so obvious to everybody.

"The blood-thirsty of capitalism speculates on the death of hundreds like the death of a flea.

"But now, the question is, how can we get rid of this man who is a danger to society?"

THE IMMORALITY OF THE RICH.

The time is ripe, and ripe it is for change.

It is a life of toil and drudgery, and it is a life of sorrow and pain.

In a society which gives the fruits of labor to a few, and takes the burdens of labor from all, it is a life of anxiety and fear.

And yet, in the midst of all this, there are those who have the courage to speak out and to fight for what is right.

It is the responsibility of the rich to acknowledge their moral responsibility and to use their wealth and power to make the world a better place.

The rich have a duty to use their resources to help those who are less fortunate, and to work towards a more just and equitable society.

The time is ripe, and ripe it is for change.

It is time to stand up for what is right, and to demand a world that is fair and just.

The time is ripe, and ripe it is for change.
