GROSSCUP TAKES TO TALL TIMBER
Phillips "Retires" to Avoid Impeachment—First Blood in a Battle That Has Only Begun.

At last the effect of the proceedings of the House of Representatives against the usurpations of the federal courts is beginning to be felt. Last week, the accused judges were put on the defensive. The House turned them out of court and the Senate adopted a resolution of commendation to the judges of the federal courts for their conduct in the administration of justice. This was the first time in the history of the country that a resolution of commendation had been adopted by the Senate in favor of the judges of the federal courts.

On February 12, Judge Grosscup, of the United States circuit court, which has been besieged by the presses of the United States, was ordered to appear before the House of Representatives and to answer the charges against him. The judges of the federal courts were told that the decision of the Senate was final and that they must obey it.

The Senate, on the other hand, has refused to hear the case of the judges of the federal courts and has asked the House of Representatives to withdraw the charges against them. The House has refused to do so and has ordered the judges to appear before it.

This is the first time in the history of the country that a judge of the federal courts has been ordered to appear before the House of Representatives and to answer the charges against him. The judges of the federal courts have always been protected by the Senate and have been able to carry on their work without interference.

The Senate, on the other hand, has refused to hear the case of the judges of the federal courts and has asked the House of Representatives to withdraw the charges against them. The House has refused to do so and has ordered the judges to appear before it.

White Slave Refuses
To Return to Captors

"I will not return to the slave schooner," said Miss Mary Jackson, the white slave, to her captors in the United States. "I will never again be sold into slavery." Miss Jackson, who was taken from the slave ship "Hannah" in the United States, has refused to return to her captors.

Miss Jackson, who was taken from the slave ship "Hannah" in the United States, has refused to return to her captors. She has been in the custody of the United States government for several months and has been refused to return to her captors.

The United States government has been trying to persuade Miss Jackson to return to her captors, but she has refused to do so. The government has been trying to persuade Miss Jackson to return to her captors, but she has refused to do so.

SOMEBODY ELSE'S MOVE

Within the last month some half million or more American citizens have read a terrible story that has been printed in newspapers. It is the story of the United States government's movement to prevent the grosscup of the United States. An array of charges ranging all the way from nasty village gossip and scandal to documentary facts has been presented to the public from the time the government at Washington did nothing.

These charges, involving as they do misconduct as a man and a misconduct as a judge, are either true or they are false. Judge Grosscup, so far as he has come to light, has taken a hand in the government at Washington and has done nothing. The United States district attorney and the federal grand jury seem to have done nothing.

The point is that these things have been published by newspapers, and are rapidly becoming matters of common discussion. We believe in the freedom of the press, but the best way to secure that freedom is to punish abuses of it. If the Socialist party is in the wrong, it is their fault, and the time will come when they will be punished. Grosscup ought to sit another hour upon the federal bench.

WILLIAM CEASER BILLIARD

THE UNITED STATES TREASURY LOOTED OF BILLIONS

The United States treasury has for fifty years been systematically looted by those who supposed to be appointed of the people. The treasuries have been covered up, false books have been printed, and both the president and the people have been hoodwinked into believing the story of parity. The total deficits in the time of the depression in millions of dollars is $28,000,000,000,000. The reports in the case appear in official reports—"Reports of the Senate of the United States," and in the reports of the House of Representatives. However, it is beyond the scope of the committee to print the whole of this text. If you have read these reports, you are not in a position to dispute the fact that the United States treasury has been systematically looted.

The extent of the losses is almost unbelievable. The only portion of the loss as appears from the official reports:

- Pacific Railroad bonds (page 32): $7,000,000,000
- Disappearing in six reports (page 32): $3,000,000,000
- Further disappearances (page 33): $3,100,000,000
- Missing warrants, $200,000,000
- Bond sales disappear, 1879 (page 38): $2,000,000,000
- Overdrafts (page 42): $2,000,000,000
- Scratched (fraudulently) Pacific Railways (page 63): $56,828,320
- Warrants disappear, 1892: $52,584,737,683
- Total: $52,584,737,683

Millions Disappear.

The official report of the treasury's loss of public debt has been made, and the report is not yet issued. The report shows that the United States has lost $52,584,737,683 in public debt. The report is a grand report, and the amount involved is

THE POSTAL FIGHT IS WON

Indications That the Appeal Army Has Been Victorious—But

On the evening of February 26, 1910, the United States Post Office Department announced that it had reached an agreement with the management of the Appeal Army, a group of postal workers who had been on strike since December 1909. The agreement ended the longest strike in postal history, which had lasted for more than seven months.

The Appeal Army, led by William T. Wainwright, had been protesting the New Federal System, a plan to centralize the post office and reduce the number of employees. The strike had been supported by many unions and was seen as a significant victory for labor rights.

The agreement included a number of concessions from the Post Office Department, including increased pay and improved working conditions. The strike had been a significant event in the history of labor relations in the United States.

In this article, we will explore the history of the postal strike and the role of the Appeal Army in the labor movement.
WHAT THE U.S. SENATE IS FOR
The Senate is the house of the people. The majority party generally
controls the Senate, for the people have the power, and the Senate
is the servant of the people.

REASON IT OUT.
When the world is divided into four great nations, as it is
now, and the laboring classes of nations are not represented
in the Senate, it is the Senate that controls the destinies
of nations.

The Senate is the house of the people. It is the
house of the laboring classes. It is the
house of the poor. It is the house of the
people. It is the house of the working classes.

The Senate is the house of the people. It is the
house of the laboring classes. It is the
house of the poor. It is the house of the
people. It is the house of the working classes.

The Senate is the house of the people. It is the
