The Canadian Press Protests!

The people of Canada do not want to have this castronic power of exclusion which is still in force in the United States. It is altogether too Russian.

From the Evening Post, Fort Arthur, April 27th.

"The difficulties which have been met and overcome by the Appeal to Reason in the United States post office department have been legion, and almost every week a new obstacle is created in an effort to suppress it." From the Farmers' Tribune, Winnipeg, Man., May 24th.

An Arbitrary Postmaster General.

The Appeal editor, W. A. Lewis, is in absolute control of the greatest and best conducted Socialistic papers published anywhere on earth. Its influence is tremendous — its paid circulation is a million per month. Advertise with the Appeal..."
ON THE DEATH OF VERN'S BROTHER

Dear Condolences of the Fruits,...

Vern's brother, who had been a valuable member of the team, passed away recently. Vern was devastated by the news and was in poor health ever since. The entire team is deeply saddened by this loss and extends their sympathies to Vern and his family.

THEIR ONLY CRIME, LOYALTY TO THE WORKING CLASS.

"They killed my brother, and I will kill them." This is the cry that is heard throughout the land today. The working class is feeling the full force of the capitalist's wrath as they attempt to organize and fight for their rights.

In Colorado, the situation is particularly tense. The Colorado militia, under the command of Gov. McDonald, has been deployed to suppress the organizing efforts of the Working Men's Party.

The Working Men's Party is fighting for the rights of the working class, advocating for shorter hours, better wages, and an end to the exploitation of workers. The militia's actions are an attempt to maintain the status quo and prevent any gains that the working class might make.

The Working Men's Party is determined to fight for their rights and will not be intimidated by the militia. They are prepared to take on the capitalist system and create a better future for all workers.

KIDNAPPED BY GOV. MCDONALD'S COLORADO MILITIA AND GOV. GOGGIN'S IDAHO PINKERTON THUGS

The Working Men's Party's leaders, including W. O. Haywood and Geo. Pettibone, have been kidnapped by the Colorado militia and the Pinkerton agents working for Gov. Goggin.

These men were kidnapped while they were organizing workers in Idaho. They are being held prisoner and will be brought to trial for their activities.

The Working Men's Party is calling for the release of these men and for an end to the violence that is being used against them. They are determined to continue their fight for the rights of the working class.

The Canadian Press Protests

(Continued from First Page)

The press, in so-called free Canada, like the press in the U.S., is not free. The New York Times has had to face serious restrictions., and as a result, it has been forced to publish only a fraction of its usual material. This is not the case in Canada. The press there is free to criticize the government and to express itself on matters of public importance. The Canadian Press, which is the country's leading news agency, has been able to develop a strong national character without any interference from the government.

Having obtained an initial mandate from the government, the Canadian Press has been able to expand its services and to become an important source of information for the people of Canada. It has been able to maintain a high standard of editorial independence and to provide the public with a wide range of news and information.

The Canadian Press has been able to maintain its editorial independence by relying on the support of its readers and by maintaining a strong bond with the people of Canada. It has been able to develop a loyal readership and to maintain a strong sense of community.

Revolution Not Made by Arms.

The Appeal has lately revived its old assertion that revolution is not made by arms. In the past it has been usual for the Appeal to do so, and it has been highly esteemed by its friends. The Appeal has now undertaken to do the same thing, but it has not been so successful. It is a great mistake to think that revolution can be made by arms. The Appeal has been known for its revolutionary views, but it has been found that these views are not so good as those of the Appeal.
