"Rich Malefactor" Assassinated

Soon after President Roosevelt made his speech denouncing "rich malefactors" as the "most deadly enemies of the republic" a capitalist whose home was in South Carolina and who had been raised in his stock operations in West street entered the office of J. H. Ophidian, a prominent New York stockbroker, and told him he had been assassinated. It is probable that this bankrupt capitalist was influenced by Pres. Roosevelt's speech to look upon the author of the act as a deadly enemy of the sys-

"Socialism and Bomb-Throwing"

The Denver Tribune of April 19th, in an article headlined "Socialism and Bomb-Throwing," said: "The government's attitude toward socialism is one of utter frankness. Socialism is not only a political philosophy, but a practice. It is not only a political philosophy, but a practice. It is not only a political philosophy, but a practice. It is not only a political philosophy, but a practice. It is not only a political philosophy, but a practice.

10 The social crisis of the capitalistic system is leading to the world crisis of the capitalistic system. The social crisis is leading to the world crisis of the capitalistic system.
Wall Street and Taft

The New York Stock Exchange gave an interesting display of the falling prices of April 1 by its quietest day since March. The Metropolitan Opera House was also given an unexpectedly good concert by the New York Symphony Orchestra.

The Socialist Party.

The Socialist party isorganization is rapidly growing. The membership is now at its highest point since the party was formed. The party's program is based on the principles of socialism and democracy. The party is working hard to elect candidates who are dedicated to the goals of socialism and democracy. The party's goal is to establish a society where everyone has access to equal opportunities and resources. The party is also working to promote peace and social justice.

Organ of "Anarchy."

When the "Anarchy" and their policy of "Anarchy" began to take root, they were met with opposition. They were told they were too radical and their ideas were too extreme. But the "Anarchy" persisted and continued to work towards their goals. They were eventually able to establish a society where everyone had equal access to resources and opportunities. The "Anarchy" remains committed to their goals and continue to work towards a society where everyone has equal access to resources and opportunities.

Save The Daily Socialist!

We are the Daily Socialist and we need your support. We have been providing socialist news and analysis for over 100 years. We are committed to providing accurate and balanced coverage of all issues and topics. We need your support to continue providing this important service. Please consider making a donation today.

Fallen!

Here is the list of those who have fallen. We would like to take this opportunity to honor them. They were all dedicated to their causes and made the ultimate sacrifice for their beliefs. We will never forget them.

Some Options.

There are many options available to you. You can choose to support the Daily Socialist, or you can choose to support other organizations. The choice is yours. We encourage you to make an informed decision and choose the organization that aligns with your values.

Constitution Special.

An announcement has already been made that the Constitution will be held in Washington on June 1st. It is expected that President Roosevelt will be in attendance. It is also expected that there will be a large gathering of supporters.

This is an important issue for everyone. It is important that we all take the time to understand the Constitution and its implications. We must all be active in supporting the Constitution and its ideals.

The Latest Orders.

This is the order issued under the authority of the new company in all of the operations. It is important to understand the implications of this order. It is important that we all take the time to understand the implications of this order.

Mr. Bryan Declines.

While an invitation was extended, the retired president declined to attend the Jolliff celebration. He stated that he would not speak in public at this time. The President, however, did not rule out the possibility of a speech in the near future.

Roosevelt-Platt-Olcott Compact

On February 26, 1906, Theodore Roosevelt, William Howard Taft, and Richard Olcott signed the Roosevelt-Platt-Olcott Compact. This agreement was designed to promote peace and security in the region. It is an important agreement and we encourage you to read more about it.
Extra! SPECIAL! SPECIAL!

This advertisement is published as the direct result of so many inquiries received recently when the Texas land offer appeared in the Appeal. The advertisement explains fully the remarkable Savings Bank plan for land ownership (as offered by Immigration Agent Nolan). Now, while the Appeal has nothing whatever to do with this or any other land proposition, the advertisement speaks for itself. Mr. Howe, the Appeal Adv. Mgr., investigated with his own eyes and personally voices for the absolute truth, straightforwardness and genuineness of the offer. Everybody must be able to buy himself. Read this proposition carefully—consider how it involves your future and the future of your family; then decide.

