The Opening Chapters of the New Sinclair Story Will Appear the Week the Circulation Reaches 250,000

The Opening Chapters of the New Sinclair Story Will Appear the Week the Circulation Reaches 250,000

Colorado's Call.

"Dust Bowl! Death!" is the current cry of the Rockies. Never before in our history has the Western States been in such a desperate condition. Desperate conditions, desperate people, desperate measures. The government has been thrown into the background, the president has been forgotten, the people are at their wits' end. The situation is desperate, the people are desperate, the solution lies in the hands of the government. We must act now, before it is too late.

The government must take immediate action. The President has been requested to call a special session of Congress to deal with the situation. The government must act, and act quickly. The people are hungry, they are desperate, they need relief now.

Farmers Under Socialism.

The farmers are struggling under the yoke of the landlords. The landlords have been exploiting them, taking their crops and leaving them with nothing. The farmers are in a desperate situation, and the government must do something to help them. The government must take control of the land, and distribute it among the farmers. The farmers must be allowed to work the land, and they will produce enough to feed themselves and their families.

New is the time to PREPARE. We stand ready to head off financial disaster. Force the "Pine" to nominate their favorite, vote SOLIDLY against him—and help a Bloodless Revolution.

Storm Is Brewing.

The storm is brewing in the East. The farmers are in a desperate situation, and the government must do something to help them. The government must take control of the land, and distribute it among the farmers. The farmers must be allowed to work the land, and they will produce enough to feed themselves and their families.

The government must act now, before it is too late. The people are hungry, they are desperate, they need relief now.
