How Railroads Angle for Millions With Federal Judges as Bait

Judge Phillips says he organizes his associates in a "Railroad Executive"; Judge Pollock corresponds with them as "the account." He calls it "the Willing Exemption; Judge Pollock down on the "Willing Exemption".

To judge that pending litigation before these judges was not carried out in FAVOR OF THE RAILROADS and against the interests of the investigating body on your own conclusion—which is certainly not the case for the common folk to do.

KANSAS CITY, Mo., Nov. 16.

The foregoing news item was given publicity in the Kansas City, Mo., Union, and also in the St. Louis Post-Dispatch. The item is not in favor of the railroad lines, and was given as a matter of fact. It tells of a report that the railroad executives were meeting to consider their action on the so-called "railroad executive." The item states that the railroad executives were meeting to consider their action on the so-called "railroad executive."

LET US PROTEST!

Is the spirit of freedom already dead in America? Why, if it ever existed, is it lost? The government is so weak and poor that it cannot do anything. Everybody is against us. The only way to save our country is by force. We cannot fight the government, but we can join with other countries and form an alliance against it.

If the Socialists were in power, they would make a better job of running the country. They would take care of the poor and the sick, and they would make sure that everyone had a fair share of the pie.

Join our protest and help save America from the enemy of the people.
YOU WILL BE UPROOTED BY EUROPEAN MIES

The arrest of Germaine de Lara, the Mexican painter, at Los Angeles on Wednesday by the Department of Justice was accompanied by an investigation into the connection of various federal officials with the case. The artist was arrested under suspicion of being a German spy and was ordered to appear in court to answer the charges.

The United States is in a state of war, and the Mexican government has announced that it will not interfere with American citizens within its borders. The artist was taken into custody at the request of the Department of Justice, which has jurisdiction over cases involving espionage.

The United States has declared war on Germany, and the Mexican government has expressed its support for the Allied powers. The artist's arrest is seen as a symbol of the international tension that has engulfed the world.

CENSORING THE APPEAL

Below is another installment of a letter to the editor that has reached us this week. It is worth noting that the author of the letter is a United States citizen who is residing in Mexico.

The letter begins:

"I was very interested to read your recent article about the American occupation of Mexico. As an American citizen living in Mexico, I can tell you that the situation is very complex and difficult.

The United States has been occupying Mexico for over a century, and the Mexican government has never recognized the legitimacy of this occupation. The American presence in Mexico has been a source of tension and conflict between the two nations.

The United States government has been using Mexico as a base for its military operations in the Western Hemisphere. This has led to a number of incidents, including the 1914 occupation of Vera Cruz, the 1916 expedition to Agua Caliente, and the 1917 intervention in the Mexican Revolution.

The Mexican government has always resisted these interventions, and it has been successful in its efforts to protect its sovereignty. However, the United States government has been determined to maintain its hold on Mexico.

I believe that the American occupation of Mexico is unsustainable, and it will eventually come to an end. It is only a matter of time before the Mexican government asserts its sovereignty and expels the American military from its territory.

I urge you to support the Mexican government in its efforts to maintain its sovereignty and assert its independence. The United States government should respect the rights of other nations and stop its aggressive actions against Mexico.

Sincerely,