Personal To Appeal Readers.

By R. E. Howe, Advertising Manager of the Appeal to Reason.

Nearly every person whoOperators: Here is an important unusual offer.

Save your money, put your savings where they count: in a

better, safer and saner bank than bank deposits or life insurance policies.

Richer, more profitable and perhaps more successful business than any other offer ever published.

Send carefully this four page advertisement.

INDEPENDENCE

NOW! NOW!

YES, independence now—not "some" day—not in the distant future—but right NOW.

You can secure independence today—financial and personal independence—for yourself, your children and your children's children.

How?

Clinch Your Share of America's Virgin Soil!

As long as the "unearned increment" of wealth does remain in private hands, get your share of this huge profit.

And you can now clinch that share—you can become a land owner—YOU CAN get your share of America's great gain—Without capital,—yes, without homesteading the land—YOU CAN very advantageously purchase it!!

ALL THIS by means of the opportunities announced in this supplement of the Appeal.

How?—In brief: The proposition is simple: if you are 21 years of age and have no legal disabilities, you may secure a tract of 160 acres, any part of which is not occupied by a homestead, in Texas, the Rock Island Railway, or the Texas Panhandle, for the sum of $250...

Land Value Now Rising

A number of organizations have sprung up in Texas and the surrounding states, which have been formed for the purpose of securing land at low prices, and have been able to do so by taking advantage of the fact that the land is not yet fully surveyed and that the federal government is prepared to sell it.

The Texas Panhandle is being extensively advertised, and the Rock Island Railway is being extensively advertised.

The Rock Island Railway

WANTS THESE LANDS SETTLED

The Rock Island Ry. pries the Texas Panhandle. It is handling all its resources to develop this beautiful and fertile territory. The quicker the movement the more profitable the investment. In the past the Rock Island has always been successful in its efforts to secure land.

A Network of Railways is growing to the Texas Panhandle. Surveys are under way. Do you know what the Rock Island Railway is doing here? They are making land purchases in Texas and the Rock Island is going to build a branch line through the Panhandle.

This day is coming in the Texas Panhandle—coming to you very quickly, just as sure as the sun rises in the east. That network of railways will make land prices soar.

See next page for details of the most stupendous offer ever made to Appeal readers.
Choice Virgin Land at the Ground Floor Price

And you need not homestead this land to secure a clear title. You need not live on it a single day, nor even see it to gain full ownership—no formalities whatever—your $8.00 a month protects you, makes you a LAND OWNER.

You are not asked for any advance payment whatever—no money down—just $8.00 per month on the saving's bank plan—positively absolutely GUARANTEED to be the ground floor price—no interest, no taxes, no brokerage.

Look at this map—do you notice something about the United States that has not struck you before?

Here is the point—the Texas Panhandle, seemingly in the far, far southwest is in reality almost midway between ocean and ocean. Omaha is exactly midway, and the Texas Panhandle is almost directly south of Omaha. Think of St. Louis, Memphis, Kansas City. The Texas Panhandle is almost a direct gateway to the west, south and southwest.

The question has been asked—if this territory has such marked natural advantages, why has it not been developed long ago? We can answer that question; we do not know—presumably nobody knows. It is simply one of those accidents, those whims of human liquor.

Just as the development, the railroad activity, the influx of settlers, the rise of real estate values, did not begin in Nebraska until after California boom days, so the day of the Texas Panhandle was belated.

But the day of Texas is here now. The development of Texas is going on today with giant strides. And we are making history nowadays faster, much faster, than fifty years, yes faster than ten years ago.
City of Stratford, Texas, in the Land of Independence and Prosperity.

Market Facilities Beat Chicago

Better Markets Than Chicago

What Sherman County Farmers Say

Here is the Contract

with the most liberal terms, you will agree, that have ever been made on any land contract.

Just Notice:—

You are protected against INTEREST—at 6% that figures $3.00 off the price per acre.

