WILL YOU BE ONE?

To Our Enemies and Friends:

The Appeal is engaged in a struggle of vital interest to the American people. Unfortunately the interest is one that is not appreciated by the public, or, if it is, the appreciation rests largely on misunderstanding.

The Appeal is an instrument of defense. It is a powerful tool for those who would resist and overcome the force of opposition. It is the only means of preventing the further encroachment of the enemy on our territory. The Appeal is the voice of the people, backed by the strength of the nation.

The Appeal is not a weapon of war. It is a force to be used only in defense of our country. The Appeal is not a crusade against the enemy. It is a call to arms for all who desire to defend their country and their homes.

The Appeal is not a tool of the enemy. It is a weapon of the people. It is the means by which the people can express their will and direct the course of events. The Appeal is the voice of the people, backed by the strength of the nation.

The Appeal is the weapon of freedom. It is the means by which the people can express their will and direct the course of events. The Appeal is the voice of the people, backed by the strength of the nation.

The Appeal is the weapon of the people. It is the means by which the people can express their will and direct the course of events. The Appeal is the voice of the people, backed by the strength of the nation.

Beliefs in Private Monopoly

No office was set at in the morning. The administration does not regard this as any indication of the vitality of our system. It does not object to the practice of placing any man in charge of all the political party, as long as he is willing to accept the responsibility. We do not intend to have anything to do with the Democratic party unless it is willing to accept the responsibility of its position. We are willing to fight for the rights of the people, and we are willing to give up the right to make laws for the people, but we are not willing to have the people legislate for themselves.

A New Departure.

The People's Party is planning to have a national convention in the spring of next year to discuss the question of the nomination of a candidate for President. The party is determined to have a candidate who will stand for the principles of the party, and who will be a champion of the people. The party is also determined to have a candidate who will be able to carry the states in which the party has a majority. The party is determined to have a candidate who will be able to carry the states in which the party has a majority.

Crime and Employment.

The problem of crime and employment is one of the greatest problems facing the country. The problem of crime is one of the greatest problems facing the country. The problem of employment is one of the greatest problems facing the country. There are many people who are out of work, and there are many people who are working, but they are not working for wages that will support them. The problem of crime is a problem that must be solved, and the problem of employment is a problem that must be solved.

Lincoln's Centennial.

The year 1865 was a landmark in the history of the country. It was the year in which the Civil War ended, and the year in which the Thirteenth Amendment to the Constitution was ratified. It is a year that is remembered by all Americans as a year of great significance.

You Are Up-To-Date.

Are you up-to-date? What time have you? How many of your readers will have time to read this page? Have you a watch? If you have a watch, do you know the time? If you do not know the time, do you know how to tell the time? If you do not know how to tell the time, do you know how to use a clock? If you do not know how to use a clock, do you know how to use a stopwatch? If you do not know how to use a stopwatch, do you know how to use a timer? If you do not know how to use a timer, do you know how to use a chronometer? If you do not know how to use a chronometer, do you know how to use a stopwatch?

17 CENTS A DAY WILL BUY A FARM IN FLORIDA
THAT WILL YIELD $5,000 A YEAR

FLORIDA—the Land of Sunshine and Flowers. Florida—where celery yields $1,000 an acre; oranges $400; potatoes and all kinds of vegetables can be grown in Florida, where every fruit and vegetable will grow, thrive, and flourish every year. Florida—only 35 hours from Chicago and 28 hours from New York. Florida—the land of perpetual youth. Florida—the land of opportunity for the poor man.

Look At These Maps

Best Soil on Earth

The soil at St. John's Park is a black, rich, sandy loam, underlaid with a clay sub-soil. This rich soil, together with abundant natural rainfall and plenty of sunshine, produces a great, rich, fruit. In Florida, where the climate is always warm, crops can be grown all the year round. In Florida, where the climate is always warm, crops can be grown all the year round.

No Irrigation

The natural rainfall at St. John's Park is about 45 inches a year, and it is well-distributed over every month. This abundant rain, on the other hand, is not sufficient to meet the needs of the crops, except in years of exceptional drought. In Florida, where the climate is always warm, crops can be grown all the year round.

Profitable Crops

10 to 20 acres of this rich land will yield more, with less labor, than 100 acres in Illinois, Iowa, or any other part of the Northern States. We get three or more crops every year, and they always bring the highest prices. This is a land where you can grow the finest tobacco, cotton, and vegetables, all of which command the highest prices in the market at the time to bring the highest market prices.

OUR PLAN

We have at St. John's Park one of the best farms in the world. Rich soil, abundant rainfall, fine climate, and a good water, good schools and churches, and access to the sea, make this a paradise on earth. In Florida, where the climate is always warm, crops can be grown all the year round.

The Appeal to Reason's Advertising Manager, E. C. Howe says:

"We are going to Florida and personally inspect the land and the farming conditions. We have already inspected the farms and we know that the soil is rich, the climate is warm, and the farming opportunities are excellent. We shall be glad to answer any questions from Appeal's subscribers."

E. C. HOWE,
Advertising Manager of Appeal to Reason.

It Is Not Necessary To See This Land

Before you buy. If you do, you may be too late. Only 300 farms will be sold at the cost of $200 to $400 each. To those who have never seen this land, it is impossible to describe the farming opportunities. In Florida, where the climate is always warm, crops can be grown all the year round.

Our Iron-Clad Guaranty

If you do not succeed, we will refund your money. If you do not succeed, we will refund your money. If you do not succeed, we will refund your money.

FREE BOOK

If you wish to know more about this land, we will send you our free book, "Fortunes in Florida." This book contains valuable information about the farming opportunities and the climate of Florida. It is impossible to describe the farming opportunities in Florida, where the climate is always warm, crops can be grown all the year round.
