EUGENE V. DEBS CHARLES LINCOLN PHIFER

Biggest Thing Yet

FOR the year 1908 the total advertising receipts of the Appeal were \$25,081.11.

The Appeal, in eliminating all advertising of a commercial work the people. The politician character, as recently announced, thus deliberately cuts down its revenue to the extent indicated by the above figures.

This means a monthly loss of more than \$2,000.

No periodical in the world with so large a circulation and so low a subscription rate as the Appeal could maintain its existence without

advertising revenue.

The Appeal is going to accomplish that thing. The preliminary

steps to this end have already been taken.

This new departure is made after the most mature deliberation

and the reasons which impel us are substantially as follows: First-From the Socialist viewpoint there is good objection to

even the best of commercial advertising for the reason that the production of the wares advertised is based upon the exploitation of those who produce them, and hence it follows that the whole scheme of is on. See the point? defensible from the viewpoint of social justice.

Second—The elimination of capitalist advertising will forever put profits, the ones who are receiving an end to the charge of "graft" which our plutocratic contemporaries the biggest profits must grow bigmake with such gusto against the Appeal and its supporters. No ger and bigger. They become a ship of the means of life. With Appeal worker has escaped a blow from this particular plutocratic menace to you whether you are a public ownership people would of life.

Third-The appearance of the Appeal will be indefinitely brightened and improved by purging its columns of capitalistic advertising and the Appeal will have the moral satisfaction of knowing that no one who is victimized by such advertising can lay the charge at its door.

Fourth—The change thus effected will be wholesome and vital-flunkey, came as near discovering to what they had produced they will get the izing and add to the moral power of the Appeal and make it more the North Pole as he did in having Tens of thousand of suicides went efficient in the propaganda of the movement. Other reasons might be enumerated, but these are sufficient to hung. Walter does wonders-with others voted to have private own-

we are counting confidently on the fidelity of the Army of Appeal workers at this time. Without this we should not have ventured gressmen are not molested. Of to make the change, for it would have been folly, if not madness, and course, all are equal before the law bound to end in disaster.

The Appeal, as you are aware, is beset upon every hand by its implacable enemies who are pursuing it with a vindictive determination to thwart its plans and ultimately to drive it into bankruptcy

But the very enmity of these despoilers of the people inspires the loyalty of the Appeal's supporters and it is a source of inexpressable satisfaction to be able to state that a point has been reached where the little old Appeal can bid farewell to its capitalist advertisers without fear of being handed over to the sheriff.

So long as this paper was dependent upon advertising revenue it was in danger. A successful boycott upon the part of the advertisers at certain critical times would have effectually ruined the paper and enforced its suspension.

Released from such embarrassing dependence the Appeal starts forth upon a new career, rich with promise. It will be financially as clean as any paper can be in capitalism, and typographically and otherwise it will correspond to the soundness of the principles of by a person not working in it any kind of business, and hence man brotherhood, which stands for the red light and

No race would be better off if they were all educated as university men.
The great body of people must depend for their livelihood upon their manual labor, skilled or unskilled or upon some occupation which re-quires less education than that which quires less education than that which is conferred by a university. If it is too widely extended the effect of it is to put a lot of men into life who do not find occupations which are suited to their tastes, and to make them unhappy and really not fit for the life which is before them.

Gives Credit to Socialists.

The Socialist parties in Europe have become so strong they are making the raling powers tremble, and have been largely instrumental in hringing about improvements in working conditions that can afford the United States many instructive lessons. This is the report brought back to America by-Professor Charles' R. Henderson of the University of Chicago, who, on behalf of the Illinois commission on occupational diseases, has been studying conditions in Spain, France and Germany.

Confiscation by Capitalists.

Ameriated Press.

Pittsburg, Pa, Aug. 23—In a desperate effort to disarm the striking workmen of the Pressed Steel Car company at McKees Rocks, and thus render them practically helpless before the onslaughts of the hired thugs of the company and the state constabulary after last night's battle, a house to house canvass is in progress today. All weapons are being confiscated by the troopers.

Salvation that does not propose to save the world from robbery and pow-erty is inadequate and atheistic. The Socialist has greater faith than that.

The rich did not get that way by saving. If saving would make a man rich then the poor would be rich and the rich poor.