You are protected against TAXES—as the taxes are a small item we have assumed them in order to arrive at a lower amount.

You are protected against BROKERAGE, commissions and all other outside charges.

You are protected against LAPSES. Notice how you time in payment is extended—and the fact is: the even more is done than we try in the contract.

The idea was, and always will be, that you shall be a satisfied land owner.

You are protected against INCREASE in DRAST. Your best protection. They may even get their money back with interest, and if so as we know, such a provision has never before been put into land contract.

Notice Also:—

How this contract provides that even if after you have started paying for your land you get all your money back with interest according to the contract if you should not be entirely satisfied—you, we, will be the judge.

Important—Don't fail to see next page of this supplement for questions and answers.
Questions and Answers: Read

WHAT is the offer of the American Farm Lands Association?

The American Farm Lands Association is now offering 100 acres of land for just $8.00. The offer is open to all persons, and it is not limited to members of the Association. The land is located on the Rock Island Railroad, and it is really a good deal. The offer is being made to encourage people to settle on the land and to help the railroad get new subscribers.

WHERE is the land located?

The land is located on the Rock Island Railroad, in the state of Illinois. It is not far from the city of Rock Island, and it is easily accessible by train.

DOES the settler get to choose the land or does it go through any other agency?

The land is offered through the Association, and the settler does not have to go through any other agency. The Association will send the settler a list of land available, and the settler can choose the land that suits them best.

WILL you pay my expenses to Texas?

The Association will not pay your expenses to Texas. You will have to pay your own expenses to get to the land.

DO I have to go to the land, see it or live on it to gain a clear title?

No, you need not go to the land, see it, or live on it to gain a clear title. The title will be transferred to you as soon as you pay the $8.00.

DOES the settler who goes down there have any advantage over me?

Yes, you need not go to the land, see it, or live on it to gain a clear title. The title will be transferred to you as soon as you pay the $8.00.

WILL you sell me 58.00 land?

Yes, we will sell you 58.00 land, and at the market price, you can buy more land for less. The price will be $58.00 per acre, and you can buy as much land as you want.

ARE the prospects of 200.00 land really the basis of any land deal?

No, the price is fixed at $200.00 per acre, and you can buy as much land as you want. The price will not change, and you can buy as much land as you want.

CAN I buy whichever price land I want?

Yes, you can buy whichever price land you want, but you must pay $200.00 per acre, and you can buy as much land as you want.

HOW do I know the land is the choicest without investigating further?

Because the land is offered by the American Farm Lands Association, you can be sure that it is the choicest. The Association is well known for its work in offering land to settlers, and you can trust that the land is of high quality.

NOW-CAN YOU ANSWER THESE QUESTIONS?

How much would a train load of cotton be worth if that were all there was in the world—and no more could ever be obtained?

We tell you frankly, nobody can answer this question. The value of that cotton would be fantastic—more than a train load of gold, or silver, or diamonds. Because cotton is a necessity, and what we do without it, we can't live. So, nobody can answer this question.

How much would a herd of 100 horses be worth if there were no more?

This is another question you cannot answer. No one knows. The figure would probably go beyond our imagination. All we know is that every horse of that herd would be a luncheon—probably the finest luncheon you ever saw.

What would water be worth if it were announced today that in five years there would be no more water? No more water to be had for you and me.

Here is a question which cannot be held. But the drinking time. To have a drink, you must have water. Without water, there is no life. It is the basic element of life, and it is the most precious thing we have. What would water be worth if there were no more? It is the basic element of life, and it is the most precious thing we have.

What would water be worth if it were announced today that in five years there would be no more water? No more water to be had for you and me.

Here is a question which cannot be held. But the drinking time. To have a drink, you must have water. Without water, there is no life. It is the basic element of life, and it is the most precious thing we have. What would water be worth if there were no more? It is the basic element of life, and it is the most precious thing we have.

And yet today water is FREE—from the air. Every bottle—every lake—every river can find water to drink. But if the water supply were to be cut off five years–
