Appeal to Reason.

This is the time, the day when we go to the polls. Fifty years ago votes were wanted. No one had a vote. Now we have a vote, and the whole country is stirring. It is the time to vote, to vote for what is right, to vote for what is just.

There will be an issue and an election. In our work and in our homes, we have a right to make our choice. We can vote for the man who will best serve us, who will do the work we want done. We can vote for the man who will stand by us, who will fight for our rights.

The issue is clear. It is a question of who will rule us. The candidates are well known. They have been examined and judged. They have been tried in the court of public opinion. They have been found guilty or not guilty. It is up to us to decide who shall rule us.

The time is ripe for a change. The old order has long been in power. It has been a time of oppression and misery. It has been a time of suffering and anxiety. It is time for a new order, a time for a new outlook.

LUCIDITY ON THE SOCIAL WORLDS.

FIRST LESSONS IN SOCIALISM.

LESSON X.

"See You the May Earth Own Use"

Here is the World. The World is round like a big ball. It is big. Yes, it is big. Do you want to see the world? Who owns the Earth? It is good for the rich to own the earth. It is very bad for the poor to own the earth. If the rich own the earth, the poor can't live on the earth. Is this fair? Why not? Should the rich own the earth? We won't own the earth. The earth was made for all. We can not live on the earth. We can only use the earth. The earth was made for all, and for the few. By the earth we mean the earth. We mean the earth, the stars, the sun, the moon, the planets, the stars, the sun, the moon, and the planets. The earth is a world where we must work so that we may live. If we own these things the money will be poor.

The World is for All Men, We Will Have No Slave Here.