"Triumphant plutocracy" at McKees Rocks means pennace, eviction and star-vation for the workers. Life is not worth living under capi-tallsm. It will be worth while when Socialism comes.

Jokers in legislation and the pros-perity joke are no laughing matters.

THE SPEECH IN PLATE FORM.

Scores of newspapers are using the plates of Warren's address to the federal court, and others will do likewise if you will encourage your local editor to do so. These plates may be secured from the American Press Association, 45 Park. Place, New York, express prepaid for \$1.25 to any part in the United States. Comrades should urge their local editors to print Warren's address. If your local editor does not feel that he can bear this expense, take up a collection among the comrades and mase him a present of this service. You can not do better propaganda work. Evidently the astute Mexican statesman is trying to create an impression in the republic that the powerful government of the United States will interfere in Mexico in the interest of peace, as it did in Cuba anmore recently in the Central American countries. If Senor Limantour is able to convince the people of Mexico that President Taft is supporting the Diaz administration it is believed that the uprising can be prevented and dangers of civil war in the southern republic will have passed.

Another Confirmation

The advertising of the for ranch wild west show contains this account of the formation of the rurales, the military police of Mexico, which fully confirms what the Appeal said on the subject: what the Appeal said on the subject:
The guardian rurales are one of the most effective military organisations in the world, noted for their splendid horsemanship and reckless daring. Of their installation as government peace guardians, it is related that President Diaz summoned before him, on promise of immunity from arrest, the chiefs of brigandare and notorious leaders of pillaging bands and ascertained from them the amount of money their crimes yielded. The startied outlaws compiled an estimate. President Diaz frowningly scanned the figures and thought deeply. The novel conference ended by him buntly offering the men a sum equal to the amount of their illicit proceeds, as a estilled income, if they would constitute themselves the heads of an honest body of guards to protect the rural districts.

Now, consider what this means relative to Amoskeag. One share was worth originally \$100. eight years the stock has paid \$126 in dividends; in addition there is an undivided surplus credited to each share that amounts to \$64.38, making the total earnings of the \$100 stock in eight years \$180.38. In addition, the \$100 share is now gusted on the market at \$240. The same values apply to the two other stocks quoted above, and also to the twelve stocks quoted by the circular in an effort to show the great profits that come from investments in the textile industry. WHO MAKE THE LAWS?

If the farmers could make the laws affecting farm interests, as the bankers make the laws affecting the money interests, the farmers might stand some show. But wouldn't the laws conflict, though The five thousand banks dictate the money laws, but the thirty millon farm population have no direction of the laws affecting their business. , Funny how a few can do what the many cannot accomplish, isn't it? The hankers know what benefit it is to control the politics of the nation and the farmers do not. And there you are. The palaces of the bankers and the long hours and frame shanties of the farmers tell the story. The American voters are an easy lot for the capitalists to skin and deceive.

Is a company of you owned a large building that required an elevator for its tenants, would you permit someone else to own the elevator? What would the buildirg be worth to you if another could control its access to apper doors? Now, while none of you would be so silly as to do such a thing, you are silly enough to permit others to own your street car system, which is the same to a city as an elevator is to a large building. The people of the town should own the street car system just as the people who own a building should own its elevator. Only their ignorance of economics permits the private ownership of what all use collectively.

MAKE THE WORLD A HOME

:: :: BY GEORGE D. HERRON : !! ::

Oh, come, ye toilers of the earth,
Ye, who for masters sow and reap,
Who make and die, but have no goods,
Whose fruits are but the tears ye weep.

Come, ye who build but homeless are,
Who are as cattle bought and sold,
Whose souls and bodies are but grist,
Your children too, but ground to gold.

Come, ye creators of the world,
To whom the world has aye belonged,
Yet aye are yoked by what ye work,
By your creation robbed and wronged.

Your masters make to keep you bound, And ye who went out after priests, Yet neither faith nor virtue found. Oh, piteous processions, come, And let us end the human night,

Come, victims of the lawless laws,

The priets and masters, yokes and lies, And build for love the world of light. Oh, come, ye outcast of the earth, Yoke-bearers of the human night,

And let us make the world a home, A fellowship of love and light.
