Wrote the Panama canal is destined to be completed and we will be flooded with
work for both nations, and for what will become of us, the question that
should occupy the attention of the people who will suffer the worst of the
products. But because the Panama canal is a project of great importance,
and the Panama canal should be completed in the shortest possible time
and without any sacrifice of life or property, we are not opposed to the
project. But we are opposed to the Panama canal being completed in the shortest
possible time at any sacrifice of life or property.

The Panama canal is an important project, and we are opposed to it being
completed in the shortest possible time at any sacrifice of life or property.

ROBERTS UNSUCCESSFUL.

The proposition of the publishers of the Panama canal is that the
Panama canal should be completed in the shortest possible time without any
sacrifice of life or property. The Panama canal should be completed in the shortest
possible time and without any sacrifice of life or property.

We have heard, or we have not. We have heard that the Panama canal should
be completed in the shortest possible time and without any sacrifice of life or
property. We have heard, or we have not. We have heard that the Panama canal
should be completed in the shortest possible time and without any sacrifice of life or
property.

HOW THE BANK PAYS.

At the spring convention held in Clif
and country I talked to the farmers who had been displaced, and I was told
that they were willing to accept the conditions of the Panama canal.

They were willing to accept the conditions of the Panama canal.

LEND A HAND.

Well, that's not quite as good a showing as I'd like to see but the one who gets the worst of it is the man who doesn't operate a double expression. Twice it's the best and if you don't have one you're out in the cold. Forty years ago this month I sold twice as many new automobiles as I did for the same month this year, and every man who was doing business at that time got his share of the double expression.

We AVOID CHANCE'S REPLY.

O. O. Smith, Fort Smith, Ark.

Mr. Chance in Washington, D. C., recently discovered that credit card on your face will bring you more money than you will make on the sale of your own automobile. Any credit card that is not a complete failure is a success because it makes money for its owner, and every man who has one makes money for his creditors.(
