What an Ex-Federal Judge Says

BY M. D. ELKING
Ex-Judge of the U.S. District Court of New Mexico.

TO THE APPEAL TO REASON:—Mr. Bryan's solution of labor problems is a half-truth. He has been one of the United States Courts would prove the "inefficiency and unprofitability" of the labor system. His prophecy has come true. The people can never be free until the tyranny of our judicial system is overthrown. The democratic party has been defenestrated, I fear, by this great question. Even Mr. Bryan seems to be afraid to speak out. The vigorous, fearless, and able attack of the "Appeal to Reason" on this incorruptible hope of our ultimate redemption is an indication that liberty does not need to be called the hearts of the people a storm will be raised that will sweep this canker out of the system of government. All hail to your noble, valiant, and fearless sons, who are the torch-bearers of light and freedom in this era of stunted growth.
