The Handy "Fraud Order"

EDWIN C. MADDEN, THIRD ASSISTANT POSTMASTER GENERAL, SAYS:
"These days, it's not too far to expect, a good man will come out of the mail. He will write into the boxes, and that is not a privilege to be taken away from the care of any officer. He will make it his business to see that the boxes are handled with care and respect, and that the mail is distributed as efficiently as possible."

CAPITALISM is the grader of the mail, looking for lost goods.

If the employer was an employee of the government, Socialism will free the man who is without a job.

If the employer was an employee of a large corporation, Socialism will free the man who is without a job.

If the employer was an employee of a large corporation, Capitalism will free the man who is without a job.

If the employer was an employee of a large corporation, Capitalism will free the man who is without a job.

The Cash Buyers Union
At the time the Big Department stores and their subsidiaries start selling their goods, Socialism will free the man who is without a job.

The Socialists will free the man who is without a job, and the unions will get the job.
The daily press reports that King Edward of England has just returned to Wall street on tips furnished by his government. He is expected to arrive at the public house where he will take his seat on the throne of the United States—and he gets it.

The English government has been very careful in their selection of the right man for the right job. In their choice they have done no worse than the American people. If they had done so American taxpayers would have thrown down the change in the form of a sugar tax on the next day.

King Edward's first call is to see the Treasury. There he will ask for the money that will enable him to make the necessary visits to the several states. And just as if he were an American president, he will find that the American taxpayers are willing to pay for the necessary expense.

SOCIALISM IN THE NAVY.

The R. F. D. News, a publication devoted to substantial affairs, reports that the president of the United States is now in the process of trying to invite prejudice from the draft by the establishment of a standard of patriotism and enlisted men. The navy department will call on all rounders and point out the benefits to be derived from the service.

The Appeal is responsible for all practical measures. It is the only means of getting results.

Now where do our readers appear to see that this is not the case? There is no more truth in the notion that the soldier is an instrument of the enemy. The soldiers are being paid more than ever before.

Our readers appear to see that this is not the case. They are being paid more than ever before.
