WE MUST FIGHT!

By Eugene V. Debs.

The Supreme court and the president of the United States have left us no other alternative. We have to make a stand. Our movement has been too rapidly and too deeply rooted in the American people to be easily destroyed. We must resist and we must resist effectively.

No more is great enough or rich enough to get the paper out. The same capitalists who own the newspapers are behind the government in their attempt to crush the movement. They fear that the strike may spread to other parts of the country.

Therefore, we must fight. We must fight with all our strength. We must fight with all our resources. We must fight with all our courage.

The strike is not only a battle for the hundreds of thousands of workers who are fighting for a better life, but it is a battle for all the workers of the world. It is a battle for freedom, for justice, for democracy.

We must fight. We must win. The battle is ours. The victory is ours.

Sincerely,

Eugene V. Debs

The Nemesis of Murderous Gangs

McFarland, Who Exposed the Pennsylavania Robe Ring

His Work in the West-Thirty Years Later

Popular Win Which Wink He Has Faced the Dangerous Criminals in His Task

A PROSECUTOR-ATTORNEY'S TRIBUTE TO THE DETECTIVE

This is the story of a vindication made, not through the efforts of the law enforcement agencies of Kansas, but through the efforts of a private detective. Mr. John McFarland, a former police officer, has spent the past thirty years investigating and exposing criminal activities throughout the United States, particularly in the western states. His work has been instrumental in bringing to justice numerous notorious criminals.

How the System Works

Mr. McFarland has observed that the criminal justice system often fails to effectively address the root causes of crime. He believes that law enforcement agencies need to focus more on prevention strategies and community engagement.
