CAND IDENTIFICATION

Three Entries in the Presidential Race. Colors: Red, White and Blue.

J. A. WITTS,

Chairman of the Board of Directors

Girard, Kansas, U. S. A., July 18, 1908.

Dear Sir,

I am writing to you to express my opinion on the current political situation. I believe that the upcoming presidential election is one of the most critical in recent history, and I am concerned about the direction our country is heading.

Firstly, I would like to address the issue of the current economic conditions. The high unemployment rates and the struggling farmers are causing a great deal of unrest among the population. I believe that the government must take immediate action to address these problems and ensure the stability of our economy.

Secondly, I am concerned about the issue of immigration. The influx of foreign workers is putting a strain on our job market and cultural fabric. I believe that a balanced immigration policy is necessary to ensure the well-being of our nation.

Lastly, I would like to discuss the issue of national security. With the ongoing global threats, it is crucial that we strengthen our defense capabilities and ensure the safety of our citizens.

I am confident that with your leadership, we can overcome these challenges and create a brighter future for our country. Thank you for considering my perspective.

Sincerely,

[Your Name]
**QUESTION BOX**

**Why Abolish the Senate?**

New York, July 2, 1906

I do not believe that the Senate is an important body. It seems to me that the two houses of Congress should be of equal importance. The Senate should be abolished and replaced by a unicameral legislature.

**What is the End of Money?**

Washington, July 4, 1906

Money is the means by which we measure and exchange goods. It is the medium of exchange that facilitates the distribution of resources. It is a tool for economic activity and it serves as a store of value.

**What Kind of Government?**

Boston, July 5, 1906

I believe in a democratic government. I think that the people should have a say in the running of their country. We need a government that is responsive to the needs of the people.

**The Crisis.**

Chicago, July 6, 1906

The crisis is the lack of economic opportunity for the working class. We need a government that will address the needs of the working class and provide them with economic opportunity.
