Colorado Mine Owners Desperate

THIS issue is dated November 10th, although it goes to press three days before the election, hence it gives no definite information regarding the outcome. But I have an inkling that strenuous times are before us. In order to be ready at all hazards to meet the situation and make the most of it, we may give wide scope to this issue to the mine owners and how they are playing the game and what our comrades are up against:

POSTMILLS HOLD UP APPEAL

Berthoud, Colo., Oct. 4th, 1906

Appeal to Reason—The biggest prize in the state of Colorado is now to be played for. The mine owners of the state are fitful as a group, and are doing their best to make the outcome of the election a complete failure. They have not yet been able to break the strike, and the workers are determined to carry through to a successful conclusion. The miners have been working for three years and are not going to be defeated by the mine owners. They are determined to carry through to a successful conclusion. The miners have been working for three years and are not going to be defeated by the mine owners. They are determined to carry through to a successful conclusion.

CONFLICTED THE APPEALS

Dear Sirs,—Last night I received a bundle of newspapers from you. I am sorry to learn that the papers were not delivered on the day of the strike. I hope you will let us know when the papers will be delivered. I enclose a check for $5.00 for the papers. I am looking forward to receiving the papers from you.

W. C. James, Miners' Rights League.

This is an appeal to the workers of the state of Colorado to stand firm and continue the strike. The mine owners are trying to break the strike by offering wages of $2.00 per day. This is inadequate and the miners are determined to carry through to a successful conclusion.

You have read in these columns during the past few weeks other outrages similar to the above. In all these cases, the workers have shown that they are not afraid to fight. They have been working for three years and are not going to be defeated by the mine owners. They are determined to carry through to a successful conclusion.

What's the use of it? Go to the courts? There isn't a court in Colorado that would give these men justice. Past experience proves that, and I do not propose to waste any more time on such matters. The law is open and I will reserve the right to appeal back to the court of law.

R. B. A., Mine Owner.

The American working class has nothing to fight except its own people. The workers of the state of Colorado are determined to carry through to a successful conclusion.

Agitation League Report.

Dear Governor: Enrolled 1 had you the opportunity to enquire into the situation of teachers in Kansas? I think you would be interested to know what the teachers have been doing for the last few years. I plan to distribute copies of the Appeal and to request that you send a copy to the teachers in your district. I am aware that some of the teachers have been unfairly treated, and I believe that they should be given the recognition they deserve.
