DON'T BE ALARMED!

The press dispatches from Washington reporting that the Appeal will discontinue its publication have set up a furor, the mails has been filled with long, angry letters, and there is a real deal of comment.

Don't Be Alarmed!

It is true that President Roosevelt arbitrarily threw a paper in New Jersey out of the mails, and in so doing violated the federal law which provides for a hearing in all cases, and that President Roosevelt will not put his seal on the Appeal as he did on the paper in New Jersey.

We are thoroughly advised to what is going on in Washington as it is thoroughly prepared to assert and maintain our rights. The Appeal has not been & never will be the one to be afraid of anything. President Roosevelt will not put his seal on the Appeal without a fight. Our Attorney General is a lawyer who has earned the respect of the country, and we will defend the Appeal in the courts.

Now is the time to mobilize the Appeal. The Appeal is only a paper, but it can be the voice of the people. The Appeal is not afraid of anything, and we will continue to publish.

The Appeal is dedicated to the cause of freedom, and it will continue to publish.

DO YOUR VERY WORST!

Solutions to the great problem of the Appeal are not going to be easy. There are those who are against the Appeal, and they will do their best to silence it. But we will not be silenced.

The Appeal is not afraid of anything, and it will continue to publish. It will continue to fight for the cause of freedom, and it will continue to print the truth. We will not be silenced.

The Appeal is dedicated to the cause of freedom, and it will continue to publish.

A WORD OF CAUTION

A trusted friend who is in a position to know has promised to speak to us about the Appeal. He is not likely to be in a position to do so, but he will try to help us. We are grateful to him.

One way to help us is to write to the Appeal, and to tell us what you think of the Appeal. We will read your letters, and we will take your advice.

**To our readers:**

Mr. Editor:

I was greatly interested in the recent issue of your paper, and I thought I would write you a few lines in response to your article, "The Way of Taft-Roosevelt Reform." While I agree with the general principles you outline, I believe there are some points that need further clarification.

Firstly, I believe that the government should be more transparent in its dealings with the public. The public has a right to know what is happening in their government, and this can only be achieved through open communication. The recent scandal involving the misuse of government funds is just one example of how the transparency of government is lacking.

Secondly, I believe that the current system of political parties is flawed. The two-party system has failed to provide a true representation of the people's needs and desires. It is time for a new political party to rise and offer a genuine alternative to the current political climate.

Finally, I believe that the government should be held accountable for its actions. The recent controversies involving the government's actions in foreign policy are just one example of how the government has failed to act in the best interest of the people. The public has a right to expect more from their government, and this can only be achieved through accountability.

Yours sincerely,

[Your Name]
